

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. AUTHORITY.

From the Trustees of the estate of Ynysymaengwyn, Sir John Edwards, Bart., Machynlleth, and John Evans, Esq., Budge-row, London.

Sir,

Aberdovey, 20 May 1846.

ABOVE you have the income and expenditure of Aberdovey Harbour, the source from whence derived, and the authority by which it is collected.

I refer to my last, of February 18th, 1845. The Honourable the Board of Trinity House, London, have buoys on the bar, for which they charge $\frac{1}{2}$ d. per ton on all vessels coming in and going out, except vessels in ballast. There are three sub-commissioners, one of whom I am, and collector of their dues.

I remain, &c.

Hon. H. Manners Sutton.

(signed) Roger Peters.

ABERYSTWYTH.

Sir,

28 April 1846.

ABERYSTWYTH.

I TAKE the liberty of enclosing a copy of the Act relating to this harbour, at the end of which there is a schedule of all dues paid and levied on shipping and goods imported and landed at this harbour, and no other charges whatever are paid on any vessel or goods on entering or departing from this harbour. I regret I am unable to make out a return of the aggregate levied on shipping and on goods for the years 1844 and 1845, as the dues of this harbour were let for a term of three years, ending 1st March last, to an individual who kept no separate account of what he received from shipping distinct from what he received for goods. The annual sum paid the trustees by the party was 1,205 l.

I have, &c.

The Hon. H. Manners Sutton, M. P.
&c. &c. &c.

(signed) John Hughes,
Clerk to the Trustees.

ABERYSTWYTH.

SCHEDULE (A.)

For all ships or vessels belonging to foreign subjects, coming from foreign parts, and unloading their cargoes within the limits of the said port of Aberystwyth, 1 s. per register ton.

For all ships or vessels belonging to foreign subjects, loading within the limits of the said port with slates, lead ore, bark, or any other merchandize, 6 d. per register ton.

For all ships or vessels belonging to foreign subjects arriving at or in the said port by stress of weather or otherwise, without unloading any part of their cargoes within the limits of the said port, 6 d. per register ton.

For all ships or vessels belonging to his Majesty's subjects coming from foreign parts, unloading their cargoes, or part thereof, within the limits of the said port, 6 d. per register ton.

For all coasting and other vessels belonging to his Majesty's subjects, and not coming from foreign parts, unloading within the limits of the said port (except in ballast or with limestone), 4 d. per register ton.

If in ballast or loaded with limestone, 3 d. per register ton.

For all ships or vessels belonging to his Majesty's subjects driven or coming into the said port by stress of weather only, and without unloading any part of their cargoes within the limits of the said port, 3 d. per register ton.

For all ships or vessels belonging to his Majesty's subjects loading within the limits of the said port with slates, lead ore, bark, corn, or other merchandize, 3 d. per register ton.

For every steam-vessel, exclusively employed in carrying passengers and their luggage, which shall enter or leave the said port or harbour, or coming within the liberties thereof, 6 d. per register ton.

All boats and vessels exclusively employed in fishing to be exempted from the above rates and duties.

LLANSAINFRAED.

Her Majesty's Customs, Aberystwyth,
5 May 1846.

Llansainfraed.

WE beg leave to state that the out-station of Llansainfraed is not a port, nor is there a harbour at the place; being close to the sea, vessels of small tonnage are beached during the summer months, to load their cargoes, consisting almost invariably of coal, culm, and limestone, for which no dues are charged; but the proprietor of the adjoining land has occasionally received one penny per ton from vessels according to their tonnage, and we are informed contemplates making that charge a permanent one.

We have, &c.

ALDBOROUGH.

Custom-House, Woodbridge,
27 April 1846.

ALDBOROUGH.

Sir,

ALDBOROUGH having been reduced and placed under the management of this port, your letter of the 24th instant, directed to the collector and comptroller there, has been forwarded to us:

And we beg, in reply thereto, to state that there being no foreign arrivals at that place during the years 1844 and 1845, the accounts called for under the resolution of the House of Commons, dated 24 March 1846, in reference to the several dues, &c., levied on shipping at that port, will be - - Nil.

We are, &c.

The above is a true return of the receipts of the harbour dues of *Ilfracombe*, in the county of Devon, for the years 1844 and 1845. The same are levied by Sir Bouchier Palk Wrey, baronet, lord of the manor of *Ilfracombe* aforesaid, by virtue of the provisions of an Act passed in the fourth year of the reign of George the Second, intituled, "An Act for repairing and keeping in repair the Pier and Harbour of *Ilfracombe*, in the county of Devon."

By the Act all vessels belonging to the port pay 6 d. on arrival; every other ship not belonging to the port, using the coasting trade of this kingdom, 1 s. 6 d.

Ships engaged in foreign voyages, 2 s. 6 d. each.

The duties on goods exported and imported are too numerous and various to mention, but they are set forth in the before-mentioned Act.

Every vessel belonging to the port of *Ilfracombe* pays 6 s. 8 d. for the use of the warp.

Every other vessel the sum of 13 s. 4 d.

For laying up every vessel belonging to the port pays 4 s. 4 d.; every other vessel 6 s. 8 d.

William Gribble, Steward of the Manor.

BEAUMARIS.

BEAUMARIS.

THE mayor of Beaumaris regrets that the return and scale of harbour dues and charges which have been transmitted, are not satisfactory.

The harbour dues are let (as has been stated) by the council at a rent of 250 *l.* per annum, and are now advertised to be re-let by tender; and it does not appear that the mayor has any power to compel the harbour-master to give an account of the "total amount." The mayor having already given instructions to the town clerk to take measures for obtaining such information as accords with the requirement of the House of Commons, hopes this explanation will, on his part, be deemed satisfactory.

HOLY ISLAND.

Holy Island.

Sir,

Chiswick, near Berwick-on-Tweed, 12 May 1846.

I HAVE the honour to transmit to you the return made by my harbour-master and lessee, Mr. William Wilson, of Holy Island, in compliance with the order for an account of the harbour dues, &c. collected at that port for each of the years 1844 and 1845, communicated to him in your letter of the 24th April last. I will not, however, be answerable for the correctness of the return, as, on inquiry, I find that no regular account of the shipping entering Holy Island Harbour has been kept by my harbour-master, and that in making the return herewith sent, he has trusted very much to memory alone. I hold the harbour with the Royalties of the Manor of Holy Island by lease from the Crown; and Wilson pays me 10 *l.* per annum, making what he can of the dues. I have always been of opinion that he made from 40 *l.* to 50 *l.* annually by these dues, seeing that Holy Island is a harbour of refuge, and the best on the east coast of England, and very much resorted to by shipping in bad weather. The French and foreign vessels are certainly understated, but I have no means of correcting the return as made by Wilson, who, I must add, is a respectable man, and acts as agent to the Trinity House, having the charge of the buoys and beacons on this part of the coast, and being also ruler of the pilots at Holy Island, and my agent as deputy vice-admiral of this part of the coast of Northumberland.

I should be very glad to learn that the Government intend to improve the natural advantages of the harbour of Holy Island, with the view of rendering it a harbour of refuge, for which it is admirably calculated, and well known as such by the masters of the coasting traders and others.

H. Manners Sutton, Esq.
Whitehall.

I have, &c.
(signed) *John S. Donaldson Selby,*
Lessee of the Manor of Holy Island.

Sir,

Holy Island, 4 May 1846.

I AM in receipt of your letter of the 24th of April, and agreeable to the Right honourable Secretary's request, below I beg to hand you, as far as is in my power, an accurate account of charges on shipping resorting to this harbour, and as there are no dues of any kind levied on goods either landed or shipped here, the anchorage, groundage, and beacon money is the only charge made, which is as follows:

For every ship or vessel coming into Holy Island Harbour and casting anchor there, the sum of 8 *d.* for anchorage and 2 *d.* for beacons, in all 10 *d.*: and for all vessels coming into Holy Island Harbour and resting on the ground there, the sum of 1 *s.*, and 2 *d.* for beacons, in all 1 *s.* 2 *d.*; and in the years 1844 and 1845 the total amount collected was as follows:

	£.	s.	d.
1844: Number of British vessels, at 10 <i>d.</i> each, 250 - - - - -	10	8	4
Ditto - ditto ditto at 1 <i>s.</i> 2 <i>d.</i> each, 100 - - - - -	5	16	8
French and other foreign vessels - - - - -	1	5	-
Total collected in the Year 1844 - - - £.	17	10	-
1845: Number of British vessels, at 10 <i>d.</i> each, 235 - - - - -	9	15	10
Ditto - ditto - ditto at 1 <i>s.</i> 2 <i>d.</i> each, 95 - - - - -	5	10	10
French and other foreign vessels - - - - -	1	10	-
Total collected in the Year 1845 - - - £.	16	16	8

In collecting the above, of course I have to have a boat for the purpose, as it is necessary I must board each vessel, which is attended with a good deal of expense.

N. B.—No harbour dues levied on goods landed.

I am, &c.
(signed) *William Wilson,*
Sub-lessee for the Harbour of Holy Island.

WILLAND NAVIGATION.

Welland Navigation.

Sir, Spalding, 29 June 1846.

I HAVE the honour to report to you that the duties payable to the trustees of the Welland Navigation are derived from two sources; one being under an Act of Parliament of 1 Vict. c. 113, which applies only to goods; the other under an Act of 5 Vict. (Session 2) chap. 55, which applies to the tonnage of vessels navigating Boston Deepes and the river Welland, and to the lastage of corn and grain carried by such vessels.

	£.	s.	d.
The duties received under the first-mentioned Act amounted in 1844 to	3,417	4	5
Ditto - - - - - ditto - - - - in 1845 to	4,371	17	10
The duties received under the secondly-mentioned Act for the tonnage of vessels amounted in 1844 to	1,259	9	-
Ditto - - - - - ditto - - - - in 1845 to	1,612	19	3
And for lastage on corn in 1844 to	385	1	3
Ditto - - - - in 1845 to	528	19	8

I have, &c.
(signed) *Charles Bonner*,
Clerk to the Trustees.

The Hon. H. Manners Sutton,

BRIDGWATER.

Bridgwater.

Sir, Bridgwater, 15 May 1846.

I BEG to send you an extract from the Act 8 & 9 Vict. c. 89, intituled, "An Act for improving the Navigation of the River and Bay leading to the Borough of Bridgwater; for maintaining the present Bridge and extending the Quays within the Borough; and for forming a Communication by Road and by Railway between the Quays and the Bristol and Exeter Railway."

It is enacted by sec. 32, "That it shall be lawful for the mayor, aldermen, and burgesses from time to time to demand and receive for every vessel which shall enter the navigation from the Bristol Channel for each time of its so entering, any sum not exceeding the rates following (that is to say), the sum of One penny for every ton burthen of such vessel; for the moorage of every such vessel, One shilling."

And sec. 36 enacts, "That the tonnage rate of British vessels shall be ascertained according to the certified tonnage in the register, and of all other vessels according to the rules of admeasurement established by 5 & 6 Will. 4, c. 56, intituled, 'An Act to regulate the admeasurement of the Tonnage and Burthen of the Merchant Shipping of the United Kingdom,' or any law for the time being regulating such admeasurement."

The same rates, both for tonnage and moorage, had been received at this port under the provisions of 34 Geo. 3, c. 105, but which was repealed by the recited Act of the last Session. There are no other port harbour dues.

A company called The Bridgwater and Taunton Canal Company, incorporated by Act of Parliament, make some charge per ton on parties availing themselves of their floating docks at this port. Agent of the company, John Farquhar, Esq., Bridgwater.

The harbour dues received at this port during the years 1844 and 1845, for moorage and tonnage, were as follows:—

(signed) *Thos. Ewen*,
Accountant to the Bristol Dock Company.

TABLE of RATES payable to the BRISTOL DOCK COMPANY, under the Acts 43 Geo. 3, c. 140, & 48 Geo. 3, c. 11.

RATES on GOODS, distinguishing those particularised in the Act of Parliament, from those not therein particularised.

For all Goods, Wares, and Merchandizes, imported from Parts beyond the Seas, and not brought by Inland Navigation into the Port of Bristol (except Corn, Flour, Rice, and other Articles of Provision), and also for all Goods, Wares, and Merchandizes, brought Coastwise into the said Port, of Foreign Growth or Importation, but not of British Growth or Manufacture, except from Cardiff, Newport, and other Ports eastward of the Holmes; and except Corn, Flour, Rice, and other Articles of Provision; and except Foreign Goods brought Coastwise, which shall not be discharged for Sale at the Quays, but pass or go to or from the Bath River Navigation, or Kennet and Avon Canal.

(N. B. All Goods not particularly rated, to pay the same as Goods of a like Value and Package.)

N. B. The Reductions made in September 1834, in the Rates on the particularised articles are printed in italics.

In the not particularised Articles, numerous reductions have been made from the Amount of Rates originally collected.

CARLISLE.

CARLISLE.

Sir,

Custom-house, Carlisle, 1 May 1846.

We beg leave to enclose the return required, so far as we have it in our power to make up the same.

None of the dues in question are collected in this office, consequently, we had to apply for information on the subject to the Carlisle Canal Company, who receive the dues, and by whom we were furnished with the particulars of the enclosed. It appears, however, that from the method of keeping their accounts there would be no small difficulty in separating the amount received on vessels from that received on goods. Should any farther detail be required the secretary to the Canal Company alone can supply it.

We have, &c.

Pwllheli.

PWLLELI.

Sir,

Pwllheli, 2 May 1846.

I TAKE leave to inform you that the duties at this port were, up to a period of about two years since, farmed at a rent of 15 *l.*, which was about, or a little under the amount received. Nothing has been received during the last two years, payment having been resisted by the masters and shipowners; legal proceedings are, however, about to be adopted to enforce the payment.

I have, &c.

BOGNOR.

CHICHESTER.

Bognor.

Sir,

Bognor, 17 July 1846.

I BEG to state that there is neither port, harbour, creek, or docks at Bognor, and that the only dues on shipping arriving at Bognor is a charge of 1*d.* per ton per day, on the tonnage of each vessel, provided the same do not amount to more than 10*s.* per ton per day on such vessel, for the use of the mooring-chains authorised to be put down by the commissioners of the town, under the Act. 6 Geo. 4, c. 135, s. 34, and that the only goods subject to dues on being imported or landed within the town, are sea coal, culm, or coke, a duty of 2*s.* for every chaldron or ton; ashes or cinders, a duty of 1*s.* for every chaldron of 36 bushels; and timber, for every load of 50 cubic feet, a duty of 1*s.* 6*d.*

The only goods of the above kinds which have hitherto paid duty are coals; and subjoined is the amount of such duty for the year 1844, with the amount of the drawback from such duty on coals taken out of the town for consumption.

The amount of the moorings for the same period is also subjoined.

I would have sent you the statements for the year 1845, but, owing to my long absence from home, the commissioners' accounts for that year have not yet been made up.

1844 :-	£.	s.	d.
Amount of the coal duties, 1,994 tons, at 2 <i>s.</i> per ton - - - -	199	8	-
Amount of the drawbacks, 808 tons 15 cwts. at 2 <i>s.</i> per ton - - - -	80	17	6
Amount of the moorings - - - - -	5	15	10

I have, &c.

(signed) Charles Constable,

Clerk to the Commissioners of the town of Bognor.

C O W E S.

Sir,

Cowes, Isle of Wight, 13 May 1846.

COWES.

I BEG most humbly to forward a return of port harbour dues levied on shipping, within the port and harbour of Cowes, Isle of Wight, in the years 1844 and 1845.

DUES levied on SHIPPING under Warrant of the Vice-Admiral, *Isle of Wight*,
1844 and 1845.

Amount, Year 1844 - - - £.	58 11 -
Year 1845 :	£. s. d.
Foreign ships or vessels arriving for orders, repairs, to embark passengers, wind-bound, or for any other purpose : 173, at 4s. 6d. each - - -	38 18 6
136 English ditto, at 1 s. each - - - - -	6 16 -
Vessels anchoring, bound coastwise, or into harbour to discharge cargo under the superintendence of Custom-house officers, being the produce of the United Kingdom : 156 vessels, at 1 s. each - - - - -	7 16 -
Amount, Year 1845 - - - £.	53 10 6

I beg most humbly and respectfully to state that there has been levied, in addition to the above dues, under the order and direction of the Worshipful the Mayor and Corporation of the borough of Newport, the following tonnage dues from all ships and vessels coming into Cowes Harbour, and within the boundaries of said borough :—

DUES levied on SHIPPING under the Order and Direction of the Mayor and Corporation of *Newport*.

Year 1844 :	£. s. d.
All ships or vessels of 100 tons burden or upwards, 5s.; 50 tons and under 100 tons, 2s. 6d.; and under 50 tons, 1s. 4d. each - - -	38 16 -

Total Amount, Year 1845 - - - £.	35 10 -

I beg humbly to remark with regard to goods landed from ships or vessels putting into this port in distress, the cargoes are in all such cases put in stores or warehouses the property of, or hired by, the several consular or shipping agents, under the superintendence of Custom-house officers, and reshipped when the vessel is repaired, and any and all charges

COWES.

for landing and reshipping said goods are levied by said vice-consuls or shipping agents, with the exception of an occasional vessel bound direct to Cowes with a cargo of timber, cork, or fruit, which are invariably (after paying such duties and charges as are required at the custom-house) delivered to the importers, without any additional charge or dues, unless conveyed in small craft to Newport Quay, a distance of five miles from Cowes, where certain dues are levied on said goods so conveyed and landed at Newport, under the authority of the mayor and corporation of said borough, to whom may I beg leave to refer for the amount of dues so charged.

I would further venture humbly to remark, that there are no docks at Cowes or Newport in which ships discharge cargoes; the docks at this port being used solely for the purpose of shipbuilding and repairing, having no storehouses or warehouses for that purpose.

I have, &c.

By order of the Corporation,
Henry Sewell, Town Clerk.

COWES.
Yarmouth.

RULES and REGULATIONS to be observed by all Masters and Commanders of Vessels (or Pilots in charge of such Vessels), belonging or trading to and from the Port of the Borough of Yarmouth, Isle of Wight. By order of the Corporation.

ALL masters and commanders, or pilots in charge, are to station, place, and moor their vessels at such places, or alongside the quay, as the harbour-master shall appoint, and remove them as occasion may require, under directions from the harbour-master.

Vessels retailing or waiting for a cargo to give up an inside berth to any vessel to deliver her cargo quickly by wholesale.

All vessels at the quay to have their anchors stowed, jib-boom in, and lower yards topped, if necessary; and no vessel is to lay at moorings or at anchor in the river without her bowsprit being run in.

No ballast, ashes, dung, earth, sand, bricks, tiles, or other loose matter or thing, to be loaded or unloaded from or upon any other part of the quay than the harbour-master shall appoint; and care shall be taken to prevent any of the above-named articles, or other loose matter or thing, from falling into the said harbour or river, by having a canvass or cloth nailed, fixed, or otherwise fastened, extending from the vessel to the wharf, quay, or other vessel; and if any of the above articles are landed at or on the above quay, they shall be placed 10 feet from the edge thereof, and wholly removed within 24 hours.

Whenever a vessel is about to enter or leave the harbour, she is to hoist a flag, and the master or pilot is to inform the harbour-master, who will direct the masters of vessels at the quay or in the river to be in readiness to slacken or haul in the moorings, hawser, or chain, as may be necessary, and any damage sustained will be borne by the party neglecting to perform the same.

No person is to lay down moorings in the river without first applying to the harbour-master, who will fix upon a spot; and in the event of any increase to the number of vessels belonging to the port, the smaller boats must relinquish their berths, and be removed higher up the river.

Boats will not be permitted to be hauled up on the slip or other landing-place belonging to the borough, except in stress of weather, and the owners will be proceeded against if they do not instantly remove them upon being ordered by the harbour-master to do so.

Every person taking gravel, stone, shingle, sand, sea-weed, or other material, from any part of the river, harbour, or shores belonging to the corporation, without permission, will be proceeded against according to law.

The harbour-master is directed to afford every possible accommodation, and to discharge his duties with civility and firmness.

A list of licensed coal-meters may be seen by application to the harbour-master.

DARTMOUTH.

BRIXHAM.

Sir,

Brixham, 8 May 1846.

I AM directed to say that the Commissioners are not in a position to make the Return required in your letter, inasmuch as the tolls are annually let by auction, and no account is kept of the amount paid by the shipping in particular.

The tolls generally are now let for 750*l.* per annum, and they have averaged that amount for the last four years. The local shipping (that is, vessels belonging to the harbour of Brixham, although erroneously included in the Return for Dartmouth) amounts to about 14,800 tons, and the dues payable by them, at 6*d.* a ton per annum, will be about 370*l.*, to which may be added 30*l.* for casual shipping entering the port. The remainder of the 750*l.* will be then for dues on exports and imports.

I have, &c.

(signed) R. W. Wolston, Clerk to the Commissioners.

The Right Hon. H. Manners Sutton.

Schedule (B).—TABLE of Rates and Dues of Harbour.

	<i>s.</i>	<i>d.</i>
For every ship, boat, or vessel, the managing owner of which resides in the parishes of Brixham or Churston Ferrers, per ton register, yearly	—	6
For every ship or vessel laid up unemployed within the said harbour, for any term exceeding two months, per ton per month, after the first two months, in addition to the yearly payment	—	1
For every vessel laid up and employed as a store within the said harbour, per ton per month, in addition to the yearly payment	—	2
For every open boat coming within the said pier, not to pay more than twice in one day	1	—
For every ship or vessel putting into the said pier or harbour, each time per ton, for every ton the said vessel shall measure for each voyage, except vessels belonging to Brixham aforesaid	—	2
For every ship or vessel not belonging to the harbour of Brixham, discharging or taking in a cargo, per ton register, inclusive of the above toll for coming into the harbour	—	3
(Half a cargo to pay the same as a full cargo.)		
For less than half a cargo, per ton register	—	2
For every ship or other vessel discharging or taking in ballast, per ton for every ton	—	4

But every ship or other vessel discharging her ballast, for the purpose of being overhauled or repaired, provided a notice in writing to that effect be given to the harbour-master, only to pay on discharging, and not on taking in the same quantity.

TORQUAY.

Sir,

28 April 1846.

Torquay.

I beg leave to inclose you one of our harbour lists, for your guide. Timber and coals are the two principal articles imported here; of the former, about 3,000 load; and the latter, 10,000 tons. Exports we have none; we have a small vessel every ten days from London with general cargoes, as per list. Our shipping belonging to the harbour amounts to about 3,700 tons. The dues arising from shipping and goods are let at yearly rent of 1,200 l. per annum.

H. Manners Sutton, Esq.

I am, &c.

Chas. Golder, Harbour Master and Collector.

EXETER.

Sir,

Exeter, 18 July 1846.

EXETER.

I HAVE the honour to transmit herewith a Return of port harbour dues, &c. called for in pursuance of a Resolution of the House of Commons, so far as relates to Exeter, Topsham, Exmouth, Sidmouth, Budleigh, Beer, Starcross, and Teignmouth, in the port of Exeter.

To the Hon. H. Manners Sutton,
&c. &c.

I am, &c.
(signed) John Gidley, Town Clerk.

A RETURN of the several DUES and CHARGES of every kind Levied as Port Harbour Dues on Shipping and on Goods Imported and Landed at each Port, Harbour, and Creek in the United Kingdom, for each of the Years 1844 and 1845, so far as relates to *Exeter*, *Topsham*, *Exmouth*, *Sidmouth*, *Budleigh*, *Beer*, *Starcross*, and *Teignmouth*.

By an Act passed in the third year of Her present Majesty's reign, intituled "An Act for Equalizing, Defining, and Regulating the Petty Customs, and for facilitating the Collection thereof, and of the Quay Dues payable to the Mayor, Aldermen, and Burgesses of the City and Borough of Exeter, and for preserving the Navigation of the River Exe," a Schedule of petty customs or town dues is established to be taken in that part of the port of Exeter which lies within the Cheekstone Rock, which is situate outside the harbour of Exmouth. A copy of the Schedule to that Act is sent herewith.

A Table of the petty customs or town dues taken in all other parts of the port which are not affected by the said Act of Parliament, is also sent herewith.

The Schedule to the Act and the Table contain accounts of all the petty customs taken in the port of Exeter, which comprises the several places above mentioned.

The above petty customs having been let on lease with other sources of revenue belonging to the corporation of Exeter for the years 1844 and 1845, the amount of the petty customs received in those years cannot be ascertained.

Exeter, 18 July 1846.

John Gidley, Town Clerk.

The SCHEDULE of RATES and DUTIES referred to in the above-mentioned Act.

TEIGNMOUTH.

EXETER.

Honourable Sir,

Teignmouth, 23 May 1846.

Teignmouth.

I BEG to forward to you a printed copy, marked (A.), of Schedules (A.) and (B.) annexed to the Act 6 Will. 4, intituled, "An Act for maintaining and regulating the Harbour of Teignmouth and the Navigation of the River Teign, in the County of Devon," being the maximum of the rates and duties the Commissioners are authorized under the said Act to levy on shipping and goods, so far as the harbour of Teignmouth is concerned.

I also beg to forward to you a printed list of the reduced rates and duties which the Commissioners determined on, at their meeting on the 18th day of April 1837, should be collected under the said Schedules (A.) and (B.)

And likewise a further reduced list of the rates and duties which the Commissioners settled, at their meeting on the 16th June 1842, should be collected under Schedule (B.), and which are now collected under that Schedule accordingly.

I also beg to inform you that the rates and duties levied by the said Commissioners under Schedule (A.), that is, on the shipping inwards, amounted, in the year 1844, to 100 *l.* 14 *s.* 2 *d.*; and that the rates and duties levied under Schedule (B.), that is, on goods imported and landed in the said harbour, amounted, in the year 1844, to 319 *l.* 0 *s.* 3 *d.*; and in the year 1845, on the shipping inwards, 129 *l.* 18 *s.* 4 *d.*; and in the same year, on goods imported and landed, to 329 *l.* 15 *s.*

I also beg to inform you, that under the said Act the Commissioners are entitled for every ton of goods in any barge or vessel navigating the River Teign to a sum not exceeding 2 *d.*; but the sum the Commissioners actually charge and take is only 1 *d.* per ton, which in 1844 produced 151 *l.* 14 *s.* 6 *d.*, and in 1845, 179 *l.* 7 *s.* 6 $\frac{1}{2}$ *d.*, levied on all such goods, whether being carried up or down the said river.

I have, &c.

The Hon. H. Manners Sutton, &c. &c. &c.
Whitehall.

(signed) L. M. Marton,
Collector.

(No. 1.)

TEIGNMOUTH HARBOUR.

So much of an Act for Improving, Maintaining, and Regulating the Harbour of *Teignmouth*, and the Navigation of the River *Teign*, in the County of *Devon*, as relates to the Schedules which impose Harbour Dues on Shipping and Goods.

The harbour of Teignmouth is bounded on the east by the bar, and on the west by a straight line from Risdon's Point to Teignsnape Point, defined by two granite stones on those points, marked T*H boundary.

The said Commissioners have ordered that the collector be the officer (until further notice) to whom all persons, who in pursuance of the said Act are obligated so to do, do make their report respectively of the arrival or departure of any ship, lighter, barge, vessel, or boat, and of her cargo; that the collector be also the officer to whom all registers of tonnage and bills of lading be produced, and that the collector be also the officer to measure all ships, lighters, barges, vessels, or boats, whenever such may be respectively required in pursuance of the said Act.

Mr. Laurence Malcolm Maxton, of the Customs, Teignmouth, has been appointed by the said Commissioners the collector of the said rates, duties, and tolls.

By order of the Commissioners,

1 August 1837.

L. M. Maxton, Collector.
P. Pearce, Clerk.

(No. 3.)

THE Commissioners appointed and acting under and by virtue of an Act of Parliament passed in the Sixth Year of the Reign of his Majesty King William the Fourth, intituled, "An Act for Improving, Maintaining, and Regulating the Harbour of Teignmouth, and the Navigation of the River Teign, in the County of Devon," have ordered and directed that the following be (until further notice) the **RATES, DUTIES, and TOLLS** to be collected and paid, under and by virtue of the said Act, from and after the 1st day of August 1842 inclusively.

RATES and DUTIES to be Collected and Payable under Schedule (A.), referred to in the said Act.

For every ship, barge, lighter, or other vessel, for every time it comes into the harbour of Teignmouth, and within the limits to be set forth by the Commissioners, from sea—

If registered at any port of the United Kingdom, per ton register, 1*d.*

If not registered at any port of the United Kingdom, per ton register, 2*d.*

Every vessel remaining at the harbour more than six months, one-third more of the above rates and duties; so remaining one year, double the above dues; and the above rates for every six months it shall so remain beyond the year.

RATES and DUTIES to be Collected and Payable under Schedule (B.), referred to in the said Act.

GLOUCESTER.

GLOUCESTER.

Sir,

Gloucester, 29 April 1846.

I BEG to inform you that the only charge levied on ships and vessels employed in inland navigation, coming into the Gloucester and Berkeley Canal, is the one for lockage, under the 12th regulation of the enclosed table of rates, and that the sum so levied is so small that no separate account has been kept of the amount.

The amount of toll collected for carrying merchandize on the canal, brought by sea, and by inland navigation, both included, for the years ending 25th September 1844-45, was as follows:

1844	-	-	-	-	-	-	£. 19,738	6	1
1845	-	-	-	-	-	-	18,638	17	9

The rate per ton, &c. is shown by the enclosed table of rates.

I am, &c.

Thomas Francillon, Lieut. R. N.

The Right hon. H. Manners Sutton.

REGULATIONS.

Tonnage:

No. 1. One half of the above rates shall be charged upon goods conveyed along any part of the canal between the Stroud Junction and Sharpness Point, or the Stroud Junction and Gloucester, excepting goods coming under the operation of the 5th Regulation.

No. 2. If it be proved, to the satisfaction of the toll collectors, that the full rate of tonnage has been paid upon any goods which have passed along the canal, half the full tonnage only shall be charged on such goods re-passing along the canal (corn, flour, bran, and gurgions excepted.)

No. 3. All goods and merchandize of British produce or manufacture exported to foreign parts or British possessions abroad, shall pay a rate of 6d. per ton. And provided goods are brought up the canal to be exported to foreign parts, and *bona fide* transhipped from vessel to vessel without being landed, such goods shall be charged with the above rate of 6d. per ton only.

No. 4. All vessels partly laden entering the canal at Sharpness or Gloucester to complete their cargoes, shall only be charged tonnage rates on the merchandize shipped in the canal, and the usual lockage charges; provided such inward lading is not landed nor transhipped.

No. 5. A rate of 4d. per ton shall be charged upon all goods entering the docks at Gloucester, either by the locks or by land carriage, and not passing on the canal below Hempstead Bridge, except upon coals, road stone, and such other articles upon which the rate now paid is less than the rate of 4d. per ton above mentioned, and excepting also goods brought up the Severn to the docks.

Upon the removal of such merchandize upon which such rates have been paid, if from the docks by land carriage, or through the locks, no further payment shall be made; but if conveyed down the canal, the difference between such rates and the rates according to the printed table, or the composition rates with the Severn carriers and Bristol Channel carriers, as the case may be, shall be paid. A drawback of 1d. per ton is allowed on all goods to and from the Gloucestershire and Herefordshire canal.

Wharfage:

No. 6. All goods deposited, and remaining upon any of the wharfs belonging to the Canal Company, for a longer space of time than 48 hours, shall be charged wharfage at the rate of 2d. per ton. And all goods remaining upon any of the wharfs, excepting the North Wharf, shall be further charged wharfage at the rate of 2d. per ton per week, and at that rate for any part of a week they may so remain, after the expiration of the 48 hours. And all goods remaining upon the North Wharf shall be further charged wharfage at the rate of 1s. per ton per week, and at that rate for any part of a week they may so remain, after the expiration of the 48 hours.

The above rates to be received and collected on and from the 26th September 1844, by order of the Special General Meeting, held the 30th day of July 1844.

No. 7. All goods deposited upon the wharf underneath the Pillar Warehouse, upon the west side of the basin, and remaining there longer than 24 hours, shall be charged 3d. per ton per day.

No. 8. Goods, carriages of every description, and all other things, shall only be deposited on the wharfs, roads, and premises of the Canal Company, in such manner and on such parts thereof as the officers of the company may direct; and if any goods, carriages, or other things, shall be placed contrary to their directions, the officers of the company may remove the same; and wharfage at the rate of 6d. per ton per hour shall be charged, after notice shall have been given to remove the same.

Floatage:

No. 9. A floatage rate of 2d. per ton per week, and in that proportion for any part of a week, shall be paid upon all timber remaining afloat in the canal or basins after the expiration of 10 days; or if not duty paid, 10 days after the timber has been measured by the officers of customs.

Cranage:

No. 10. For cranage on all lifts under 2 tons weight, 3d. per ton; 2 tons and under 5 tons, 6d. per ton; 5 tons and upwards, 2s. per ton.

Tonnage, &c.:

No. 11. The above rates are payable on all goods, wares, merchandize, and things brought by water or land carriage into or upon any of the locks, basins, roads, wharfs, yards, or warehouses belonging to the Canal Company.

Lockage:

No. 12. Every vessel passing through the company's locks, empty or in ballast, shall pay 1d. per ton per register for each lock of water; and every vessel conveying along the canal a less quantity of goods than her registered tonnage, shall pay 1d. per ton per lock on the deficiency between the tonnage of the goods on board and the register tonnage of the vessel, provided that the hold of the vessel is not full.

No. 13. In all cases of removal of goods, wares, and merchandize, from the company's wharfs or docks, through the locks, upon which the above rates of tonnage have been paid, such further payment only shall be made as will amount to 1d. per ton for each lock of water on the registered tonnage of the vessel departing with such goods.

Moorage:

No. 14. All vessels remaining in the canal or basins longer than one calendar month, shall be charged $\frac{1}{2}$ d. per ton per week, and in that proportion for any part of a week they may so remain beyond that period.

Lockage and Moorage:

No. 15. Boats and vessels under 20 tons burthen shall be rated as 20 tons.

Licence:

No. 16. Boats and vessels, licensed by the committee to ply on the canal, shall be charged such sum as the company shall direct.

OUSE NAVIGATION.

Ouse Navigation.

Sir,

York, 9 May 1846.

THE following answer has been received from Goole to the application that has been made on behalf of the Lord Mayor and Corporation of York, as conservators of the River Ouse, for the return of harbour dues, pursuant to a Resolution of the House of Commons, passed 24th of March last; viz.

“ Sir,

Goole, 7 May 1846.

“ In reply to yours of the 6th instant, I have to observe, that an answer to the above-mentioned inquiries has been returned to Sir James Graham’s inquiries direct from him, on all the particulars mentioned in yours of the above date, from the port of Goole, which will render it quite unnecessary to make the statement you require, as Sir James Graham will be already in possession of it.

“ I am, &c.

“ To John Bayldon, Esq. York”

“ Joseph Boyes.”

With respect to the tonnage dues or tolls of which the corporation are in actual receipt, as trustees, under the Acts for improving the River Ouse Navigation, the annexed Schedules exhibit the maximum rates allowed to be charged by those Acts. These, however, have not of late years been charged in full, but on reduced scales; viz. coals at one-third, or 2*d.* per ton, and all other articles at two-thirds of the full rates, chargeable by the Act 5 Geo. 2, and stated on the annexed paper.

The receipts of such tonnage dues in 1844 and 1845 amount as follows; viz.

1844	-	-	-	-	-	-	£. 1,729 10 4 $\frac{1}{2}$
1845	-	-	-	-	-	-	2,094 18 8 $\frac{1}{2}$

I have, &c.

To the Hon. H. Manners Sutton,
Whitehall, London.

John Bayldon,
Clerk, Secretary and Treasurer.

THE DOCK COMPANY AT KINGSTON-UPON-HULL.

Sir,

Dock Office, Hull, 6 May 1846.

ANNEXED I transmit you a return of dock duties and charges levied upon shipping and goods, by the dock company at Kingston-upon-Hull, for the years ending 31 December 1844 and 1845.

I have, &c.

(signed) *W. H. Huffam*, Secretary.

The Hon. H. Manners Sutton,
Under Secretary of State, &c. Whitehall, London.

Y E A R.		Dock Duties on Shipping, entering or departing from the Port of Hull, including the Docks and Harbour.			Dues and Charges upon Goods Imported and Landed, viz. Wharfage Rates upon such as have passed over the Quays of the Docks only.

		<i>Memorandum.</i> —The rates of dock duties authorized to be taken and charged by the dock company at Kingston-upon-Hull, are specified in the 42d clause of the accompanying Act, 14 G. 3, c. 56.			<i>Memorandum.</i> —The rates of wharfage charged on goods imported and landed upon the quays of the docks, are set forth in the accompanying table of rates; but the Dock Acts do not make it compulsory with the merchant to land his goods; which if taken out of the docks by craft, pay no dues to the dock company.		

W. H. Huffam, Secretary.

For every ship or vessel coming to or going between the port of Kingston-upon-Hull, and any port to the northward of Yarmouth in Norfolk, or any port to the southward of the Holy Island, for every ton, 2 *d.*

For every ship or vessel coming to or going between the port of Kingston-upon-Hull, and any port or place between the North Foreland and Shetland, on the east side of England, except as above, for every ton, the sum of 3 *d.*

For every ship or vessel trading between the said port of Kingston-upon-Hull, and any other port or place in Great Britain not before described, for every ton, the sum of 6 *d.*

For every ship or vessel trading between the said port of Kingston-upon-Hull, and any port or place in the Baltic Seas, and all other ports or places above the Sound, for every ton, the sum of 1 *s.* 3 *d.*

For every ship or vessel trading between the said port of Kingston-upon-Hull, and any port or place in Denmark, Sweden, or Norway, below Elsinure, or any port or place in Germany, Holland, Flanders, France, to the eastward of Ushant, Ireland, the islands of Guernsey and Jersey, for every ton, the sum of 10 *d.*

For every ship or vessel trading between the said port of Kingston-upon-Hull, and any island or port or place of Europe to the westward of Ushant, without the Straits of Gibraltar, for every ton, the sum of 1 *s.* 3 *d.*

For every ship or vessel trading between the said port of Kingston-upon-Hull, and every port or place in the West Indies, North or South America, Africa, Greenland, or any place to the eastward of the North Cape of Norway, all places within the Straits of Gibraltar, and all islands and places in the ocean to the southward of Cape Saint Vincent, not hereinbefore named, for every ton the sum of 1 *s.* 9 *d.*

For every foreign ship or vessel coming to or going, with merchandise, from any of the above-named ports or places, double the rates, tonnage or duties above-mentioned, unless the said ships belong to British owners.

For every ship or vessel sailing coastwise or otherways, and coming into the said haven in ballast to be laid up, for every ton, coasting-duty included, the sum of 6 *d.*

Which rates or duties shall be, and are hereby vested in the said dock company as their own proper monies, and to and for their own proper use and behoof, for the purposes aforesaid, and shall be paid at the time of such ships or vessels entry inwards, or clearance or discharge outwards; or, in case any ships or vessels shall not enter as aforesaid, then at any time before such ships or vessels shall proceed from the said port, at the custom-house in the said port, so as no ship or vessel shall be subject or liable to the payment of the said rates or duties, or any of them, more than once for the same voyage, both out and home, notwithstanding such ship or vessel may go out and return with a loading of goods or merchandise.

REGULATIONS and Schedule of RATES and CHARGES on Goods of the Dock Company at Kingston-upon-Hull.

THE DOCK COMPANY AT KINGSTON-UPON-HULL.

REGULATIONS regarding Merchandise deposited on the Premises of the Dock Company, and Conditions upon which Labourage Operations will be performed.

THE dock company are desirous that it should be distinctly understood that they are not responsible for the safe custody of any goods deposited upon the dock quays, including the sheds; nor for any loss or damage that such goods may sustain, unless it can be proved to have happened through the negligence of their servants while performing any labourage operation, or that the goods shall have been specially consigned to the custody of the dock company. It is also to be understood by the consignees and agents of goods committed to the management of the dock company, and by parties lodging written orders with the respective wharfingers for the performance of labourage operations, that the company will receive such goods, and perform the work required, subject to the following regulations and conditions:

1. The dock company will not hold themselves responsible for damage occasioned by fire, or for leakage, loss, or deterioration from natural causes, of such goods as may be deposited in their warehouses. Neither will they be liable for injury that may happen to goods or packages from improper slinging or hooking the same on board vessels or craft by parties not in their employ; nor for loss or damage of any description, unless ascertained to have occurred previously to the goods being removed from the dock premises, and through the negligence of the dock company's servants.

2. The various orders for labourage upon the quays and premises of the dock company must be separate and distinct for each operation, and are to be paid for as completed, or the amount carried to the debit of the quarterly accounts of the respective parties.

3. All charges for operations performed by the company, in their warehouses or otherwise, must be discharged previously to any transfer order being accepted, or the final delivery of the goods completed.

4. Rent will be charged upon all goods, from the day on which the first portion of every parcel is deposited in the warehouses from the respective vessels; and all fractions of a week, exceeding three days, will be charged as one week; but all goods warehoused will be subject to not less than one week's rent.

5. When goods are handed directly from the landing scale to parties in attendance to receive the same, the delivery charge will not be demanded; but all goods delivered from the landing scale, into craft or vessels waiting to receive them, will be subject to the delivery rate.

6. The dock company will not provide trucks for any other purpose than removing goods upon the quays to their own warehouses, or for conveying goods ordered for shipment from their own warehouses, or the quays, to vessels or craft waiting to receive the same in any of the docks or basins. And no labourage operations will be performed beyond the limits of the company's premises.

7. The dock company will hold all goods deposited in their warehouses or premises as general liens, not only for the charges of wharfage, labourage, or rent incurred thereon, but also for the amount or balance of any account due to the company, either in respect of those goods, or of others previously landed or delivered, for the same owners or agents.

8. Goods rated according to weight will be charged on the gross quantities; and on all goods not enumerated in the following schedule, a proportionate rate will be imposed.

N.B.—Merchandise or goods of any description are not allowed to remain upon the dock quays, nor timber afloat in the docks, beyond the period of 48 hours.—See Acts 14 Geo. 3, c. 56, s. 84, and 45 Geo. 3, c. 42, s. 14.

Dock-office, Kingston-upon-Hull, 7 March 1842.

NOTICE is hereby given, that on and after the 1st day of April 1842, all goods, wares, and merchandise which shall be landed or discharged upon any of the quays or wharfs of the dock company, at Kingston-upon-Hull, will be charged and chargeable with the following rates for wharfage; and the dock company will be ready to perform labourage operations upon goods (a written order being lodged with the superintendent or wharfinger for each operation) subject to the regulations and conditions herein contained, at the respective rates and charges mentioned in the following schedule.

2d. Goods landed by the Dock Company from river packets lying in the Humber dock basin, will be conveyed to the nearest shed of the Humber dock; and goods landed or unloaded by the Dock Company in the Humber dock, will be conveyed to such packets in the Humber dock basin, and the charge for trucking in either of these cases will be two-thirds of the delivery rate, in addition to the delivery charge.

3d. In all other cases the charge for trucking goods, upon any part of the Dock Company's premises, will be the same as the delivery rate.

Sir,

Pilot-office, Hull, 29 April 1846.

I AM instructed by the Commissioners of Humber Pilotage to inform you that this office is in receipt of no other dues or charges except for pilotage and ballast.

The following is the amount received during the two years you name :—

	<i>£.</i>	<i>s.</i>	<i>d.</i>	<i>£.</i>	<i>s.</i>	<i>d.</i>
1844. Received for inward pilotage - - -	5,979	10	1	Total, 1844 :	9,683	11 11
Received for outward pilotage - - -	3,704	1	10			
1845. Received for inward pilotage - - -	5,595	7	11	Total, 1845 :	9,269	18 8
Received for outward pilotage - - -	3,674	10	9			
				<i>£.</i>	<i>s.</i>	<i>d.</i>
1844. Amount received for ballast at 1s. 4d. per ton - - -				5,033	19	-
1845. Amount received for ballast at 1s. 4d. per ton - - -				2,607	13	-

The reason why so much less has been received for ballast in 1845 than in 1844 is owing to the new docks in Hull being cut the last year, and many vessels have ballasted with earth from the excavations, instead of taking sand from the pilot and ballast-office as heretofore.

I am, &c.

Charles Smith,

Clerk to the Commissioners.

To H. Manners Sutton, Esq.

IPSWICH DOCK COMMISSION.

RETURN of the several Dues and Charges of every kind levied upon Shipping, and on Goods Imported and Landed at the Port of *Ipswich*, under the several Acts for the Improvement of the River Orwell, and constructing a Wet Dock there.

Ipswich Dock
Commission.*Duties levied on Shipping.*

Ipswich and British vessels outwards and inwards, whether coastwise or otherwise, pay the undermentioned tonnage duty, according to the register tonnage of the vessels:

	s. d.		s. d.
Under 50 tons, per ton - -	- 1	From 110 tons to 130 tons, per ton -	- 7
From 50 tons to 60 tons, per ton -	- 1½	" 130 " 150 " - -	- 8

Ditto - - - ditto - - - 1846 - -	1,026 3 10

All vessels of 50 tons register and upwards entering the port above Downham Reach are compelled to take pilots. The following is a scale of their rates:

From the Dock Entrance to Downham Reach, or from Downham Reach to the Dock Entrance, for every British sloop or vessel with one mast, for every foot of water such vessel shall draw, 1s.

For every other British vessel with two or more masts, 1s. 3d. for every foot of water such vessel shall draw.

IPSWICH.

From Downham Reach to Levington Creek, or from Levington Creek to Downham Reach, for every British ship or vessel, 6*d.* per foot for every foot of water such ship or vessel shall draw.

From Levington Creek to Harwich Harbour, or from Harwich Harbour to Levington Creek, for every British ship or vessel, 6*d.* per foot for every foot of water such ship or vessel shall draw.

For every British vessel coming inwards from Harwich Harbour to Downham Reach, 1*s.* per foot for every foot such British vessel shall draw.

For every British vessel outward bound from Downham Reach to Harwich Harbour, 1*s.* per foot for every foot of water such vessel shall draw.

For every foreign ship or other vessel which shall, by any Act of Parliament or Order of Her Majesty's most honourable Privy Council, be privileged to enter the ports of this kingdom upon paying the same duties of tonnage as are paid by British ships, the aforesaid rates of pilotage of and from such part of the said river Orwell, as such foreign ship or vessel shall be piloted.

And for every foreign ship or other vessel not so privileged, double the aforesaid rates.

Duties levied upon Goods.

Coals, coke, and cinders are the only description of cargoes charged with dues under the above-mentioned Acts; the dues upon which are, 1*s.* 6*d.* per ton.

PIEL A FOUDREY.

Piel a Foudrey.

Sir,

Ulverston, 1 May 1846.

I HAVE the honour to inform you that no traffic is carried on in the harbour of Piel a Foudrey, which is a harbour only used for shelter, and as the key to other ports and places of merchandize within the liberty of Furness; and that the only dues payable to His Grace the Duke of Buccleuch are 4*d.* for each vessel anchoring within the said liberty; and that no due whatever is payable to him on goods imported or exported; and that the total amount received for the dues aforesaid at all the places within the said liberty is, for the year 1844, 4*l.* 16*s.*, and for the year 1845, 7*l.* 9*s.* 4*d.*

H. Manners Sutton, Esq.

I have, &c.

LIVERPOOL.

Liverpool Docks.

LIVERPOOL DOCKS.

Sir,

Dock Secretary's Office, Liverpool, 30 April 1846.

I HAVE have been instructed to forward to you, which is done herewith, a return of the amounts received on the tonnage of ships and on goods, so far as the same relates to the docks at Liverpool, for the years 1844 and 1845, ending the 24th of June in each year; and also a return, showing the several rates upon tonnage and upon goods. By our local Dock Acts our financial year is made to terminate on the 24th of June in each year, which is the reason of the first return being so made out.

The Hon. H. Manners Sutton, M.P.
&c. &c. &c., Whitehall.

I have, &c.
Danl. Mason.

EXTRACTS from the several Acts of Parliament relating to the Dock and Light Duties of the Port of Liverpool, with the Schedule of Rates.

Dock Duties on Ships and Vessels.

By the 51st George 3, it is Enacted,

I.—THAT there shall be paid to the trustees of the Liverpool Docks, for every vessel coming into or going out of the Port of Liverpool, by the master or owner of the said vessel, according to the tonnage thereof, the several rates or duties in the said Act aforesaid, according to the several and respective classes of voyages to or from the port of Liverpool, and any parts or places hereinafter mentioned; that is to say,—

Class 1.—Between the Mull of Galloway and St. David's Head, including the Isles of Man and Anglesea, the sum of 3*d.* per ton.

Class 2.—Between the Mull of Galloway and Duncan's Bay Head, including the Orkney Isles, and all the islands on the western coast of Scotland; and between St. David's Head and the Land's End, including the Scilly Islands, and the east coast of Ireland, from Cape Clear to Malling Head, the sum of 5*d.* per ton.

Class 3.—All parts of the east and southern coast of Great Britain between Duncan's Bay Head and the Land's End, including the Islands of Shetland, and all parts of the west coast of Ireland, from Cape Clear to Malling Head, including the islands on that coast, the sum of 7*d.* per ton.

Class 4.—All parts of Europe to the northward of Cape Finisterre, and to the westward of the North Cape, and without the Cattegat and Baltic Sea, and including the islands of Guernsey, Jersey, Alderney, Sark, the Faro Isles, and Iceland, the sum of 1*s.* per ton.

Class 5.—All parts within the Cattegat and Baltic, including the whole of Sweden, the White Sea, and all parts to the eastward of the North Cape, all parts in Europe to the southward of Cape Finisterre, without the Mediterranean, Newfoundland, Greenland, Davies' Straits, Canaries, Western Islands, Madeira, and Azores, the sum of 1*s.* 4*d.* per ton.

Class 6.—All parts on the east coast of North America, the West Indies, the east coast of South America, to the northward of Rio la Plata inclusive; all parts of the west coast of Africa, and islands to the northward of the Cape of Good Hope, and all parts within the Mediterranean, including the Adriatic, the Black Sea, and Archipelago, the islands of St. Helena, Ascension, and the Cape de Verde Islands, the sum of 2*s.* per ton.

Class 7.—All parts in South America to the southward of the Rio la Plata, in the Pacific Ocean, in Africa and Asia, to the eastward of the Cape of Good Hope, the sum of 3*s.* per ton.

II.—That all vessels arriving at and trading inwards into the said port, shall pay the said rates from the most distant port or place from which they shall trade, before they shall be permitted to enter inwards at the custom-house of the said port; and all vessels arriving in ballast at and trading outwards from the said port, and also all ships built within the said port, shall, on trading outwards, pay the said rates to the most distant port for which they shall trade outwards, before they shall be permitted to clear out at the said custom-house; provided always, that all ships built within the said port shall, on first trading outwards, pay only a moiety of the said rates.

III.—That all vessels arriving at and departing from the said port in ballast, and which shall enter into any of the docks or basins, shall, before clearing out, or departing from the said port, pay a moiety of the rates payable on trading vessels, to the most distant ports for which they shall so clear out and depart.

IV.—That

IV.—That for one arrival, together with one departure of each ship or vessel at and from the said port, only one tonnage rate shall be due and payable; provided always, that all vessels arriving in ballast and trading outward, and all vessels built in Liverpool and trading outwards, shall afterwards, on trading inwards, pay the rates fixed on vessels trading inwards.

LIVERPOOL.
—
Liverpool Docks.

V.—That any person who shall apply at the dock-office to make payment of the dock duties, in respect to any ship or vessel, in case he shall refuse to make answer, or wilfully give a false or untrue answer to the collector of the dock duties, or his deputy, touching the most distant port from or to which such vessel has traded, or to which she is intended to sail, shall be subject to a penalty of 10*l*.

VI.—That for every ship or vessel which shall remain for a longer space of time than six months in any of the docks or basins of the said port, there shall be paid, in addition to the other rates and duties, the sum of two-pence per ton per month.

VII.—That every vessel arriving at the port of Liverpool from any part or parts of Great Britain, or of Ireland, not having or bringing a coast dispatch, shall be deemed and charged as a vessel coming in ballast, as to the tonnage rates, although such vessel may have on board any article subject to duty under the schedule of rates.

VIII.—That no vessel arriving in ballast, and proceeding to depart in ballast, shall be permitted or suffered so to depart until a certificate, from the receiver of the dock duties, of the payment of the rates due from every such vessel, shall have been produced to, and left with, the dock-master of the dock or basin where such vessel shall be stationed; and if any vessel liable to duty shall depart from any such dock, or from the port, without the production and leaving of such certificate, in manner aforesaid, the owner, consignee, and master of such vessel, shall forfeit double the amount of the dock duty which should have been paid; and the master of such vessel shall also be liable to the penalty of 20*l*.

Dock Duties on Goods Imported and Exported.

By the 6th George 4, it is enacted, That from and after the 25th September 1825, there shall be paid to the trustees, or their collector, for and upon all goods, wares, and merchandize imported or exported into and from the port of Liverpool, the several duties specified in the schedule thereto annexed; and that all goods not particularized in the schedule, shall pay a duty equal to the rate or duty affixed on goods of a similar nature, package, value, and quality, in the said schedule; which duties, by the said Act, and the Acts of the 51st and 53d Geo. 3, are payable under the following regulations:

I.—That an entry of each parcel of goods imported into the said port shall be first exhibited to the collector of the dock rates on goods, and the dockage rates payable on the goods specified in such entry shall be paid and attested on such entry, before the collector of the King's Customs shall permit such entry to be passed for the payment of the customs, or for the landing of the said goods.

II.—That when the goods specified in such entry shall have been ascertained, and the quantity known, a further entry shall be made for the remaining quantity for which the dock rates shall not have been before paid, and the same shall be paid by the importer, proprietor, or consignee, at the time of passing such entry in the custom-house, which shall be signed by the collector of the dock rates, or his deputy, before the same shall be passed at the custom-house.

III.—That in all cases where goods are to be exported from the said port, the entry of such goods intended to be made at the custom-house, shall, previously to the passing them, be produced to the collector of the dock rates, who shall attest thereon that the dock rates have been paid upon the packages or quantities specified therein, before the collector of the customs shall receive the entry for exportation of such goods.

IV.—That a duplicate of the entry before mentioned shall be left with the collector of the dock rates, at the time when such rates are paid or tendered; and for every neglect so to do, by the person making such payment or tender, there shall be a forfeiture of a sum not exceeding 40*s*., to be levied as any other penalty given by the said act.

V.—That the dockage rates on all goods imported into the said port from any part of the United Kingdom, or the islands of Man, Guernsey, Jersey, Alderney, or Sark, shall be paid before permission is given by the collector of the customs for the discharging of such goods by the master or owner of the vessel importing such goods, according to the manifest or clearance thereof at the port of loading, and such master or owner shall have a right to receive from the respective owners and consignees the several sums paid on their account for the said dock rates, according to the proportions thereof paid by him, and no more, and shall have power to retain the goods until repaid the moneys so advanced as aforesaid.

VI.—That if the collector of the rates and duties, and the owner or consignee of any goods, on which any rate or duty is imposed, but which are not described in the schedule of rates, shall differ with respect to the rate and duty payable for such goods, then such

difference shall be referred to the mayor of Liverpool for the time being, or his deputy, for his determination as to what ought to be paid for such goods, and the rates and duties fixed by him (so as the same shall not exceed the rates and duties payable on the like goods by virtue of the said Act) shall be paid and recoverable as the specified rates are recoverable by the Act.

VII.—That the trustees shall have power to lower the tonnage rates, and also the rates on goods, or any part thereof, or on any article enumerated in the schedule, as they shall deem expedient; and again to advance and revive the same, or either of them, so as that the rates, when advanced, do not exceed the rates by the said Acts authorised to be collected.

VIII.—That the collector of the customs shall be authorised and required to refuse to receive any entry or ~~coquet~~, or other discharge or clearance, or to take any report inwards, for any ship or vessel, until the dock duties be paid to the collector of the dock duties, and his receipt produced for the same.

IX.—That all persons claiming, or being entitled to claim, for any return of any money paid for dock rates, on any goods, wares, and merchandize, from any over-entry thereof, shall make and substantiate such claims, and produce all documents required to make good the same, within 12 months from the time of entry of such goods; and in default, the whole money paid shall belong to the trustees.

X.—That the trustees may, in all such cases as to them shall appear reasonable, direct the forbearance of any duty, or allow returns for any duty paid in respect of any vessels, or any goods, wares, and merchandizes, proved to have been wrecked, damaged, or spoiled, in the port or elsewhere. But all claims shall be made, and all documents in support thereof produced, within 12 months from the time of such vessels or goods being wrecked, spoiled, or damaged.

XI.—That the collector of the dock rates, and all other necessary officers, shall attend at the collecting office of the trustees, to receive entries, at all times during the hours of public business at the custom-house.

XII.—That if any master or owner, or person having the charge or command of any ship or vessel, or any owner or consignee, or any other person, owning or having charge of any goods imported into or exported out of the said port, shall at any time evade the payment of any rates and duties, payable by virtue of the Act, every such person shall pay, over and besides such rates and duties, a sum of money equal to the rates and duties so evaded, and also the further sum of 20/.

XIII.—That all the quays and wharfs of the present docks, and of all future docks to be erected in the said port, by virtue of the said Act, shall be legal quays and wharfs for the landing, re-landing, discharging, lading, and shipping of any goods and merchandizes whatsoever within the said port of Liverpool.

Light Duties.

The light duties, payable to the trustees of the docks by the 2 Geo. 3 and the 53 Geo. 3 as follows:

That the duty payable for the lighthouses by all ships and vessels entering this port be according to the following rates:—

For every ship or other vessel (his Majesty's ships, &c. excepted) trading or sailing to or from the port of Liverpool and St. David's Head, or Carlisle, or to or from any of the intermediate places, the sum of one halfpenny per ton.

For every ship or other vessel (his Majesty's ships, &c. excepted) trading or sailing to or from the said port of Liverpool, and any other port and place in Great Britain or Ireland, or the adjacent islands not herein named, the sum of one penny per ton.

And for every ship or other vessel (his Majesty's ships, &c. excepted) trading or sailing to or from the port of Liverpool, and any other port or place not being within the United Kingdom of Great Britain and Ireland, or the adjacent islands, the sum of twopence per ton, according to the register admeasurement or tonnage of such ships or vessels respectively.

That a floating light be established at the entrance of the port of Liverpool, and that the following rates and duties be demanded and levied for the same; and that the said rates and duties be levied and collected by all such ways and means, and under such penalties and forfeitures for any refusal or neglect to pay the same, as are contained in the Acts relating to the other lights belonging to the port of Liverpool, viz.:

All vessels sailing to or from Liverpool, to any port or place between Duncan's Bay Head and the Land's End, on the west side of Great Britain, and between Malling Head and Cape Clear on the east side of Ireland, one farthing per ton.

All vessels sailing to or from Liverpool, to any port or place between Duncan's Bay Head and the Land's End, on the east and southern coast of Great Britain, and between Malling Head and Cape Clear on the west coast of Ireland, one halfpenny per ton.

All

LIVERPOOL.
—
Liverpool Docks.

All vessels sailing to or from Liverpool, to any port or place not being within the United Kingdom of Great Britain or Ireland, or the adjacent islands to the northward of the Cape of Good Hope, and the northward of Cape Horn, one penny per ton.

All vessels sailing to or from Liverpool, to any port or place to the eastward of the Cape of Good Hope, and the westward of Cape Horn, twopence per ton.

XIV.—All the tonnage duties are recoverable by distress and sale of the vessel or vessels in default, her or their cargo and tackle; and the penalties for evasion of the rates on goods, wares, and merchandizes, are recoverable before any justice of the peace of the borough of Liverpool, by warrant under his hand and seal, against the goods and chattels of the offender or offenders.

AT a Meeting of the Dock Committee, held this 6th day of September 1836, present,
Charles Lawrence, Esq., Chairman, &c. &c.

THE Committee for the affairs of the estate of the trustees of the Liverpool Docks, having taken into consideration the rates and duties now payable upon several articles of merchandize imported and exported to and from the port of Liverpool; and also the rates and duties now payable upon the tonnage of vessels; and also the rates and duties now payable in support of the lighthouses and floating light;

It is resolved and ordered, that the collector or receiver of the dock rates and duties be, and he is hereby authorized to take and collect from the importers and exporters of the several articles of merchandize, particularised and set forth in the schedule hereto annexed, the several rates and duties hereinafter mentioned, in lieu of the several rates and duties now payable on such articles of merchandize, viz.:

Cotton from India, 2*d.* per 100 lbs. weight, inwards.
Jute, 1*s.* 4*d.* per ton, inwards.
Nuts, $\frac{3}{4}$ *d.* per bushel, inwards.
Oranges and lemons, 2*d.* per chest or case, and 1*d.* per box, inwards.

Silk, raw or thrown, 1*s.* per 100 lbs. weight, inwards.
Silk waste, 4*d.* per 100 lbs. weight, inwards.
Tar, 1 $\frac{1}{2}$ *d.* per barrel, inwards.
Muskets or guns, 3*d.* per case, outwards.

And it is also resolved and ordered, that the collector or receiver of the dock rates and duties be, and he is hereby authorised to continue to take and collect from the importers and exporters of all goods, wares, and merchandize, (including the rates and duties in the before-mentioned schedule, and excepting goods, wares, and merchandize brought coastwise or from Ireland,) a rate and duty not exceeding two-thirds of the rates and duties now payable on all such goods, wares, and merchandize.

And it is also resolved and ordered, that the collector or receiver of the dock rates and duties be, and he is hereby authorized not to charge and collect any rates or duties upon goods, wares, and merchandize, imported coastwise from any ports or places in the United Kingdom of Great Britain and Ireland, including the Islands of Jersey, Guernsey, Alderney, Sark, and Man.

And it is also resolved and ordered, that the collector or receiver of the dock rates and duties be, and he is hereby authorized to take and collect the several rates and duties upon the tonnage burthen of vessels, in the schedule hereinafter mentioned, in lieu of the rates and duties now payable thereon:

southward of Cape Finisterre, without the Mediterranean, Newfoundland, Greenland, Davis's Straits, Canaries, Western Islands, Madeira, and Azores, the sum of 1 s. per ton.

Class 6.—All parts on the east coast of North America, the West Indies, the east coast of South America, to the northward of Rio la Plata inclusive; all parts of the west coast of Africa, and islands to the northward of the Cape of Good Hope, and all parts within the Mediterranean, including the Adriatic, the Black Sea, and Archipelago, the islands of St. Helena, Ascension, and the Cape de Verde Islands, the sum of 1 s. 6 d. per ton.

Class 7.—All parts in South America, to the southward of the Rio la Plata, in the Pacific Ocean, in Africa and Asia, to the eastward of the Cape of Good Hope, the sum of 1 s. 6 d. per ton.

And it is also resolved and ordered, that the collector or receiver of the dock rates and duties be, and he is hereby authorized to continue to demand, levy, and collect, in lieu of the rates and duties now payable in support of the lighthouses and floating light, of and from all ships and vessels entering into and sailing out of the port of Liverpool, the rates and duties in the following schedules, viz :

Lighthouse Duties.

For every ship or other vessel, trading or sailing to or from the port of Liverpool and St. David's Head, or Carlisle, or to any other port or place between Liverpool and St. David's Head, or Carlisle, the sum of one farthing per ton.

And for every ship or other vessel trading or sailing to or from the said port of Liverpool, and any other port or place in Great Britain and Ireland, or the adjacent islands, not hereinabove named, the sum of one halfpenny per ton.

And for every such ship or other vessel, trading or sailing to or from the said port of Liverpool, and any other port or place not being within the kingdom of Great Britain and Ireland, or the adjacent islands, the sum of 1 d. per ton.

Floating-Light Duties.

All vessels sailing to or from Liverpool to any port or place between Duncan's Bay Head and the Land's End, on the west side of Great Britain, and between Malling Head and Cape Clear, on the east side of Ireland, one-eighth of a penny per ton.

All vessels sailing to or from Liverpool to any port or place between Duncan's Bay Head and the Land's End, on the east and southern coast of Great Britain, and between Malling Head and Cape Clear, on the west coast of Ireland, one farthing per ton.

All vessels sailing to or from Liverpool to any port or place not being within the United Kingdom of Great Britain and Ireland, or the adjacent islands to the northward of the Cape of Good Hope, and the northward of Cape Horn, one halfpenny per ton.

All vessels sailing to or from Liverpool to any port or place to the eastward of the Cape of Good Hope, and the westward of Cape Horn, reduced to one halfpenny per ton.

And it is also resolved and ordered, that the rates and duties so hereby authorized to be collected and taken as aforesaid, shall be so collected and taken upon all vessels arriving in the port of Liverpool on and after the 25th day of September instant, but that such alterations and reductions shall not be, or be considered, as a relinquishment or abandonment of the right of the trustees of the Liverpool Docks to revive, at any time hereinafter, the full amount, or any part, of the rates and duties now payable on such goods, wares, and merchandize, and upon the tonnage of ships and vessels, and also in support of the light-houses and floating light.

By order of the Committee,
Daniel Mason, Secretary.

LLANELLY.

LLANELLY.

Sir,

WE beg to state that our dock was formed for the use of the trade carried on at this establishment, and that the only charge made on vessels resorting to it is one penny per ton register. If goods were landed on or shipped from our quays the charge would be one penny per ton, to be paid by the consignees or shippers.

Burry Navigation Bye Laws.

16th. Masters of vessels shall keep sufficient hands on board during the flood tide, whether by day or night, who shall hold themselves in readiness either to slack down their ropes or fastenings, or move their ships, as the harbour-master or dock-masters may direct.

17th. Masters of vessels shall heave their vessels out of the docks when the weather permits, as directed by the dock-masters of the respective docks.

18th. No master of a vessel shall leave the port without paying the harbour dues.

19th. Any master, or other persons, refusing or neglecting to make the payment required by, and to conform to the above rules and bye-laws, shall be liable to a penalty not exceeding 5 *l.* for every such offence, such penalty to be subject to mitigation at the discretion of the justice before whom the case may be heard.

That the following Rates be paid by Vessels when boarded by or from either of the Skiffs :

For every vessel under 120 tons, 1 *s.*

For vessels of 120 tons and under 150 tons per register, if boarded in Caldy Roads, or to the westward of Caldy Roads, 3 *s.* each vessel.

If boarded to the westward of the Wormshead and eastward of Caldy Roads, 2 *s.* 6 *d.*

If boarded inside the Wormshead, 1 *s.*

And 6 *d.* for every 50 tons above 150 at each of the stations.

EAST AND WEST INDIA DOCK COMPANY.

Sir,

Billiter-square, 7 May 1846.

I AM desired to inform you that this Company does not levy, and has not the power to levy, any port harbour dues on shipping or on goods.

The Company undertakes the discharge of ships, and receives a payment for the landing of goods, and for accommodation afforded to shipping within the docks, according to a published table of rates, copy of which is herewith transmitted, but these are not of the nature of port harbour dues, to which alone the return refers.

The Hon. H. Manners Sutton,
 &c. &c. &c.
 Home Department.

I have, &c.
 (signed) *George Collis*
 Secretary.

REGULATIONS and SCHEDULES of RATES and CHARGES of the East and West India Dock Company.

The docks and works of this Company are the East India import and export docks and basin, called the Eastern Docks; the West India import and export docks, and the Blackwall and Limehouse basins, called the Western Docks; and that (formerly the City Canal) called the South Dock.

In addition to all their warehousing accommodation at the docks, the Company possess the East India warehouses in Billiter-street, Fenchurch-street, Jewry-street, and Crutched Friars, with the privilege of bonding East India and China produce. Tea, indigo, silk, piece-goods, and such drugs, spices, or other articles as are specially required for inspection in London, or a sufficient sample thereof, will, after landing in either of the docks, be sent up to these warehouses, whenever required by the proprietors.

REGULATIONS FOR SHIPPING.

The Company's Moorings.

The moorings in the river, within 200 yards of each of the entrances at Blackwall, and that into Limehouse basin, and within 150 yards of the Limehouse entrance of the South Dock, are reserved for the exclusive use of vessels entering into, or which have recently come out of the docks.

Every master or person in charge of any ship, lighter, barge, boat, or other vessel, of any description whatsoever, lying within the above distance, must immediately remove the same, when required by the dock-masters or their assistants. Penalty 5 l. for every hour which such vessel may remain.*

Pilots must not attempt to place ships inside the buoys, if other ships have previously brought up, but bring them to their berths in due succession on the outside, unless they shall be expressly ordered by the dock-master to take a berth inside the tier for the convenience of docking.

All parties creating obstructions will be prosecuted, and the penalties will be rigidly enforced.

*Vessels about to enter the Docks, &c.**Signals.*

The red flag on the flag-staff at the entrance is the signal for ships to prepare. A blue flag will be kept flying the whole time proper for docking; when the tide has reached high-water mark, that flag will be struck, after which no pilot must shear his vessel in, unless directed so to do by the dock-master.

* The Act referred to is 2 Will. 4. c. 52 [Local.]

Declaration Book.

When ships have brought up properly at the moorings, an officer will deliver the Company's regulations, and the commander or pilot of every vessel exceeding 100 tons must certify in the Declaration Book her draught of water; that she is provided with all necessary and sufficient warps, ropes, and tackle, to remove and moor her in safety; and that her anchors are (or shall be, before leaving the moorings) so secured and stowed as not to endanger the works, the ships therein, or the vessel herself.

East and West
India Dock Com-
pany.

Preparing Ships for Admission.

No time should be lost in getting the anchors properly secured and stowed, sails furled, quarter boats lowered down, guns unloaded, gunpowder put out, and such other precautions taken as the dock-master may direct; when these preparations are completed, a flag must be hoisted at the fore, as a signal that the ship is ready.

All ships are required to send down top-gallant yards and strike top-gallant masts, and to have their jib and mizen booms rigged close in, bomkins, martingales and all out-riggers unshipped, if time will permit, and at all events immediately after entering. Vessels will, however, be exempted from striking lower yards and topmasts, upon the master certifying that the same may be safely dispensed with, and engaging to be answerable for all consequences; but the yards must be topped well up, and the yard-arms lashed close in to the rigging.

Docking Tickets and Order of Admission.

In fixing the order of admission, and issuing the docking tickets, regard will be had to the state of the tides, and the size and draught of water of each vessel, as well as the time of arrival; the largest ships must necessarily be taken in when the tides are highest, although they may have arrived subsequent to smaller vessels. Loaded vessels must always have the preference over light ships.

No ship can be admitted if neither the master nor pilot are on board.

The docking ticket will only remain in force for the tide for which it is granted.

At the proper time for the admission of each ship, notice will be given by hoisting her ticket number at the pier head, provided she has made the signal for being properly prepared.

If any vessel shall attempt to gain admittance before her number is hoisted, the owners, and the master, pilot, or other person in charge, must be responsible for all consequences.

Entering.

When a ship's number is hoisted, she must drop up to the entrance, and have good and sufficient warps ready to send to each pier, when directed by the dock-masters. If the ship shall not so come to the entrance, she shall forfeit her turn.

When within the piers, proper ropes will be sent on board to guide and check the vessel through the lock: the master and pilot will be held responsible for making these, as well as the ship's warps, properly fast on board: the vessel must be hauled ahead by her own warps, and they are on no account to be cast off, unless ordered by the dock-master, until the ship is in the basin.

Every pilot must bring his boat into the basin or South Dock, as it is a most essential part of his duty to moor the ship.

The owners are answerable for all ship's boats, and none can be admitted into the import docks except such as are conveniently stowed on deck.

The boats of ships in the South Dock, which cannot be securely stowed on deck, must be hauled up on the north bank, or secured afloat in such manner as the dock-master may direct, after the ship is moored. Ships, however, which are not lying at a jetty, will be allowed to employ one boat during the legal hours of business, which boat must be chained by the Company's officers to the north bank, as soon as that time has expired.

Any boats found afloat in any of the docks or basins, contrary to these regulations, will be removed by the dock-master, and will be detained until the charges occasioned by such removal shall be paid.

The hatches of all loaded ships are to be locked down, and the keys delivered to the officer appointed to receive the same.

Western Import Dock.

No person whatever can be allowed to remain in this dock after the established hours of business, except as hereafter mentioned; nor can any person be permitted to have access to vessels therein, excepting the owner, master, or chief officer, without a pass.

The captains, officers, and crews of ships are requested not to give either wine, spirits, or grog to the servants of the Company, as by so doing they expose them to the certain and immediate forfeiture of their situations.

No fee, perquisite, or reward of any kind or denomination whatsoever, is to be taken by the Company's officers, or any persons who shall be employed in the service of the Company, for any act done within the docks.—Penalty, forfeiture of the sum taken, and any sum not exceeding 5*l.* for each offence.

LONDON.
East and West
India Dock Com-
pany.

Passes will be given on the application of the captain or chief mate, to admit the ship's apprentices, or other persons to prepare the ship for discharging, or to do any other work which may be unavoidably necessary. Ships which retain their crews on board must be removed to the basin after the hour of business, to remain during the night: the directors have fitted up the ship Waterloo in the South Dock for the accommodation of junior officers and apprentices, while their ships are discharging their cargoes in the import dock.

Ships discharging in either Dock.

Preparatory to ships being discharged by the Company, the decks must be cleared of articles which would impede the working out of the cargo.

Two true copies of the manifest of the cargo must be delivered into the general office, at the Dock House, in Billiter-square, within 12 hours after every vessel shall enter the docks, or after the cargo shall have been reported at the Custom-house, which shall first happen. Penalty for refusal or neglect, any sum not exceeding 5*l.*; 1 & 2 Will. 4., c. 25, s. 84.

No manifests will be required for ships discharging by their own crews.

No ships can receive their rotations, or be allowed to break bulk, until their cargoes are duly entered; and such cargoes will be landed in due succession, according to the strict order in which the manifests are delivered and entries completed.

If such manifest, or bill of lading, or copy, shall be false; or if any bill of lading be uttered by any master, and the goods expressed therein shall not have been *bonâ fide* shipped on board such ship; or if any bill of lading uttered or produced by any master shall not have been signed by him; or any such copy shall not have been received or made by him, previously to his leaving the place where the goods expressed in such bill of lading, or copy, were shipped, penalty 100*l.*; 3 & 4 Will. 4., c. 52, s. 11.

It is desirable that all baggage or presents should be sent as promptly as possible to the baggage warehouse, where an authority from the master for the delivery thereof must be lodged. Masters are particularly cautioned against signing such authorities in blank, or allowing themselves to be influenced by the importunity of brokers; and it is most desirable that one agent only should be appointed for each ship.

Packages of bullion or specie (whether cargo or private property) must be delivered by the captain, under his own responsibility, unless, from their being liable to examination or other circumstance, he may be desirous of placing the same in the Company's charge, in which case such packages, or any other of considerable value should be particularly specified, and if bills of lading have been granted for them, inserted in the regular manifest of the ship. The delivery of goods overside will also rest with the master, and he must take such steps as he may think necessary to protect his owners in respect of their freight.

An officer of the revenue is authorized to forward all despatches for the departments of Government; packets so addressed will therefore be delivered into his charge, unless the Company receive express directions to the contrary.

Conditions to be observed by Ships taking in Cargoes from the Import Warehouses.

1. The taking the ship in and out of dock, or to and from the quay, to be performed by the master and crew, as directed by the dock-masters.

2. The goods to be taken from the slings, and to be stowed away by the crew, under the orders of the master.

3. If a sufficient crew be not on board to receive and stow away the goods as delivered, or to transport the vessel, a further number of men shall be provided by the Company, at the charge of 3*s.* 6*d.* per man per day, to work under the direction and responsibility of the master and his officers.

4. The vessel to be hauled into the basin or export dock, after the usual hours of business, by her own officers and crew, and to continue in their charge.

Goods sent by land carriage will be shipped in either of the docks, on payment of the usual charges.

To prevent delay in loading export vessels, the shippers should pay up the rent and charges upon the goods; or where the amount cannot be ascertained without weighing, &c., make a deposit to cover the same.

Eastern and Western Import and Export Docks, the Basins, and South Dock.

All vessels entering or lying in these docks and basins are in charge of the masters and owners; and it is the duty of the pilots, or officers and crews, to transport their respective vessels, except as provided for by the table of rates, under their own responsibility, to or from the river, and to or from any part of the docks or basins as directed by the dock-master.

Light ships, on entering from the river, must be provided with sufficient hands to dock and transport them, and should move in due time into the dock; otherwise they will be removed by the dock-master, and the owners charged with the expense.

Ships taking in cargoes will be moored at the quays, in due rotation. Light ships not taking in goods shall be moored in either of the docks or basins, as the dock-masters may judge convenient.

While ships are lying at, or moving to or from the quay, all out-riggers should be got in and made snug; and sails are by no means to be loose while so moving.

No ship must be removed from her berth without notice being given to the dock-master, and his assent as to the time of removal being obtained.

Craft

LONDON.

East and West
India Dock Com-
pany.

Craft must be fastened to the ships from which they are receiving, or to which they may be delivering goods: the charge upon craft, which shall not be *bonâ fide** so engaged, will be the same as the rent upon sloops and craft coastwise, and, as usual, not less than one week's rent will be charged. To obviate any doubt as to the time for which they may be fairly entitled to exemption, 24 hours will be allowed, from the time of entering the dock, for receiving goods, and 24 hours after being loaded or discharged, for going out of the docks.

Convenient receptacles on the quays and craft are provided, wherein all dust, ashes, &c. are to be deposited, and which shall be cleared by the persons appointed by the Company, and by no one else.

No vessel can be permitted to take in ballast after daylight or before daybreak.

Ships' provisions or stores cannot be permitted to pass the gates, without an order signed by the captain or owner.

No caulking or plumber's work can be allowed, without special permission.

South Dock Jetties.

Ships landing cargoes in the South Dock, or taking in goods by land, shall have the preferable use of the jetties.

Ships which are fitting out, but have not commenced loading, shall be accommodated as far as possible; but such ships must be removed to make room for vessels about to discharge, or take in cargo, by land.

In other respects, preference will be given to ships intended for sale over those which are merely lying up, and as between ships which are similarly circumstanced, the priority of their entering the dock shall determine the preference.

The captains or commanding officers of ships are cautioned to be attentive and careful to boom off, when the ship is fast loading down in the water, or on the approach of neap tides.

Fire and Candle.†

To vessels lying in the Eastern Import Dock, the Eastern and Western Export Docks, the South Dock, or either of the basins, special licences will be granted.

Every such licence will express the place in which fire may be kept, and the circumstances under which it may be used: upon the slightest infringement of the conditions the penalty prescribed by law will be rigidly enforced.

Every application for a licence must be made by the master or owner, specifying the names and capacity of the persons in charge of the ship, and engaging to be responsible for their attention to the regulations.

Opening and shutting the Gates.

The gates of the Export and South Docks will be opened at six o'clock in the morning, and shut at eight o'clock in the evening, from the 1st of March to the 10th of November; and from the 11th of November to the last day of February, opened at eight in the morning, and shut at seven in the evening.

Captains and mates may be furnished with tickets upon applying at the police-office at the Eastern or Western Import Dock, which will entitle them to admission till nine o'clock p. m., but no person whatever can be allowed to go out after the hour for closing the gates.

Vessels about to leave the Docks.

Export vessels should be hauled out in sufficient time to be at the river locks at Blackwall at low water, to prevent the inconvenience of hauling down during the time that other vessels are requiring admission, which must have the preference.

Vessels can only be let out after high water upon the special request of the officers in charge of them.

Ships going into the river must use their own ropes, as they are out of the dock-master's charge when clear of the outer gates.

Hours of Attendance.

The hours of attendance are from 10th May to 9th November inclusive, eight in the morning to four in the afternoon; from 10th November to 9th May inclusive, nine in the morning to four in the afternoon, and there is to be no intermission of business during these hours.

No holidays are to be kept except Sundays, Christmas Day, Good Friday, fast days appointed by Royal proclamation, and the King's or Queen's birth days.

* All lighters and craft entering into the said docks, basins, locks or cuts, to discharge or receive ballast or goods to or from on board of any ship or vessel lying therein, shall be exempt from the payment of any rates, so long as such lighter or craft shall be *bonâ fide* engaged in discharging or receiving such ballast or goods.—Sec. 83.

Any lighter, barge, or other craft, either after having any goods taken or unladen thereout, or which shall enter for the purpose or under pretext of taking or carrying goods out of the docks, or any other pretext whatsoever, which shall remain longer therein than 24 hours, must be removed, under a penalty of 40s. for the first 24 hours, and 20s. for every further period of 24 hours during which any such lighter, barge, or craft shall remain, after notice given.—Sec. 107.

† No fires, candles, or lamps, are to be used within the dock premises, except during such times and hours as the directors shall specially order and direct.—Penalty, any sum not exceeding 10*l.*, nor less than 5*l.*—Sec. 113.

No pitch, tar, rosin, turpentine, oil, or other combustible matter, shall at any time be boiled or heated on board any ship or other vessel, craft, or boat, lying in any of the said docks.—Penalty, any sum not exceeding 5*l.*—Sec. 112.

Of 11 to 20 ditto	3	6

Upwards of 20, each mark or parcel, 2*d.*, but not to exceed 10*s.* 6*d.*, including an abstract of the certificates of damage.

Rates and charges must be paid before the vessels leave the docks, either at the docks or at the Dock-house in London.

Regulations, &c. regarding Merchandize.

No ship is allowed to break bulk until her cargo is duly entered; it is therefore important that consignees should give directions for the entry of their respective consignments at the Custom-house as soon as the ship is reported.

Baggage and presents may be cleared at the baggage warehouses, after examination by the revenue.

Particular attention is necessary to the regularity of the indorsements of bills of lading, as the Company's officers cannot pass any bill on which the authority from the shipper to the holder is not deduced by a complete and accurate chain of indorsement.

Every bill of lading should be specially indorsed, so as clearly to designate the party to whose order the contents are to be delivered.

In all cases of informality in bills of lading, from want of indorsement, &c. or of their being lost, application must be made to the Court by letter, stating the circumstances, and enclosing any documents which will show the title to the goods; in every such case the applicant must engage to indemnify the Company, by bond or otherwise, as the Court may direct.

When bills of lading are produced, which are at variance with the manifest, as to the original consignee, the Company will not pass any delivery order founded thereon until three clear days shall have elapsed.

The delivery of goods afloat will be the act of the captain or officer in charge of the vessel.

No order can be received until the manifest of the cargo, duly certified by the captain, has been deposited at the Dock-house; but the orders of the importers of all goods entrusted to the East and West India Dock Company's management may then be passed.

When parties holding orders for delivery from the quays, wish the goods housed in their own names, or in the names of other parties, they must lodge the order indorsed to that effect, and warrants will be granted accordingly.

All merchandize warehoused under the care of the Company is deliverable by warrant; but in the ordinary course of business, muscovado sugar, wood (excepting ebony and dye wood, from the East Indies), goods imported in bulk, and sundry other articles, according

to

LONDON.

to custom, are deliverable by cheques or sub-orders. Warrants, however, will be granted at the desire of the proprietor, for any article warehoused in packages, or for the whole quantity of a bulk as imported, or for any allotment of such bulk, on payment of the expense of separating it into distinct and corresponding parcels.

That the course of business may be fully understood, the attention of importers and purchasers of produce is particularly requested to the following memoranda :

Warrants for goods which are usually sold without lotting, will be made out for such quantities as have been found generally convenient to the importers.

For goods which are lotted, made merchantable, &c. the warrants will be made out as soon as the operations are performed. When directions from the importer are required, notice will be given on the landing accounts, or otherwise.

The first warrants or cheques will be issued to the order of the importers, or their assigns (provided there is no stop upon the goods for freight or otherwise), upon payment of the prime rates, or landing charges.

Such payments must include all charges incurred to the time of passing the order or issuing the warrants or cheques, excepting rent ; charges accruing subsequently, and the rent, must be paid by the holders of the warrants before delivery of the goods. The proprietors of goods may, however, clear the rent and incidental charges to any desired date, and have new warrants or cheques accordingly.

Weight notes, corresponding to the warrants, will be furnished, when required, at the charge of 6*d.* each.

The landing and consolidated rates are received at the Dock-house ; rent and extra charges by the receivers at the docks, at the clearing-office at Fenchurch-street warehouse, and at Billiter-street warehouse, in whichever place the goods may be lodged.

When the assignment or removal of part of the goods only is intended, the warrants or cheques should be divided at the Dock-house in London, as hereafter provided.* If the delivery of the whole of the contents is directed, and the goods are not removed within two days, a new warrant or cheque for the remainder of the parcel must be taken out.

When the holders of warrants or cheques are desirous of assigning part of their contents, without delivery, re-weighing, re-housing, &c. new documents will be given in exchange on lodging the originals, duly indorsed. The indorsement should specially direct the manner in which the contents are to be divided, and state the names of the parties in whose favour the new warrants or cheques are to be issued, in the following form : " Please to divide the within ;" or, when part is to be delivered, " Deliver to bearer [state how many packages], and grant new one for [state how many packages] in favour of

one for," &c.

Warrants may be exchanged or divided, without assigning the goods, when desired by the holder, at the same rate of charge.

The original warrant is not charged for, but the charges for dividing or issuing new documents or transferring are—

If from the nature of the contract between the seller and buyer, re-weighing, &c. may be necessary, new warrants will be issued on depositing the warrants, indorsed with directions to that effect, containing the landing weights and re-weights, as soon as the operations are completed.

When any alterations, such as re-packing, &c. are to be made (except when preparatory to immediate delivery), the warrants must be lodged ; and others, representing the goods correctly, issued in the same manner.

In the case of casks of liquids used to fill up others, the warrant must be lodged, and the proprietor may either have a new warrant for the remainder, or it may be delivered (if not required to be used again in the same way) to his order.

The warrants must likewise be lodged, on giving orders to vat ; but if immediate shipment is not intended, new warrants will be issued as soon as the casks are refilled.

In the four last-mentioned cases, the charges for performing the operations include the expense of the new warrants.

When warrants or cheques are lost or mislaid, the Company require that they should be advertised in the public ledger, the paper containing the advertisement, and an engagement to indemnify the Company by bond or otherwise, to be enclosed with the application for duplicates. The new documents not to be issued (unless the original shall be found and delivered up) until seven clear days shall have elapsed from the date of notice by advertisement. Upon notice of the loss, the goods will be stopped, and the original document can on no account be acted upon, unless first presented at the secretary's office.

Irregularities

* If the quantity to be assigned must be weighed or measured, to separate it from the bulk, the division cannot be made until the whole quantity has been re-weighed or re-measured.

LONDON.

East and West
India Dock Com-
any.

Irregularities in the indorsements lessen the security of the proprietors of goods, and render the documents incomplete as authorities. The attention of the holders is therefore particularly called to that point, to prevent the impediments which must otherwise arise to the regular dispatch of business. But they must not attempt to remove such impediments by indorsing any warrant, order, or cheque without due authority.

Forms on which persons may be authorized to sign for others may be obtained in the general office at the Dock-house; and as no signature but that of the party named on the warrant, delivery order, or cheque can be acted upon, when goods are made deliverable to order, persons so authorized should adhere to the following form:—

For (*Name or Firm*).

(*Signature of the Person authorized*).

Deposit Accounts.

To facilitate passing orders and paying the charges due upon goods, the Company will open deposit accounts upon request from the merchants, with such deposits as they think proper; when the balance is reduced below 10*l.* a further deposit must be made, 10*l.* being the smallest sum which can be received at a time.

Parties having deposit accounts with the Company, must transmit a note of advice on the proper form with each deposit, and it will be necessary that they should invariably state on their orders or warrants whom the charges are to be paid by, thus:

* “Charges to the (date) to our account.”

(Signature.)

Or “charges to be paid by the holder.”

(Signature.)

By opening such accounts the business of merchants with the Company, particularly where goods are upon rent, is much facilitated. The proper forms and pass books may be obtained on application at the Dock-house.

Orders for Extra Work.

The charges for re-packing, or preparing for exportation, and all work not comprised in these tables, will be fixed from time to time with reference to the cost of labour and materials. No such work, however, can be done but by the order of the proprietors of goods, or parties duly authorized by them.

The charges under this head must be paid by the parties giving the order, or clearing the goods.

Goods prepared for Shipment.

When goods housed in the import warehouses are prepared for shipment, and are not taken away within the fixed number of days, they will be re-housed at the expense of the proprietor, and the charge for such re-housal, and any additional rent which may have accrued, must be paid before delivery.

The time allowed to elapse before re-housing or re-stowing is as follows:—Mahogany and other measured wood, four clear working days; dye-woods and all other goods, seven clear working days: when the export vessel loads in the docks, the time will be extended to the date of her departure.

Schedule of Rates on Goods Inwards.

The landing rate is charged upon the gross weight, and includes landing, wharfage, weighing or gauging, and housing, or piling on the quays, or loading therefrom; original warrants, accounts of landing weights or gauges, and strengths of spirits; surveying and furnishing certificates of damage. Goods not intended to be warehoused will be allowed four clear days from the final weighing of the parcel for removal, in default of which they will be housed or piled. If intended for immediate transshipment, they may remain on the quay, subject to the same regulations as goods prepared for shipment (*see above*), paying rent as if housed at landing.

The prime or consolidated rate includes all expenses for landing, wharfage, weighing or gauging at landing; coopering or mending for housing; marking, sampling, housing, weighing for actual delivery and delivering; furnishing landing and delivery weights, or gauges and strengths; surveying and furnishing certificates of damage, and rent for 12 weeks from the date of the ship's commencement of discharge, excepting where it is otherwise stated. It is charged upon the net weight, and on all goods to which it is affixed, unless notice be given by the importers of their desire to have them placed under the landing rate.

The rates for re-weighing, when not otherwise specified, one-third of landing rate.

The warehouse rent is chargeable on the gross weight, from the date of the ship's breaking bulk, or from first landing from craft: when goods sold from the landing scale are housed, the rent will be charged from the final weighing of the parcel.

A week's rent will be charged for any fraction of a week.

Before transfer by the Company, or delivery of any goods can take place, the charges on the quantity to be transferred or delivered must be paid.

SCHEDULE OF RATES AND CHARGES ON WINES AND SPIRITS OTHER THAN RUM.

East and West
India Dock Com-
pany.

Landing and Delivery Rate—Includes landing, wharfage, laying-up to gauge, cooper's attendance at landing and until delivered, original warrants, accounts of landing gauges, and strengths, and first samples; also the privilege of remaining on the quay 14 days, from commencing the discharge of the ship or craft. If the goods continue on the quay after the 14 days, quay-rent will be charged until the expiration of one month, from commencement of discharge from ship or craft, when the landing and housing rate will attach.

Landing and Housing Rate—Includes landing, wharfage, laying-up to gauge, cooper's attendance at landing until housed, accounts of gauges and strengths, first samples, and sampling at delivery, coopering, housing, and cooper's superintendence for 18 months.

Rent.—When these wines and spirits are housed, the rent commences, in all cases, from the date of the ship commencing discharge, or first landing from craft.

Coopering.—When requisite, at landing, examination, or delivery, for the protection of the property, will be executed without awaiting the proprietor's order, unless he shall give directions to the contrary, and at the rates specified in this Table. When racking is necessary, 48 hours' notice will be given to the proprietor, with the option of sending his own casks. When the casks are racked for preservation in the vault, within six months from the landing and housing rate attaching, no charge will be made.

Tasting.—Can be permitted only under the proprietor's written order. Tasting by the proprietor, or his clerk, is exempt from charge; the latter, however, must be authorized to sign orders, and be unaccompanied by any other person.

Deficiencies.—When wines and spirits are imported in casks made of proper oak, the Company engages to be responsible for deficiencies in measure, which shall exceed one gallon per cask for each year, or fraction of a year, the goods remain in charge; but the Company will not be answerable for deficiencies arising from the casks being made of other and inefficient materials.

Payment of Charges.—The landing and housing rate on the whole mark or parcel housed must be paid previous to the issue of warrants, or the transfer or delivery of any portion. Payment of rent, and other charges, will be required only on the quantity to be delivered or transferred.

Rates and Charges on Rum.

Landing Rate includes landing, wharfage, gauging, housing, loading from the quay, original warrants and accounts of gauges and strengths, surveying and furnishing certificate of damage. Rum not intended to be warehoused, will be allowed four clear days from the final gauging of the parcel for removal. If intended for immediate transshipment, it may remain on the quay seven clear days from that period, and when the export vessel loads in the docks, until the date of her departure, paying rent as if housed at landing.

The Prime or Consolidated Rate includes all expenses for landing, wharfage, gauging, coopering for housing, marking, sampling, housing and delivery, furnishing gauges and strengths, surveying and furnishing certificate of damage, and rent for 12 weeks from the ship's commencement of discharge. It is charged in all cases, unless notice be given by the importers to place the goods under the landing rate.

The Rates.

Unhousing and loading, one-third of landing rate.

Wharfage and shipping, two-thirds of landing rate.

Unloading and housing, two-thirds of landing rate.

Unhousing, wharfage, and shipping, the same as the landing rate.

Rent is chargeable from the date of the ship breaking bulk, or from the first landing from craft.

Before transfer by the Company, or delivery, the charges on the quantity to be transferred or delivered must be paid.

Published by order of the Court,
East and West India Dock House, } *H. Longlands,*
Billiter-square, 1 Nov. 1839. } Secretary.

Sir,

Billiter-square, 2 June 1846.

THE Dock Company have no return to make in relation to the port and harbour dues on shipping and goods.

The dues of the Port of London would appear to have been imposed for a limited term by the Act 39 Geo. 3, c. 69, s. 134, and the same section specifies that they shall be paid at the Custom-house. The 43 Geo. 3, c. 124, s. 2 & 3, seems to perpetuate these port harbour dues, leaving the payment to be made as before directed; and the 10 Geo. 4, c. 124, made some further arrangements respecting them.

The directors of this Company consider it impossible to identify port harbour dues, and which are supposed to exist at various out-ports, with compensations paid to this Company for discharging ships or giving them other accommodation, as shown in the table of rates which has been transmitted to you.

There are no port harbour dues on goods; and the directors cannot interpret the Order of the House of Commons as calling upon this Company to furnish a return of their receipts from the wharfage on goods for the past two years. The wharfage rates at all the legal quays, and those of the docks, are such as were established by the King in Council, and will be found in the London Gazette; and if the House of Commons desired to know the general receipts under this head, their order would not, it is presumed, have been limited to the dock companies, but would have been addressed to every proprietor of a legal quay between London Bridge and the Tower, and also to every owner of a wharf where, by sufferance of the Commissioners of Customs, goods are landed.

I have, &c.

The Hon. Manners Sutton,
&c. &c. &c.

LONDON DOCKS.
London Dock House, 22 April 1846.

Sir,
I BEG to acquaint you that the London Dock Company does not levy, nor has the power to levy, any "port or harbour dues" on shipping or on goods.
The Company receives charges for landing goods and for affording accommodation to shipping, the whole of which are specified in the table of rates which I send herewith.
I am, &c.
(signed) J. D. Powles.
H. Manners Sutton, Esq.

TABLE of the RATES, CHARGES, and REGULATIONS of the London Dock Company.

LONDON.
London Docks.

REGULATIONS REGARDING SHIPPING.

Lodgment of Manifest.—Every master of a ship is required to deliver at the superintendent's office, within 12 hours after the arrival of the vessel in the docks, or reporting at the Custom-house (which shall first happen), a true copy of the manifest or report of the cargo, signed by himself.

Discharge of Vessels.—Vessels are not to break bulk without the permission of the superintendent, until entries have been passed for the whole of the cargo.

On application of the master, the Company will pass a warehousing entry for such goods as the owners or consignees may have neglected or refused to enter within 48 hours; and will also land goods not entered within seven days; both periods to be computed from the date of the report.

No persons are allowed to work on board vessels, on the quays, or in the warehouses, unless engaged by the Company, without permission in writing from the superintendent (stowers of cargoes outward excepted); but labourers may be hired of the Company, to work under the direction and responsibility of the master of the ship, the charge being 3s. 6d. per day for each man. In cases where the number of men employed is not sufficient for the timely discharge of the cargo, additional hands are provided by the Company, at the expense of the vessel.

The decks are to be speedily cleared of such articles as impede the discharge of the vessel; and the master, mate, or some person duly authorized by the owner, is to remain on board during the unloading.

Stops for Freight.—Goods landed will be retained for freight, on due notice being given in writing by the owner, master, or other person interested therein. For such goods transfer orders will not be received, nor warrants granted, until the stop has been withdrawn, or the freight deposited with the Company.

No stop for freight can be received after an order for transfer of the goods has been lodged, or a warrant granted for them.

Goods delivered into craft, to be landed elsewhere, cannot be detained for freight.

Vessels leaving the docks for repairs are not charged rent for the period they are absent; nor is any charge made for ballast, chalk, slate, or flints received from or delivered into craft.

Water is supplied to ships from the reservoir, or delivered into the ships' boats, at 1s. per tun, on application to the dock-master, at Wapping; and filtered water from the Company's barge is put on board at 2s. per tun, for eight tuns or under; and at 1s. 6d. per tun, for any quantity above eight tuns, on application to the dock-master, at Shadwell, or at the superintendent's office.

Abstracts of cargoes, for the purpose of making up freight accounts, are supplied, on application to the superintendent, at the following charge; viz.

	s.	d.
If the goods have 10 marks or under - - - - -	2	-
— 11 to 20 marks - - - - -	3	6
— 21 and upwards, 2d. each mark or parcel, but the total charge not to exceed 10s. 6d., including an abstract of certificates of damage.		

Steam-boats are furnished by the Company, in certain cases, to vessels (not laden with corn or timber) proceeding to these docks, arriving from North and South America, the West India Islands, the Cape of Good Hope, and all ports to the eastward thereof, on application to the secretary, the superintendent, or the agent of the Company; and also to such vessels outward bound, as far as Blackwall, being of the burthen of 275 tons register, or upwards, and which have discharged their cargoes in the docks.

Vessels are only allowed to pass from the western to the eastern dock between the undermentioned hours, except in cases of emergency, notice of which must be given to the dock-master:

From 1st March to 31st October - - - - -	8 till 5 o'clock.
From 1st November to the last day of February - - - - -	8 till 4 o'clock.

Ships loading Outwards.—In order to prevent all misunderstanding on this point, the directors think it right to state that ships discharging their cargoes in the London Docks will be entitled in every case to the priority of quay berths for loading.

TONNAGE RATES ON SHIPPING.

First Class:	s.	d.

No charge made for excess beyond the register tonnage.

Note.—Vessels which discharge the whole or the greater part of their cargoes into lighters will be subject to such rates as shall be agreed upon between the shipowners and the Company.

REGULATIONS regarding Goods, and the Rates and Charges thereon.

Rent is charged on goods from the day on which the importing vessel breaks bulk. If goods be landed by a duty paid, a sight, or a warehousing entry, and taken away within three days, no rent is payable; but if they remain on the quay after that time, quay rent or watching is charged for such longer period.

Bills of lading must be produced in all cases when goods have been landed by the Company (under the authority of the 114th and 116th sections of the Act 9 Geo. 4, c. 116), for want of entry by the importer, before they can be delivered to any party claiming the same; as also when goods have been landed from places to the eastward of the Cape of Good Hope, with the exception of Van Diemen's Land and New South Wales.

Orders for transfer or delivery (the forms of which may be obtained at the superintendent's office), unless the goods are to be delivered from the landing scale, cannot be accepted until the goods have been landed.

Neither can such orders be received until the charges on the goods composing the whole of the mark or parcel have been paid.

Orders for delivery cannot be acted upon unless signed by the party in whose name the goods stand in the Company's books; or by a person duly authorized, in writing under the hand of the principal, to sign them; and should any interlineation, erasure, or alteration have been made in an order, it can only be accepted with the name or initials of the party set against such alteration.

Receivers of Charges.—The only persons authorized to receive money, are the collectors at the Superintendent's office, and wine and spirit department, the warehouse-keeper at the tobacco warehouse, the dock-master (for water furnished to vessels in the dock), and the warehouse-keeper at the Eastern Dock, except for consolidated rates, which may be paid at the London Dock House, in New Bank Buildings.

Deposit accounts may be opened at the superintendent's office.

If an order does not specify the party by whom the charges due at the date thereof, or of the transfer, are to be paid, the amount will be placed to the deposit account of the party transferring.

Warrants and Transfers.—Warrants for goods in general are issued on written application at the dock, in favour of such person as the party in whose name they stand in the Company's books may direct. The first are issued free of expense; on all subsequent warrants and transfers the charges are as follow:

For each Warrant or Transfer containing

The contents of one warrant may be divided into others for smaller quantities, at the will of the holder.

Application for duplicate warrants, in consequence of the originals being lost or mislaid, must be addressed to the secretary, at the London Dock House, in New Bank Buildings, who will make known the conditions on which they will be granted.

Weight notes are issued at any time on or before the day of prompt, on authority in writing, entitling the holder to inspect and sample the goods; the charge is 6d. each.

LONDON.**London Docks.**

Weights of Goods.—Duplicates are furnished on certain conditions, on reasonable cause for requiring them being assigned.

Samples.—When samples are required, which can only be taken after the goods have been turned out of the packages, that operation will be performed without more specific directions from the owner.

When brokers are to inspect or sample goods, the authority of their principals must be registered at the superintendent's office.

Second Samples.—Orders for second samples, if the goods are for "exportation only," are issued at the superintendent's office, the proprietor paying the customs duty thereon.

Empty Casks and Packages.—If not removed from the dock within seven days, are sold by the Company, and the proceeds paid to the owners, after deducting the sale charges and other expenses, provided the same be claimed within 12 months from the day of sale.

Goods which Pay Duty on the Delivery Weight.—The customs duties for home consumption upon the following articles bonded, are chargeable only on the delivery weight, viz. tobacco, sugar, currants, figs, raisins, mahogany, hams, and cheese; and on the delivery gauge of wines, and the gauge and strengths of spirits. No duties are charged on deficiencies of bonded goods exported from the warehouses, vaults, &c. in the docks.

Cases in which the Company are not liable.—The Company are not liable for deficiencies arising from natural causes; nor for any loss or injury sustained whilst goods are on board a vessel or craft; or in the breaking out or slinging of the same on board; or when they are received into a ship by lighters, or discharged into lighters, unless the whole of the work of loading and discharging shall be executed by their servants; nor for any deficiencies or losses whatever, unless ascertained previously to the goods being removed from the dock premises.

Tares.—The warehouse keepers will, on application in writing, attend the Customs officer to settle allowances for tares; whenever this business is to be performed by the merchant or his clerk, an early appointment for that purpose should be made with the officer.

Goods Worked for Sale.—The Company will proceed to the working for sale of all goods which require to be put in a merchantable state, immediately on their being landed, unless notice to the contrary be given by the owner or consignee.

MEMORANDA.

The wicket-gates at the north-west principal entrance, at Wapping, and at the Eastern Dock, are open for foot passengers as under :

Visitors on Sundays or public holidays are admitted only under special circumstances.

A register book for ships inwards is placed in the superintendent's office, for the use of merchants and others, in which are alphabetically arranged the names of vessels; where from; and where stationed, which also contains the particulars of ships' loading.

Letters and papers on dock business are conveyed hourly from the dock house to the dock.

The Company have also provided a letter-box at the Commercial Sale Rooms, in Mincing Lane, in which such papers may be deposited; from whence they will be conveyed at 11 o'clock, 1 o'clock, and 3 o'clock. This latter arrangement being entirely for the accommodation of the public, the Company are not responsible for letters, &c. so forwarded.

A hydraulic press has been provided, and stationed in a convenient situation, for the packing of piece goods and linens.

The London Docks contain 32 acres of water, and 11,320 feet of quay frontage; with three entrances from the river, of the following widths, viz. Hermitage and Wapping, 40 feet; Shadwell, 45 feet; where the depth of water, at spring tides, is 27 feet.

Besides a numerous night watch, a floating fire-engine is kept in constant readiness, which can be immediately set at work, and raises water at the rate of 200 gallons per minute.

EXPLANATION of the Table of Rates and Charges on Goods.

The consolidated rate is charged upon the net weight, and includes -	Landing, wharfage, and housing; or piling on the quay; coopering; sampling; weighing for delivery; certificates of damage; delivery, and 12 weeks' rent, from the date of the importing ship breaking bulk.	- - Which may be paid on each mark separately, and will attach unless notice be given to the contrary, prior to final weighing or gauging.
The import rate is charged upon the gross weight, and includes - -	Landing, wharfage, and housing; or piling on the quay; or loading from the landing scale, and furnishing the landing weights or tales.	- - To be paid before the delivery of any part of an entry can take place.
The charges for - -	Re-weighing, re-housing, unhousing and loading; or re-piling.	- - Are each one-third of the import rate.
	Unhousing, or unpiling, wharfage, and shipping.	- - The same as the import rate.
	Rent - - - - -	As per table.
	Warrants and transfers - - -	See page 9.

For the charges of landing, landing and housing, and management rates, of China and East India goods, see pages 230 to 231.

Re-piling or re-housing attaches to all goods broken out for delivery, or weighed off for home consumption or exportation, if not taken away, as under:

Within 3 clear days for all goods except wood	When the export vessel loads in the dock, the time extended to the date of her departure.
" 4 " mahogany and other furniture or measured wood - - -	
" 7 " dye wood - - -	

The time to be calculated from the date of final weighing or breaking out.

RATES and CHARGES on Goods from *China* and the *East Indies*.

The Directors have made a selection from the persons lately employed in the warehouses of the Honourable East India Company of a number of those who have been recommended to them as the best acquainted with the management of tea, indigo, silk, piece-goods, cinnamon, drugs, &c., whom they have engaged for that purpose; and have appropriated warehouses, the most conveniently situated, and the best adapted for each species of goods, which are now open for the inspection of merchants, brokers, and dealers.

At the request of the East India merchants, the charges on tea, indigo, silk, and cinnamon, have been divided into Landing, Landing and Housing, and Management Rates, of which the following are the tables:—

The Landing Rate is payable on the gross weight. Parties intending that their goods shall be subject thereto, must give notice to the Company, in writing, previously to the landing.

The Landing and Housing Rate is payable on the gross weight. Goods will be liable thereto which are not cleared under the Landing Rate, unless they are to be subjected to the Management Rate.

The Management Rate applies to goods which are worked or shown by the Company, and is chargeable on the gross weight.

Note.—Goods withdrawn from sale, after being prepared and shown, will be subject to an extra charge on being again shown.

The only articles for which Management Rates have been yet formed, are tea, indigo, silk, and cinnamon.

Rent is payable on the gross weight, and commences on the day of the ship's breaking bulk, or the first landing from craft; but the seller has an option, on paying eight weeks' rent, to have the goods exempted from further rent, during three months from the first day of public sale; such option to be declared in writing previously to the sale.

RATES AND CHARGES ON WINES AND SPIRITS.

The Landing and Delivery Rate includes landing, wharfage, laying up to gauge, watching, cooper's attendance at landing, delivery, and while on the quay; the privilege of lying on the quay 14 days from the vessel breaking bulk, or the first landing from craft; original warrants, gauges, strength of spirits, and first samples.

The Landing and Housing Rate includes landing, wharfage, laying up to gauge, cooperage, cooper's attendance at landing and housing, superintendence in the vaults for the first 18 months, original warrants, gauges, strengths of spirits, and first samples on the quay. This rate attaches after the expiration of one calendar month from the vessel breaking bulk, or the first landing from craft.

Note.—Merchants requiring wines or spirits to be housed within the time allowed (one calendar month) are particularly requested to leave a written order to that effect, when this rate will become immediately chargeable.

The Consolidated Rate on Rum includes landing, wharfage, housing, cooper's attendance, coopering, furnishing original warrants, gauges, strengths, first samples, and 12 weeks' rent from the vessel breaking bulk, or the first landing from craft.

Rent attaches to Wines and Spirits:

Charged with the landing and delivery rate after 14 days, until the landing or housing rate attaches.

Charged with the landing and housing rate from the vessel breaking bulk, or the first landing from craft.

On rum charged with the consolidated rate after 12 weeks from the vessel breaking bulk.

Note.—Rent is in all cases calculated from the date of the vessel breaking bulk, or the first landing from craft, such day being included in the term.

Racking.—Forty-eight hours' notice will be given when racking is necessary, to enable the proprietor to send his own casks, or they will be supplied by the Company, at the prices stated herein. The proceeds of the racked casks, when sold, will be paid to the proprietors, upon application, after deducting the expenses of sale, &c.

No charge is made on wines and spirits racked in the vaults within six months from the period of the landing and housing rate attaching, those for exportation or to be sent coastwise excepted.

Tasting is not permitted without a written order, the usual charge for which is not made when the tasting is by the proprietor or his clerk (authorized to sign delivery and all other orders), provided he be not accompanied by any other person.

Coopering and Repairs, &c., when required for the preservation of the property on landing, examination, or delivery, will be performed, unless directions are received from the proprietor to the contrary, and charged at the rates specified herein; and any work required to be performed, not particularly described, will be charged at a proportionate rate.

Unsizeable casks, at the rate of 210 gallons per tun, for two pipes or four hogsheads.

Deficiencies.—The Company make good the following deficiencies, from whatever cause arising, if the casks are of oak timber, but not otherwise; also, provided the claim be made within six months from delivery, and satisfactorily established by the Customs' gauge on landing and delivery, viz.

Exceeding one gallon each cask, for any period not exceeding one year.

Two gallons, if more than one and not exceeding two years, and in like proportion for each succeeding year.

Payment of Charges.—Previous to warrants being issued, or the transfer or delivery of any wines or spirits taking place, the landing and housing rate on the whole of the mark or parcel housed must be paid, together with the rent and other charges, on the quantity delivered or transferred.

RATES AND CHARGES ON RUM.

Landing Rate :

Includes landing, wharfage, gauging, housing, loading from the quay, original warrants and accounts of gauges and strengths, surveying and furnishing certificate of damage. Rum not intended to be warehoused will be allowed four clear days from the final gauging of the parcel for removal. If intended for immediate transshipment, it may remain on the quay seven clear days from that period, and when the export vessel loads in the docks, until the date of her departure, paying rent as if housed at landing.

Consolidated Rate :

Includes all expenses for landing, wharfage, gauging, coopering for housing, marking, sampling, housing and delivery, furnishing gauges and strengths, surveying and furnishing certificate of damage, and rent for 12 weeks from the ship's commencement of discharge. It is charged in all cases, unless notice be given by the importers to place the goods under the landing rate.

The Rates :

Unhousing and loading	-	-	-	-	-	One-third of landing rate.
Wharfage and shipping	-	-	-	-	-	Two-thirds of landing rate.
Unloading and housing	-	-	-	-	-	ditto.

London Dock House,
30 November 1839. }

J. D. Powles, Secretary.

Sir,

London Dock House, 4 May 1846.

THE requirement of the House of Commons is for " A Return of the several Dues and Charges of every kind levied as Port Harbour Dues on Shipping and Goods." It being quite manifest that this Company levies no port harbour dues of any kind whatever, either on shipping or goods, I am unable to make any other return on behalf of this Company than to state that fact. " Port harbour dues " are an impost having reference to the care and conservation of harbours or ports, with which this Company has nothing whatever to do.

The Hon. H. Manners Sutton.

I have, &c.

St. Katharine
Docks.TABLES of the RATES, CHARGES, &c. of the *St. Katharine Dock Company*.*Information relating to Shipping.*

THE lock is 175 feet in length between the gates, and 45 feet in width. The depth of water, at high water on the sills of the entrance lock-gates, spring tides, is from 27 to 29 feet,—neap tides about 24 feet,—both Trinity datum.

There is to the eastward of the principal dock-buoy about 20 feet depth of water at low water.

Docking and undocking take place, according to circumstances, after high water and after dark.

The following Table exhibits a scale of the rise and fall of tides, and represents the depth of water upon the sills of the lock-gates at the entrance, during the flood and ebb tides therein referred to:

N.B.—Between nine and ten thousand vessels have been docked in perfect safety since the opening in October 1828.

LONDON.

St. Katharine
Docks.*Principal Regulations.—Shipping.*

Steamboats will be provided, at the expense of the Dock Company, to vessels (not laden with corn or timber) arriving from America, the West India Islands, the Cape of Good Hope, and all ports to the eastward thereof, and proceeding to these docks, and if such vessels be of the register of 275 tons and upwards, a steamboat outwards, as far as Blackwall, will also be furnished by the company.

Upon the entrance into the docks of a vessel or craft with goods to land, a copy of the manifest or lighter note of the goods, foreign, must be lodged in the Manifest-office, within 12 hours from entering the dock.

No persons will be allowed to be employed in the unloading or loading of vessels within the docks except the crews thereof and the servants of the Dock Company; or in any other work and labour to be performed within the dock premises, whether on board ships, in lighters, or on shore (stowers on board of ships loading outwards excepted), without permission in writing from the superintendent.

The Dock Company will not be responsible for any loss or injury sustained whilst goods are on board a vessel or craft, or in the breaking out, or slinging of the same on board, unless the whole of the work performed, shall be executed by their servants; nor will the company be responsible in any case for goods received into a ship, waterborne, or by transhipment.

Goods landed in the St. Katharine Docks, and lodged in the custody of the Dock Company, may be detained for freight, if stopped prior to transfer or to the issue of dock warrants. Notice to stop such goods until the freight has been paid, or deposit made, must be lodged at the Manifest-office, or at the Cargo-ledger Office, in the Long-room, Dock-house.

Application for a survey upon goods, whilst on shipboard, must be made to the warehouse-keeper or wharfinger of the department where the vessel is quayed.

Freight-books will be supplied to shipowners or brokers, on application at the Manifest-office.

A Ship's Book Inwards is deposited, in the Long-room, in the Dock-house, for the inspection of the public; in which are alphabetically arranged the names of the vessels inwards, also showing the names of their masters, the place from whence, where stationed, and whether discharging or discharged. Also a Ship's Book Outwards, containing the particulars of ships loading outwards.

Lists of vessels in dock and where stationed, are lodged for general information with some of the gatekeepers at the land entrances, and also in the Dock-master's-office, Pierhead.

Lights and fires are only allowed on board ships or craft in the docks during the under-mentioned hours and at the periods stated:

From 22d September to 20th March inclusive, from seven o'clock A.M. to four o'clock P.M.

From 21st March to 21st September inclusive, from six o'clock A.M. to four o'clock P.M.

The Dock-master has authority to grant permission for fires in cabouses, or in the fore-castle (if no cabouse on deck), until six o'clock in the evening, from Lady-day to Michaelmas (inclusive), and until five o'clock in the evening from Michaelmas to Lady-day; as also to use candles in lanterns and coal-fires in cabins until nine o'clock during the whole year; such permission to be subject to revocation if circumstances shall render it necessary.

The wicket-gate at the principal entrance in East Smithfield will be open to the public, for foot passengers, during the hours and periods specified below, viz.:

From 21st March to 21st May inclusive, open at six o'clock A.M., shut at seven o'clock P.M.

From 22d May to 21st Aug. inclusive, open at six o'clock A.M., shut at eight o'clock P.M.

From 22d Aug. to 20th Oct. inclusive, open at six o'clock A.M., shut at seven o'clock P.M.

From 21st Oct. to 20th March inclusive, open at seven o'clock A.M., shut at six o'clock P.M.

Ships loading outwards are permitted to take in goods from the quays, cleared by the searchers, until dark.

Visitors on Sundays or public holidays, admitted only under special circumstances.

In case of illness or accident, permission may be obtained from the superintendent for admission, or egress, after the wicket-gate has been closed for the night.

A crane, capable of raising 30 tons, peculiarly adapted for the landing and delivery of marble, and the shipping of steam engines, or other heavy machinery, has been erected on the quay of the basin.

Shipowners and others, desiring general knowledge of the detailed regulations relating to shipping in these docks, will please to apply to the superintendent or the dock-master for a copy thereof.

LONDON.
St. Katharine
Docks.

TABLE of Special Regulations, Remissions and Exemptions, and Miscellaneous Charges applicable to Vessels Inwards, not being fully Laden, or Laden with the Articles enumerated, or entering the Docks Light, &c.

No tonnage rate will be charged on vessels wholly corn-laden, whose cargoes shall be landed in the docks, but a charge will, in such case, be made for docking and undocking, as under:

	£.	s.	d.
Vessels of 100 tons and upwards	-	-	-
Vessels under 100 tons	-	-	-

with liberty to remain in dock without further charge for 24 hours after final landing. Rent, after expiration of that period, 1 *d.* per ton register per week. Should the vessel load outwards, the usual tonnage rates, according to the port of destination, will be charged, instead of the rate for docking and undocking.

No tonnage rate will be charged on vessels from any port in the United Kingdom landing goods in the dock to the amount of one-third of their register tonnage, but rent in such case will be charged at the usual rate on remaining 24 hours in dock after such landing takes place. Should the vessel load outwards, the usual tonnage rates according to the port of destination will be charged.

Other vessels, not being fully laden at the time of entering the docks, will be charged tonnage rate only, on the proportion of cargo brought in; the amount of rate to be determined by the port from whence the vessel has arrived; and if discharged by the company, rates for unloading in addition, according to the description of the cargo, and quantity so discharged. Rent, after one week, 1 *d.* per ton register per week.

Vessels laden with cork or wool from Spain or Portugal, will be charged only 6 *d.* per ton register. Rent, after three weeks from date of entrance, 1 *d.* per ton register per week.

	£.	s.	d.
Light vessels entering the dock to lie up, will be charged for any period not exceeding four weeks per ton register	-	-	-
Rent per week, after the expiration of the four weeks, on the register tonnage, per ton	-	-	-

Vessels two-thirds laden with corn, will be charged tonnage rate only on the proportion which the other part of the cargo bears to the register tonnage.

Vessels having on board pitch, tar, hay, or straw—or steam vessels, cannot be admitted without special permission, and vessels laden with wood goods, or discharging the whole or greater part of their cargoes into lighters, will be subject to such terms as shall be agreed upon between the shipowners and the Dock Company.

Miscellaneous Charges.

For labourers hired of the company, to work on board, and who shall be under the directions and responsibility of captains or owners of vessels, both or either, (which rule applies to all over-board deliveries), a charge will be made for each man per day, of

Thames water supplied to vessels by the company, per tun

For an abstract of a ship's cargo inwards and weights thereof, for the purpose of making up freight accounts, the following charge will be made:—

	s.	d.
If the goods have 10 marks, or under	-	-
11 marks to 20 marks	-	-
21 marks and upwards	-	-
but the total charge not to exceed 10 s. 6 d., including an abstract of certificates of damage.	-	-

Regulations, &c. as to Merchandize.

The duties for home consumption upon the following articles bonded in these docks will be chargeable on the delivery weight only; viz., tobacco, sugar, currants, figs, raisins, mahogany, hams, and cheese,—on wines, on the delivery gauge; and on spirits, on the delivery gauge and strengths,—and no duties will be charged on deficiencies of goods exported from the bonding warehouses, vaults, &c. of these docks.

SYNOPSIS of the Routine of Public Business at the St. Katharine Docks; with an Abstract of the Principal Regulations applicable to Goods.

Information as to loaded ships lying in the docks may be obtained by reference to the Ship's Books Inwards, and Outwards, which are exhibited during the hours of business in the Long-room, in the Dock-house. A list of all vessels in dock, and where berthed, is lodged with most of the gatekeepers, and in the Dock-master's Office, Pierhead.

Deposit

Deposit accounts may be opened with the company, which will materially facilitate the merchants' business and expedite deliveries, and add perfect security in the payment of charges; but such accounts must not be overdrawn.

All orders for delivery, transfer, or intermediate operations, whether by warrant or otherwise, for goods deposited at the docks, are to be lodged at the Cargo-ledger Office, Long-room, and for such goods as are deposited in the Cutler-street warehouses at the general office in Cutler-street. Orders must state the period, from which the party into whose name the transfer, or to whom the delivery is directed, is to be held liable for rent and charges.

When goods have been sold at public sale, rent will be charged to the proprietor up to the expiration of the prompt, unless instructions are lodged to the contrary. (*See Management Rates, especially, page 251*).

The payment of the landing rates, whenever ascertained, on the whole of each mark or parcel of goods, will be required, previously to the transfer or issue of warrants, or delivery of any part thereof. Charges upon goods must be paid, or carried to a deposit account, previous to an order for transfer being received by the company.

Orders for delivery from the landing scale, may be lodged whenever the manifest of the importing ship has been deposited with the company, and will be acted upon so soon as the goods are landed; but no other order for delivery of goods will be registered, nor will any transfer of goods into the names of the parties take place until after the examination thereof.

Parties holding orders for the delivery of goods from the landing scale or from the quays, and requiring such goods to be housed, must lodge the orders forthwith in the Cargo-ledger Office, with the necessary directions endorsed thereon.

Accounts of charges on goods (other than those housed in the Cutler-street warehouses, which must be there applied for) will be obtained at the Cargo-ledger Office, under the initial of the ship's name, and on crashed sugar and indigo at the department in such office, and on baggage or presents, at the baggage warehouse over the Export Quay; the amount of such charges must be paid to the collector prior to delivery. Parties must exhibit the receipts of payment where the bills of charges have been made out; and if the goods are required for immediate delivery, they should be presented forthwith at the department where the goods are deposited.

When any impediments to delivery or transfer arise from informality, or conflicting claims, the parties must apply to the superintendent, and produce such documents as may establish their title.

When goods lodged in the custody of the Company have been stopped for freight, the proprietor may liberate them by making a deposit of the amount claimed, with the collector, according to the provisions of the 131st section of the 6 Geo. 4, c. 105.

Goods for which St. Katharine Dock Company's warrants have been issued, are not subject to detention for freight or landing charges. The warrant also supersedes a certificate of transfer, is preferable in point of security, and a saving in expense: it is the only document issued by the Company, entitled to be considered a legal symbol of the goods therein described, and is transferable, by an endorsement, without being produced at the Dock-office; thus obviating the trouble and expense of transfers; but transfers may nevertheless be effected in the books of the Company by the holder of a warrant, if desired.

Warrants will be issued to the proprietors of goods, on written application at the Warrant-office; for the convenience of merchants and others, instructions for warrants may be transmitted by the post (paid), addressed to the chief clerk of the Warrant-office, St. Katharine Docks. No charge will be made for original warrants, but for other warrants, or for transfers of goods in the Company's books, the charge will be as follows:—

	s.	d.
Each warrant or transfer for 1 or 2 packages of goods	-	- 1

Weight notes may be obtained for certain goods described in warrants, for which a charge of 6 d. will be made for each.

No warrant will be issued until the rates on the goods are paid nor until the stop for freight (if any) has been removed, or a deposit equal to the amount claimed on account of such stop made with the Company.

Merchants' orders for delivery or transfer may be exchanged for warrants at the Cargo-ledger Office, on written instructions being previously lodged.

Warrants may also be exchanged, or subdivided, at the option of the holder, without special assignment of their contents. Such warrants must, however, be lodged at the

LONDON.

 St. Katharine

Warrant-office preparatory thereto, with specific instructions, by endorsement, as to the transfer or subdivision required.

Partial deliveries of goods specified in warrants may take place by suborder, upon the warrants being lodged with the clerks in the Cargo-ledger Office.

Whenever operations are required to be performed on goods for which warrants have been issued, and by which the weights, quantities, or packages thereof will be varied, those warrants, with directions for the operations endorsed thereon, must be lodged in the Cargo-ledger Office, and new warrants will be subsequently issued, if required.

No warrant, or weight note, will be acted upon, in which any interlineation, erasure, or other alteration has been made subsequent to the issue thereof, nor will any order or endorsement be acted upon in which any alteration whatsoever has been made, unless the signature of the party granting the order, or making the endorsement, be affixed thereto.

In the event of warrants being lost, they must be advertised in such public newspaper as may be directed by the court, and seven days elapse subsequently to the advertisement, and the company be indemnified, before any delivery can be effected; but whenever the delivery of the goods is pressing, the parties may obtain it immediately, upon depositing the estimated value.

Proprietors of goods desiring to authorise their clerks to sign orders on their behalf, must lodge an instruction in writing to that effect with the chief clerk in the Cargo-ledger Office, of whom printed forms for that purpose may be obtained.

Brokers possessing general authorities in writing from merchants to inspect their goods, or draw samples, should produce the same for registry with the chief clerk in the Cargo-ledger Office.

Inspection or examination of goods may take place immediately, upon presenting the warrant, weight note, or an order from the proprietor, at the place of deposit.

Tasting of wine, and sampling of wine or spirits, will be allowed on presenting at the Vaultkeeper's Office an order from the proprietor of the goods; when warrants have been issued, the number of the warrants must be stated on the order; and if third or subsequent samples are required, the charge for sampling and duty must be paid before delivery.

With respect to goods subject to allowances for tares by the customs, with a view to prevent delay, importers may lodge a general order with the Company, authorising them to act on their behalf; but when this is not done, the merchant's clerk ought to make an immediate appointment with the landing-surveyor of the customs to settle the tares, as the landing accounts cannot be furnished until they are adjusted.

Landing and gauge accounts, with the amount of the landing rates specified thereon, also accounts of the strengths of spirits, re-weight, re-gauge, and delivery-weight of goods will be delivered at the counting-houses of the proprietors, in the City, without any charge. Similar accounts to parties residing out of the City will be transmitted by post, unless countermanded. Applications relative to all such accounts must be made at the Landing and Delivery Weight and Gauge Office, Long-room, Dock-house.

Warehouse E is specially assigned for the deposit of cigars and tobacco. Foreign linens, raw and manufactured silks, (not being East India or China,) cochineal, and manufactured articles of great value, straw and chip hats, will be deposited in the floors specially appropriated for that purpose at the north end of warehouse B. An hydraulic press and the necessary apparatus for packing, are provided in an adjoining floor.

Warehouse F has been specially fitted for the accommodation of the trade in indigo, and other East India produce.

The crashing of sugars is confined to the crashing-house attached to F, and adjoining the wood wharf. A portion of the upper part of the building has been appropriated to the packing of ships' stores.

The Dock Company will not be answerable for deficiencies on merchandize produced by natural causes, except on Russia hemp and flax, nor for other deficiencies, or liable to make good any losses, unless ascertained previously to the goods being removed from the premises of the Company.

No person is permitted to be employed in any work and labour to be performed within the dock premises, whether on board of ships, in lighter, or on shore, (except the servants of the Company, or lightermen in their craft,) without permission in writing from the superintendent.

Goods brought by Land Carriage, or Inland Navigation.

Parties in charge thereof must apply at the Manifest-office, Long-room, where instructions will be obtained as to the place of deposit. After being housed, the goods will be subject to the preceding regulations.

For special regulations relative to wines and spirits, *see* page 279.

The export rates on goods brought into the docks for shipment are published in a separate table.

Attention is particularly requested to the important advantages of depositing goods in dock warehouses nearest to the seat of business.

Explanations

LONDON.
 St. Katharine
 Docks.

Explanations of the Table of Rates on Goods Inwards.

The Inward Rates upon goods landed at the St. Katharine Docks, are classed under separate heads, Landing Rate, Landing and Housing Rate, Consolidated Rate, and Management Rate; viz.

The Landing Rate is charged upon the gross weight, and includes landing, wharfage, weighing or gauging, and housing or piling on the quays, or loading therefrom; original warrants, accounts of landing weights, re-weights, and delivery weights, or gauges, and re-gauges, and strengths of spirits.

Three working days (except in cases specially provided for in the Table of Rates) from the final weighing, gauging, or examination by the Revenue, of goods of the same mark or parcel, landed under a duty-paid entry or bill of sight, will be allowed to the proprietors to remove such goods from the quay; a like period will be allowed in other cases, provided notice in writing of such intended removal shall be given prior to the weighing, gauging, or examination, but in the absence of notice, the goods will be immediately housed or piled.

If, at the expiration of the respective periods, the housing of the goods shall be prevented by any informality or delay of the proprietors, or at their request, (with the consent of the company,) watching will be charged, in addition to weekly rent, until the goods are removed from the quay.

Rent on goods housed under this rate is chargeable from the date of the importing ship breaking bulk, or from the first landing from craft.

Landing and Housing Rate. The only difference in this rate from the Landing Rate is, that it includes unhousing.

The rates for re-weighing, re-housing, unpiling, re-piling, unhousing, and loading, when not otherwise specified, are each one-third of the Landing Rate. Wharfage and shipping, or unloading and housing, when not otherwise specified, two-thirds of the Landing Rate. Unhousing or unpiling, wharfage and shipping, when not otherwise provided for, are the same as the Landing Rate.

The Consolidated Rate is charged upon the net weight, and will attach on all goods to which that rate applies in the table, unless the proprietors shall, previously to the final weighing or gauging, give notice that the Landing Rate is to be charged thereon; it includes landing, wharfage, housing, weighing or gauging, ordinary coopering and mending at landing, sampling, marking, furnishing landing weights, or gauge accounts, strengths of spirits, original warrants, certificates of damage, rent for twelve weeks from the date of the importing ship breaking bulk, or first landing from craft, weighing for actual delivery, and delivering, by land or water.

Further warehouse rent will be charged from the expiration of the twelve weeks above mentioned.

The Management Rate applies to goods which are worked or shown by the company, and is chargeable on the gross weight. The only articles for which this rate has been yet formed are indigo, silk, tea, and cinnamon.

Rent commences on the day of the ship's breaking bulk, or the first landing from craft; but the seller has an option, on paying eight weeks' rent, to have the goods exempted from further rent during three months from the first day of public sale; such option to be declared, in writing, previously to the sale.

General Rules.

Rent in all cases is payable on the gross weight, and a week's rent will be charged for a fraction of a week.

Goods, wood excepted, broken out, or prepared for shipment by order, if not taken away within three days, will be re-stowed.

The Dock Company reserves to itself the privilege of removing, at their own expense, dyewoods or wood goods to any convenient bonding wharf, whenever there shall not be accommodation for the deposit thereof within the dock premises.

The table of rates generally is subject to such revision from time to time as shall be deemed expedient by the Dock Company.

Empty casks and packages, if not claimed in a reasonable time, will be sold, and the proceeds, deducting charges, paid to the proprietors, if applied for within twelve months from date of sale.

RATES ON WOOD.

THE consolidated rate will in all cases attach, unless prior to the final measurement or weighing of the parcel, notice shall be received from the proprietor that the landing rate is to be charged.

These consolidated rates include landing, wharfage, weighing, or once turning to measure, piling, 12 weeks' rent from the ship breaking bulk, weighing for delivery, and delivering by land or water.

When placed under the landing-rate, the charges will consist of landing, wharfage, weighing at landing, if weighable, and piling, or loading from the landing scale.

Reweighing or repiling is charged at one-fourth the landing rate.

The charge for unpiling, or unhousing, wharfage and shipping, is three-fourths of the landing rate.

Dye woods broken out for delivery and not taken away within seven days will be repiled.

St. Katharine
Docks.TABLE of RATES and CHARGES on WINES and SPIRITS landed in the
St. Katharine Docks.

WINES and Spirits (Rum excepted) landed in the St. Katharine Docks will be chargeable with the following Landing and Delivery Rate, or Landing and Housing Rate:—

The "Landing and Delivery Rate" is applicable to wines and spirits in casks delivered from the quay within one calendar month from the day of the ship's breaking bulk, or first landing from craft, and includes landing, wharfage, laying up to gauge and gauging; accounts of landing gauges and of strengths of spirits; first samples on the quay; warrants (if required); use of the quay until the expiration of 14 days from the commencement of the ship's discharge, or first landing from craft; cooper's attendance at landing whilst remaining on the quay, and at shipping or loading; watching; and delivery by land.

Wines and spirits remaining on the quay after the 14th day above referred to will be subject to a weekly quay rent until the expiration of one calendar month from the commencement of the ship's discharge, or first landing from craft, when the landing and housing rate will become chargeable.

The coopering which may be requisite upon landing, examination, or delivery, will be performed, unless directions are received from the proprietors to the contrary, and will be charged at the rates hereinafter specified.

The "Landing and Housing Rate" is applicable to wines and spirits remaining on the quay at the expiration of one calendar month from the date of the vessel's breaking bulk, or from the first landing from craft; and also to such as shall be previously housed by order of the proprietor. This rate includes landing, wharfage, laying up to gauge and gauging, landing gauges, original warrants, strengths of spirits, first samples on quay and sampling at delivery and re-gauges, cooper's attendance at landing whilst on the quay, and at housing; coopering, housing, and cooper's superintendence for 18 months. Goods chargeable with this rate are subject to rent from the date of the ship breaking bulk, or first landing from craft.

Wines or spirits housed with the company will not be liable to any additional charge for coopering, on removal to be sent to any port or place in the United Kingdom within six calendar months from date of final gauging, but will be chargeable with driving, and pitching and turning, when requisite.

The company will not be responsible for deficiencies on wines or spirits imported in casks not made of oak, but are answerable for deficiencies in quantity on those contained in other casks housed with the company, beyond one gallon per cask for each year, or part of a year the goods shall remain in their custody, provided such deficiencies be claimed of the company within six months after delivery, and shall be satisfactorily established by the Customs' gauge on landing and delivery.

N. B.—Any work required to be performed, not particularly described, will be charged in the like proportion.

* No charge will be made for tasting by the proprietor or his clerk (authorized to sign orders) when not accompanied by any other person. Tasting may take place on presenting the warrant, or an order from the proprietor, at the Vault-keeper's Office; but tasting will not be permitted (except when wines are for public sale) without a written order, and any officer or servant of the company permitting the same, will be suspended; and for the second offence, dismissed. No samples are allowed to be taken upon a tasting order. When warrants have been issued, the number of the warrant must be inserted on the tasting or sampling order.

† No charge will be made for first samples of wines or spirits at landing, or for sampling at delivery. Sampling orders interlined or altered will not be acted upon, unless the signature of the proprietor be affixed to such alteration or addition.

‡ Racking will not take place at any time, without 48 hours' notice having been previously given to the proprietor, unless in cases of emergency; nor will any wines or spirits, which have been subject to cooperage at landing, and have been housed with the company, be charged with the expense of racking until after the expiration of 12 months from the date of the ship breaking bulk, those for exportation excepted. The proprietor is permitted to send casks for racking previous to the expiration of the 48 hours' notice above specified, provided the emergency of the case shall not render the immediate operation necessary. If the racking takes place into the casks provided by the merchant, the dock company will not be responsible for injury or loss which may be sustained from the cask. The empty racked casks will be delivered to the order of the owner; or, if not claimed within one month, will be sold by the company, and the proceeds, deducting the expenses, be paid to the proprietor. Parties preferring that the company should retain the casks used for racking or filling, should signify their intention to the chief clerk in the Cargo Ledger Office, Long Room, who will furnish them with the particulars of the regulations applicable to this arrangement.

§ In cases of transfer, these charges will be made to the parties renting the private vault.

For the convenience of parties who may wish to transfer wines or spirits on the quay, warrants will be furnished, if required, on payment of the landing and delivery rate.

Charges for new warrants on subdivision or transfer, and for transfers effected in the company's books, on wines or spirits for which warrants have not been issued :—

RATES and CHARGES ON RUM.

Landing Rate includes landing, wharfage, gauging, housing, loading from the quay, original warrants and accounts of gauges and strengths, surveying and furnishing certificate of damage. Rum not intended to be warehoused will be allowed four clear days from the final gauging of the parcel for removal. If intended for immediate transshipment, it may remain on the quay seven clear days from that period, and when the export vessel loads in the docks, until the date of her departure, paying rent as if housed at landing.

The rates for unhousing and loading - - - - - one-third of landing rate.
 „ wharfage and shipping - - - - - two-thirds of landing rate.
 „ unloading and housing - - - - - ditto.
 „ unhousing, wharfage and shipping - the same as the landing rate.

Rent is chargeable from the date of the ship breaking bulk, or from the first landing from craft.

The prime or consolidated rate includes all expenses for landing, wharfage, gauging, coöpering for housing, marking, sampling, housing and delivery, furnishing gauges and strengths, surveying and furnishing certificate of damage, and rent for 12 weeks from the ship's commencement of discharge. It is charged in all cases, unless notice be given by the importers to place the goods under the landing rate.

Before transfer by the company, or delivery, the charges on the quantity to be transferred or delivered must be paid.

The landing and housing rates are required to be paid on a whole mark or parcel of goods which have been housed previously to a warrant being issued, or the transfer or delivery of any portion thereof. The rent and other charges will only be required to be paid on the quantities transferred or delivered; importers are therefore recommended to advise their correspondents to distinguish their shipments by divisional marks or counter-marks, separating the parcel into convenient quantities, so as to obviate the payment of landing charges, on a number exceeding that required for sale or delivery.

Private vaults may be rented of the dock company: parties to take the same for 12 months certain upon a six months' notice, and paying (half-yearly) at the rate of 5*d.* per pipe, per week, upon the quantity the vault is capable of containing; the capacity to be estimated according to the calculation of pipes stowed two high, and a hogshead upon the second tier gangways not included. If the occupiers shall cause the wines or spirits to be stowed in the gangways of such vaults, an extra charge will be made for the additional labour upon delivery. The dock company not making any charge for cooper's superintendence upon wines or spirits lodged in private vaults, are not in such case responsible for deficiencies. The work and labour required to be performed within such vaults to be executed by the servants of the company, and charged for accordingly.

And observe, that parties transacting business at the docks are particularly requested not to give any fee, perquisite, gratuity, or reward, in any shape whatever, to any officer or servant of the St. Katharine Dock Company, and that upon tasting or sampling, merchants or their clerks will not offer or give any wines or spirits to the servants of the company, as, in the event of the same being accepted, such officer or servant transgressing will be immediately dismissed the company's service.

TABLE of RATES on GOODS sent to the St. Katharine Docks for Shipment.

Goods, after being cleared, may, if desired by the Captain of the Vessel,
 be shipped on Board until dark.

Regulations.

PARTIES in charge of such goods, by land carriage, should refer either to the Ship's Book Outwards, in the Long-room, Dock-house, or to a copy thereof lodged with the gate-keeper at the principal entrance, East Smithfield, which denote where the exporting ship is stationed; a shipping note must be brought with the goods and delivered to the export wharfinger, or to the foreman for exports at the station of the department. Accounts of charges on shipment, may be obtained at the wharfinger's office on the Export Quay; and the amount is to be paid to the collector in the Dock-house, before the goods are put on board.

Three weeks will be allowed by the company for shipping*, at the expiration of which period rent will accrue (as to bullion, specie, jewellery and plate, *see* pages 288 and 300); but no rent will be charged the proprietor upon goods sent to the docks for shipment after they have been cleared with the searchers, provided the vessel be in the course of loading. And the dock company will not be responsible for any consequence arising from the goods not being duly cleared.

Goods sent down and ordered to be housed previously to shipment, will be subject to a charge for housing and unhousing, and rent from the time of their being received, until cleared by the searchers.

Provisions and stores for the use of the ship's company (not being bonded or drawback goods) will not be subject to the charges for wharfage and shipping.

The shipping note for goods brought in by craft, to be shipped direct on board a vessel in the docks, must be delivered to the person in charge of the exporting vessel, and not to the dock company's wharfinger or foreman.

The dock company take no cognizance of, nor will they be responsible for goods received into or discharged from a vessel in the docks by lighter.

Goods water-borne, landed at the request of the proprietors, or for examination by the searchers, will be liable to the charges for landing and wharfage, wharfage and shipping; no charge will be made for opening for such examination when done by the Customs, but if cooping be requisite, it will be charged with reference to labour and materials employed. The dock company will not be answerable for any injury or damage arising from such examination by the revenue.

When goods cannot be shipped either on account of the vessel not being able to take them, informality in the document, or other cause, the order of the party in whose name they were received will be required for their future disposal.

The master or mate of the vessel, on board of which goods are shipped from the premises of the company, must give a receipt for them on the document which will be presented for their signature by the dock company's officer.

The rate for landing	-	-	} is one-half of the charge inserted in the column for wharfage and shipping, unless otherwise stated.

Sir,
I BEG to observe that the whole of the keelage dues levied on goods shipped and landed at this port, are not received by me; but the principal amount is received by the different shippers, of which I have not any knowledge, but the rate is as follows, viz. :—

Coal and iron, 1 d. per ton.

Bark and timber, 2 d. per ton.

I am, &c.

H. Manners Sutton, Esq.

Charles Prothero,

Clerk to the Newport Harbour Commissioners.

13 July 1846.

Sir,
Newport Dock, Monmouthshire, 1 May 1846.
UP to the present time there has not been anything imported into this dock; vessels leaving Bristol and other ports call here in ballast, and load with coal or iron.
The large-class vessels only use the dock; those below 250 tons generally load at the wharfs in the river, and are not liable to the dock charges.
The Royal Assent for the 1st Act is dated 21st July 1835; for the 2d Act, 19th July 1839; for the 3d Act, 21st June 1841; for the 4th Act, 19th July 1844.
An Act for making and maintaining a dock and other works in the port of Newport, in the county of Monmouth, with a railway and stone road therefrom.

To the Hon. H. M. Sutton.

I am, &c.

NEWPORT.

Newport Dock
Company.RULES, Orders, and Bye-laws, Rates of Tonnage, Wharfage, and Dock Rates
on Goods.

1. Any person firing, or assisting in the firing of any cannon or other gun, on board of any ship or vessel in the dock or basins, shall forfeit for each offence a sum not exceeding 5 l.

2. Any person who shall allow manure to remain upon the quay walls or landing places longer than two days, or any goods or other things more than six days, without permission in writing from the company or their agent for that purpose, shall forfeit for each offence a sum not exceeding 5 l.

3. Any person placing a boat or other vessel upon the walls, quays, or landing places, without permission in writing, shall forfeit for each offence a sum not exceeding 2 l.

4. Any person having a fire or light on board of any ship or vessel in the dock or basins, without any person being on board, or having a fire on board after eight o'clock in the evening, or before six o'clock in the morning, shall for each offence forfeit a sum not exceeding 5 l.

5. Any person who, on the discharging of timber from vessels in the dock or basins, or in the landing of timber in rafts, shall wilfully obstruct or impede the passage of vessels in the dock or basins, shall forfeit for each offence a sum not exceeding 5 l.

6. Any master, mate, or other person having the charge or command of any ship or vessel, landing, discharging, or loading any cotton or other combustible goods, on, to, or from any of the quays of the dock or basins, who shall permit or suffer any person or persons employed by them in landing or discharging, or loading such goods, to smoke or burn tobacco or other thing near to or amongst such combustible goods, shall forfeit for each offence a sum not exceeding 5 l.

And any other person or persons who shall smoke or burn tobacco, or any other thing, amongst cotton or any other combustible goods, lying or being on the quays, or in the warehouses of the dock company, shall for each offence forfeit a sum not exceeding 5 l.

7. Any master, mate, pilot, or other person or persons whomsoever, having the charge or command of any ship or vessel in the dock or basins, who shall permit or suffer any rope from such ship or vessel to be made fast to any chain-post or quay-fender; or any rope, chain or tackle, of any description, to be made fast to any of the pillars of any iron or other shed on any of the quays, or to the roof or any other part of such shed, shall for each offence forfeit a sum not exceeding 2 l.

8. Any master, mate, or other person, having the charge, command or management of any vessel lying within the dock or basins, who shall suffer any ballast, coals, coke, culm, ore, brimstone, manure, paving-stones, lime-stones, bricks, rubbish, or any other article to be taken on board such vessel, or thrown, discharged, or carried out of the same, without having a canvass nailed to the ship's side, or some other safeguard, sufficient to secure such ballast, coals, coke, culm, ore, brimstone, manure, paving-stones, lime-stones, bricks, rubbish, or any other article, from falling into such dock or basins, shall for every such offence forfeit a sum not exceeding 5 l.

9. Any master, mate, or other person having the charge or command of any ship or vessel, in the dock or basins, or the entrances to the same, who shall suffer any repairs to be done to the outside of such vessel without having a canvass or some other safeguard, secured from the ship's side, and placed so as to prevent any chips or pieces of wood from falling into the said dock or basins, during the whole of such work or repair, shall for each offence forfeit a sum not exceeding 5 l.

10. Any master, mate, or other person, having the charge or command of any vessel lying or being within the dock or basins, who shall not cause all ballast, coals, coke, culm, ore, brimstone, manure, paving-stones, lime-stones, bricks, rubbish, or any other article, discharged from or to be laden on board of any vessel, to be thrown at least five feet from the edge of the quay, or to be taken away when required, shall for each offence forfeit a sum not exceeding 2 l.

11. Any master, mate, owner, consignee, or other person having the charge or command of any vessel lying within the dock or basins, who shall not have a shipkeeper on deck to attend the vessel every tide, at least two hours before and one hour after high water, shall for every offence forfeit a sum not exceeding 10 s.

12. Any master, pilot, or other person having the charge or command of any vessel, when hauling into or out of the dock or basins, or removing from one part of the dock to another, or when lying therein, who shall not work and trim his vessel as the dockmaster shall direct, shall for each offence forfeit a sum not exceeding 5 l.

13. Any owner or driver of any cart, carriage, or horses, or any other person or persons, who shall draw, or cause, or permit, or suffer to be drawn upon or over any of the dock bridges or roads of the company, any anchors, balks, or other pieces of timber, stones, cables, iron, or any other thing whatsoever, in any manner whatsoever, otherwise except upon carts or wheel-carriages, or who shall permit or suffer any such anchors, balks, or other piece of timber, stones, cables, or iron, or any other thing whatsoever, to trail or drag upon any such bridges or roads, or any part thereof, shall for each offence forfeit a sum not exceeding 2 l.

14. Any

NEWPORT.
Newport Dock
Company.

14. Any person passing along the railway or tramroad with any waggon or other carriage, not properly constructed, shall forfeit for each offence a sum not exceeding 5 l.

15. Any wilful damage, spoil, or mischief, done to any part of the dock or tramroads, or any part of the works, by any ship or vessel, or by any waggon or other carriage, or by the master of any vessel, or by the waggoner or other person belonging to such waggon or other carriage, besides the amount of such damage, spoil or mischief, shall for each offence forfeit a sum not exceeding 2 l.

16. Any person allowing the lading of any carriage to lie over the sides thereof, or overloading any carriage, or allowing any carriage to remain on the railway or tramroad, or placing any goods, materials or rubbish, so as to obstruct the passage along the same, and shall refuse to remove such carriage or obstruction when required to do so, shall for each offence forfeit a sum not exceeding 5 l.

17. Any person defacing or destroying any board, whereon the notices, rules, orders, bye-laws, tolls, or rates, shall be painted or affixed, shall for each offence forfeit a sum not exceeding 2 l.

18. All vessels before entering the dock are to place their anchors on the forecastle, the lower and topsail yards peaked in, and the jib-boom rigged in, under a penalty not exceeding 5 l.

19. The dock company are desirous that it should be distinctly understood that they are not responsible for the safe custody of any goods deposited upon their wharfs or quays, including the sheds, nor for any loss or damage that such goods may sustain, unless it can be proved to have happened through the negligence of their servants while performing any labourage operation.

20. The company will not hold themselves responsible for damage occasioned by fire, or for leakage, loss, or deterioration from natural causes, of such goods as may be deposited in their warehouses, or upon their wharfs and quays.

21. The various labourage upon the quays and premises of the dock company are to be paid for when completed; and all charges for operations performed by the company, in their warehouses or otherwise, must be discharged previous to any transfer order being accepted.

22. The dock company will hold all goods deposited in their warehouses or premises as general liens, not only for the charges of wharfage, labourage, or rent incurred thereon, but also for the amount or balance of any account due to the company from the owners thereof.

23. The dock master, or other persons appointed by the dock company, are empowered to remove vessels from and out of the dock, under circumstances that are stated on the boards affixed to the wall outside of the dock-office, at which place may be seen a full statement of all the charges and bye-laws.

24. That all canal boats having discharged their cargoes shall be subject to a penalty of not exceeding 10 s. for every six hours that they shall remain in the dock after notice from the dockmaster requiring their removal.

LANGSTONE.

Sir,
My charge is 6 d. per ton for coals, 1 d. per quarter for corn or grain of any description; there are several hundreds of tons delivered in this harbour which I have no demand on.
The quay dues amounted in 1844 to 60 l.; in 1845 it amounted to 74 l., and this present year I think it will amount to 100 l., as the railroad is at hand near Havant, and they are landing of iron and sleepers at the said quay for the line.

I am, &c.
John Little.

Sir,
I BFG to acquaint you that the undermentioned is a true account of charges as boomage on shipping, for the years 1844 and 1845.

RIBBLE NAVIGATION.

Ribble
Navigation.

Sir,

IN answer to your letter of the 29th ult., I am directed to enclose you the printed list of tolls, rates, and duties authorized by the Ribble Navigation Company's Act to be taken and levied from the vessels using the Navigation.

In addition to these charges, the cargoes on being landed are subject to the payment of wharfage on discharging over the quays at Preston, or at the dock at Lytham, after the rate of 3 *d.* per ton upon all descriptions of merchandize, except coals, coal slack, coal einders, culm, lime, limestone, stones, and iron ore, and for those 1 *d.* a ton; and for the use of cranes, for every lift of cranes being not less than one ton, 1 *d.* per ton.

The aggregate amount levied by the company on shipping was, for the year 1844, 1,920 *l.*; and for the year 1845, 1,993 *l.* The average amount levied on the goods landed for wharfage, being private property, the wharfs belonging to the corporation of Preston and to private landowners, we have no means of giving an accurate return except for the dock and wharf at Lytham, which, for the two years 1844 and 1845, produced 150 *l.* or thereabouts for each of those years; and the Corporation New Quays at Preston produced for 1844 about 300 *l.*, and for 1845, 350 *l.*

By order of the Board of Directors,

E. Haydock, Secretary.

13 May 1846.

Ribble Navigation Office, Preston, 30 Nov. 1843.

LIST of the tolls, rates, and duties to be taken under and by virtue of an Act of Parliament of 1 Victoria, intituled "An Act to repeal an Act passed in the 46th year of the reign of his Majesty King George the Third, for improving the Navigation of the River Ribble, in the County Palatine of Lancaster, and for the further improvement of the Navigation of the said River," from and after the 31st day of December 1839; viz.

For every British ship, barge, boat, lighter, or other vessel or craft, being laden in whole or in part, navigating the said river, and being of the burthen of ten tons or upwards, for every time of passing, so laden in whole or in part, an imaginary straight line called "The Ribble Sea Line," the sum of 6 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

For every time of passing, so laden in whole or in part, an imaginary straight line called "The Ribble Middle Line," the sum of 6 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

And for every time of passing, so laden in whole or in part, an imaginary straight line called "The Ribble Harbour Line," the sum of 6 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

And for every foreign ship, barge, boat, lighter, or other vessel or craft, so laden in whole or in part, for every time of passing the said line called "The Ribble Sea Line," the sum of 9 *d.* for every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

For every time of passing, so laden in whole or in part, the said line called "The Ribble Middle Line," the sum of 9 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

And for every time of passing, so laden as aforesaid, the said line called "The Ribble Harbour Line," the sum of 9 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft.

PRESTON.

Ribble
Navigation.

And for every ship, barge, boat, lighter, or other vessel or craft, laden in whole or in part, of the burthen of 10 tons or upwards, which shall navigate the said river for the conveyance of goods and passengers along or across the same, and shall not pass any of the said imaginary lines (except the same be used only for the lading or unlading of any ship, barge, boat, lighter, or other vessel or craft, which shall have paid or shall pay in respect of passing with such loading the above-mentioned tolls, rates, or duties, or some of them), the sum of 6 *d.* for each and every ton of the burthen of such ship, barge, boat, lighter, or other vessel or craft, for each and every trip which such ship, barge, boat, lighter, or other vessel or craft, so navigating and not passing any of the said imaginary lines, shall make; the going and returning thereof respectively, laden in whole or in part, being reckoned separate trips.

And for all vessels of a less burthen than 10 tons, and all vessels employed wholly in the fishing trade, using the said Navigation, the sum of 2 *s.* 6 *d.* per ton, for a whole year, such year to commence on the 1st day of January, and end on the 31st day of December in each year, to be paid on the first trip or voyage which any such vessels shall make.

The navigable distance from Preston to the sea is 20 miles; the sea line is about four miles up the river; the middle line about 10 miles; and the harbour line about 16 miles.

Hitherto the company have only collected 1 *s.* per ton upon the ship's register, for the three lines, the improvements not being completed.

Rye.

Sir,
I AM directed by the Chairman of the Commission of Harbour Dues to inform you, that the only charge levied on shipping entering this harbour is one shilling per ton (1s.) registered tonnage.

16 May 1846.

I remain, &c.
Jno. Bellingham, Treasurer to the Commission.

Sir,
I am directed to inform you, that the only dues levied here are on all shipping laden entering or leaving the harbour, at the rate of 1s. per ton registered tonnage, and 3d. per load on all vessels laden with chalk, brought in for manure.

21 May 1846.

The receipts for the years 1844 and 1845 were as under:—

HASTINGS.

BYE LAWS.

RULES, ORDINANCES, and REGULATIONS, as are now in force for the better Regulation and Government of the Stade of *Hastings*, and for the assessing, collecting, and levying, the Droits and Duties commonly called Pier Dues, payable to the Mayor, Jurats, and Commonalty of the Town and Port of *Hastings*, towards the maintenance and support of the said Stade; from time to time made, constituted, and ordained by the said Mayor, Jurats, and Commonalty.

THAT all corn, seeds, pulse, and grain, shipped off at the said stade, shall pay 1 *d.* per quarter, except oats, which are to pay one halfpenny per quarter only.

That all sloops or trading vessels to London or other places, shall pay 10 *s.* every voyage, over and besides the before and hereafter mentioned duties.

That all coals imported by vessels belonging to strangers shall pay 4 *d.* a chaldron.

That all timber and plank shipped off shall pay 6 *d.* a load.

That guns and all other iron shipped off from the said stade, shall pay 4 *d.* a ton.

That all cutters and other vessels of 60 tons burthen and upwards, shall pay 20 *s.* for every time they wind, and 10 *s.* every time they lie on shore without winding, and other smaller cutters 10 *s.* for winding, and 5 *s.* when they do not wind, and other smaller vessels in proportion as they now pay.

That all hops shipped off from Hastings shall pay 3 *d.* a bag, and 2 *d.* a pocket, and 1 *d.* an end.

That all other goods imported not hereinbefore particularly mentioned shall pay 2 *d.* a ton (save and except such goods, wares, and merchandize as are usually brought from London and other places in vessels belonging to the town, which vessels shall have paid the droits and duties for that same voyage when they set out from Hastings).

That all hoops shipped off shall pay 2 $\frac{1}{2}$ *d.* per score bundles, and so in proportion for any lesser quantity.

That all bundles of wood intended for smart hoops or whip sticks commonly called such, shall pay 1 $\frac{1}{2}$ *d.* a score, and so in proportion.

That the fishing and other boats be divided into three classes, and each class shall pay the annual sum for pier dues hereinafter mentioned; that is to say,

1st class.—All boats that go the mackerel season - - 14 *s.* each.

2d class.—All boats that go to trawling only - - 10 *s.* each.

3d class.—All small boats making use of the capstans - 4 *s.* each.

which sums shall be paid by the master or owners of every boat, by half yearly instalments, that is to say, on the 25th July and the 21st December in every year.

That all fishermen and others who are permitted to use the bars for weighing up their boats, or for any other purpose, shall pay for every such bar lost or broken by them, the sum of 15 *s.*

That all old boats which are no longer in use or fit for sea, shall be removed from the stade by the owners thereof, upon notice given to them accordingly.

That all persons who shall hereafter be discovered in chopping wood on the capstans, or otherwise injuring the same, shall be forthwith prosecuted according to law.

That no horses, luggage vans, or others, tugs, carts, coaches, or other carriages of any description, be allowed to stand or remain upon such part of the stade or hard as is situate between the Battery west, and Avard's Wall east, longer than shall be necessary for the loading or unloading of the same, except as hereinafter mentioned; that is to say,

All carts and carriages loaded from ships delivering cargoes, or for the purpose of shipment, may continue there not exceeding 24 hours.

Carts

Carts used solely for the conveyance of fish may stand between the Lower Light and the Pier Shop.

Market carts without horses or cattle may stand between the Battery and Lower Light, not exceeding 12 hours.

And further, that all the above-mentioned carts and carriages, allowed to stand on the said stade, shall be so placed below the usual line of road as not to interfere with the passage of the same, or the working of the capstans and fishing boats; otherwise they shall immediately be removed below full, or as the pierwarden may direct.

That no goods or merchandize of any description shall stand or be laid on any part of the said stade without the consent of the pierwarden (goods for a reasonable time, not exceeding 48 hours, unshipped or until they can be shipped off, only excepted).

That whenever any vessel in hawling off shall let go the hawsers, the same shall be immediately cleared from the capstans, and shall be taken away from the stade under 24 hours.

That the pierwarden shall set apart certain portions of the stade for the ballast planks, trestles, and capstans bars, any of which moveable articles after being used shall be immediately deposited there.

That no small moveable boxes for ropes, or shops on wheels or otherwise, shall be placed either on the stade, or any part of the stone beach, without application in writing, specifying the size and other particulars, being first made to the pierwarden or to the said mayor, jurats, and commonalty.

That all the dues and duties above mentioned shall be paid by the master of every vessel that shall import or export any sort of goods, wares, or merchandize to or from Hastings, to the pierwarden, on demand, at or before the shipping or unshipping of such goods, wares, and merchandize.

That in case any master or masters, owner or owners, of any vessel trading to or from Hastings, shall by any means whatsoever, be discovered to have intentionally defrauded the pierwarden of the above duties or payments, a prosecution shall be commenced against him or them for the recovery thereof, and the said vessel shall be refused the pier assistance in future, until such duties shall have been paid.

That if any vessel shall take above 30 tons of any sort of goods, wares, or merchandize, above full on the stade, the master or owners of such vessel shall make good all damage that may happen to any of the capstans, stumps, bars, or screws belonging to the pier or stade, in getting down such vessel below full from the place at which she lay wound up.

By order of Assembly,

John G. Shorter, jun.
Town Clerk.

John Chatfield,
Pierwarden.

ST. IVES.

ST. I V E S.

Sir,

6 April 1846.

I BEG to inform you that the pier or harbour dues formerly payable at this port were established and regulated by an Act of Parliament, passed in the seventh year of the late king George the Third, and were directed to continue till the debt contracted thereby for the erection of a new pier had been paid off, and a sum sufficient, in the judgment of the justices assembled in quarter sessions for the county, had been realized for the future support and maintenance thereof. The debt has since been paid off, and a sum realized (sufficient, as the court thought, but which has proved to be otherwise), for its future support and maintenance, and the dues consequently have ceased since the latter part of the year 1836.

I have, &c.

Wm. Hichens,
Clerk and Treasurer of St. Ives Pier Trust.

Hayle.

H A Y L E.

Sir,

10 June 1846.

I BEG to subjoin an account of dues levied on shipping for each of the years 1844 and 1845. There are several wharfs in this creek which are private property, and which were built for the purposes of trade.

I am, &c.

John Pool.

Lymington is a creek within the port of Southampton; a collector is appointed by the corporation of the borough of Lymington to receive dues on vessels frequenting that place.

Christchurch is also a creek within the port of Southampton.

The Southampton Dock Company, incorporated under the 6 Will. 4, c. 29, levy rates and dues on shipping frequenting the dock, and on goods landed and shipped thereat.

The owners or occupiers of the aftermentioned sufferance and private wharfs, also impose charges on vessels loading or unloading alongside, and on goods landed or shipped thereat.

CHRISTCHURCH.

Sir,

Old Palace Yard, 5 May 1846.

I HAVE the honour to inform you that there are no dues of any kind levied as harbour dues on shipping in the harbour of Christchurch, or at the entrance to it. As to goods, the only dues payable are paid for such goods as persons choose to land at the harbour's mouth, at a quay constructed by me, paying 2 *d.* per ton; but they may land their goods, if they prefer it, on the adjacent beach in the harbour; and persons choosing to land their goods at a quay at Christchurch, two miles up the harbour, may do so by paying a half-penny per quarter, by measure, or 2 *d.* per ton; but they are not compelled to use this quay.

I let my quay to a man who resides at it, and therefore have no account of the dues; but it does not appear that either the renter of it, or of the other quay, can give an accurate account of their receipts; but I understand that the receipt at my quay is about 4 *l.* a year, and that at the other quay about 2 *l.*

I have, &c.

SEAHAM.

Seaham.

Sir,

Seaham Harbour, 14 May 1846.

I beg leave to inform you that there are not any dues levied on goods landed at this port; the only charge is for labour and the use of machinery, for which the importer pays.

I enclose a list of the harbour dues levied on shipping, for most of which services are rendered, that they cannot be properly called dues; also their amount for the years 1844 and 1845.

I have, &c.

W. A. Usher,
Lieutenant R. N.REGULATIONS to be observed by Vessels coming to *Seaham* Harbour; and any Vessel breaking these Regulations, will be fined accordingly; viz.

1st. VESSELS wishing to cast ballast at sea, must cast it to southward, and any vessel casting ballast in less than six fathoms water, and to the east of south-east of *Seaham* Pier Head, will be fined 2*l*.

2d. Any master boiling pitch, tar, or any combustible matter on board, or having a fire in the cabouse, or open hearth on deck, 5*l*.

3d. Any master smoking his vessel without permission of the harbour master, 5*l*.

4th. Any dirt or ashes of any description, thrown overboard into the docks, or on the quays, except in the places appointed for that purpose, 2*l*.

5th. No fires or lights will be allowed on board of vessels in the docks, except in the master's cabin, after eight o'clock at night from the 1st of October to the 1st of April; and after sunset, from the 1st of April to the 1st of October; any lights found on board after that hour, or after having been ordered out by the proper person, 1*l*.

6th. No vessel to enter *Seaham* Harbour without a pilot, the harbour permitting one to put to sea; any vessel taking the harbour out of turn, or when the tide flag is down, will be made pay all damages, should any occur, and must go into the dock pointed out by the harbour master, or his deputy; and any master moving his vessel in the docks without permission of one of the harbour masters, will be fined 1*l*.

7th. Before entering the docks, the anchors must be stowed on deck, and topsail yards hoisted up as soon after as possible, and sails to be furled when ordered.

8th. Vessels will be taken on turn for anchorage as they can fetch the anchorage of *Seaham* Roads. Headmost and weathermost ships coming from north or south, first in rotation;

STOCKTON.

Seaham.

the anchorage ground not to be less than six fathoms water, which may be considered as ground for heaving ballast. The original bearings to be in force. For vessels running or lying-to with strong winds, the passing limits are,—Ryhope to the Northward, and Hawthorn Sluice to the Southward. In-shore vessels to have the priority. Vessels obliged to pass for stress of weather, will be allowed their turn, provided they send a person to take them on, and that they come to Seaham Harbour as soon as the weather permits. Vessels actually bound to Seaham, receiving damage on their passage, which cannot be repaired there, will be allowed their turn similar to vessels passing in stress of weather. The masters are directed to go to the harbour master's office to have their turn decided, before going to the fitting office, as all disputes will be decided by him. The masters are particularly directed to take notice, that unless they leave a sufficient number of men to move their vessels in the docks, such vessel will be passed over, and lose her turn for such neglect. Twenty-four hours after arrival will be allowed to decide what coals they will load; if they do not fix then, they can only be taken on turn after those vessels that have fixed.

9th. No vessel will be cleared out until her fines have been paid, or (if cleared) allowed to sail; vessels not loading with Lord Londonderry, must show their clearance at the harbour master's office, that they have paid the harbour dues.

10th. Masters of vessels are requested to make known to the harbour master any complaints they may have against the pilots, harbour men, or any other person connected with the duties of the harbour, in order that the same may be investigated.

Any person receiving a bribe of any kind, will be immediately dismissed.

Goods landed on the slips, or at the crane, to be removed immediately. But if suffered to remain (together with goods landed on any other part of the town quay, within four feet of the curb, after 24 hours' notice) the quay master to remove them at the expense of the proprietors. All goods landed (except coals, balk, oak, ash, elm, spars, uphirs, and deals), to be taken away within one month after they are landed, or be charged at their respective rates monthly, for so long as they shall remain on the quay. All sand and manure landed on the quay, to be carried off within seven days, or be charged with the same rate of dues weekly. All other articles not particularized in this table, to be charged in proportion to the above rates.

Harbour Duties on Vessels according to the Register Tonnage thereof.

Inwards.

From any part of Great Britain, Ireland, or the Isle of Man, whether bound here, or driven in by stress of weather, or calling for orders, the sum of 3*d.* per ton.

From any other part of Europe, the islands of Guernsey, Jersey, Alderney, Sark, the Faro Isles, or Iceland, 9*d.* per ton; but when driven in by stress of weather, or calling for orders, from any of the above places, 6*d.* per ton.

From any part of Asia, Africa, or America, to the northward of the river La Plata inclusive, and to the northward of the Cape of Good Hope; from the islands of St. Helena, Ascension, Cape de Verd Islands, Canaries, Western Islands, Madeira, Azores, Newfoundland, Greenland, or Davis's Straits, 1*s.* 1½*d.* per ton; but when driven in by stress of weather, or calling for orders, from any of the above places, 9*d.* per ton.

From any part of South America to the southward of the river La Plata, from any port or place in the Pacific Ocean, or from any part of Africa or Asia, to the eastward of the Cape of Good Hope, 1*s.* 6*d.* per ton; but when driven in by stress of weather, or calling for orders, from any of the above places, 1*s.* per ton.

Outwards.

To any part of Great Britain, Ireland, or the Isle of Man; exempt from tonnage duty.

To any other part of the world, 4½*d.* per ton; but if in ballast only, one moiety thereof.

N.B.—The foregoing are the reduced rates now payable.

Lamp Duty.

Vessels coming into the said harbour, or driven in by stress of weather, or calling for orders, from any part whatever, whether with cargoes, or in ballast, are liable to a duty of 2*d.* per ton yearly, for paving and lighting the piers.

Harbour Duty on Ballast.

All vessels arriving with ballast must discharge the same into hoppers (which are provided by the trustees of the harbour for the purpose of taking such ballast out to sea a sufficient distance from the harbour to prevent any return thereof), for which they are chargeable with 6*d.* for ever ton of ballast so discharged.

Harbour duties on goods from any port or place whatever, as per Schedule (A.) in 56 Geo. 3, c. 44, herewith sent.

Harbour Duties on Goods Outwards.

Goods, wares, and merchandize, exported and sent to any port or place, not being in Great Britain, Ireland, or the Isle of Man (coals excepted), to pay one half of the duties imposed upon such goods on their importation.

Coals exported to any port or place, not being in Great Britain, Ireland, or the Isle of Man, to pay 1½*d.* per chaldron.

Goods, wares, and merchandize sent coastwise, or exported to any part of Great Britain, Ireland, or the Isle of Man, to pay one-fourth of the duties imposed on such goods on their importation.

N.B.—By the Act 58 Geo. 3, c. 15, the Lord of the Manor of Saint Bees and 11 or more of the rest of the trustees of the harbour for the time being, are empowered to reduce and vary the rates and duties, by virtue of which the rates and duties have been reduced 25 per cent., and those now payable are one-fourth less than what is stated in the printed Schedule (A.) hereunto annexed.

Harbour Office, Whitehaven,
16 May 1846.

Edwin Holwell Heywood,
Clerk and Treasurer to the Trustees of the
Port Harbour and Town of Whitehaven.

QUAYAGE AND DOCK RATE, payable by Vessel only.

	£.	s.	d.
Year 1844, Total receipt - - - -	3,901	13	10½
Year 1845 - - - -	3,585	-	10

Resolutions of Corporation, 16th July 1844.

Resolved, That quayage on goods be altogether remitted.

That one quayage shall be paid by the vessel on entering, which shall enable her to discharge and load, if desired.

That the charge shall henceforward be as follows:—On steamers and coasters, 1½ *d.* per ton register; on vessels entering from foreign parts, 3 *d.* per ton.

Dock-rate levied by a resolution of the Corporation:—Vessels from foreign ports, 3 *d.* per ton; coasters, British and Irish, 1½ *d.* per ton.

BALLAST.—A Charge on the Vessel.

BELFAST.

Year 1844	-	received for stone and sand ballast	-	-	-	-	-	-	£. 2,245	16	9
Year 1845	-	-	-	-	-	-	-	-	1,841	4	11

By a resolution of Corporation, 16th July 1844, the rate is fixed at 10*d.* per ton for sand and 2*s.* 6*d.* for stones. If delivered in Garmoyle, an additional charge of 8*d.* is made on sand or 6*d.* on stones. Sand off wharf, 2*d.* per ton extra.

PILOTAGE.—A Charge on the Vessel.

Year 1844	-	-	-	-	-	-	-	-	-	£. 4,542	4	5
Year 1845	-	-	-	-	-	-	-	-	-	3,376	11	3

For the accommodation of strangers, there are, in addition to the harbour pilots, out or sea pilots, under the sanction of the Belfast Corporation, at Groomsport, Donaghadee, Carrickfergus, and Island Magee, who are entitled, if employed (which is optional with masters of vessels), to the following rates: but, on boarding vessels, an out-pilot should inform the master or person in command, that he is not obliged to take an out-pilot, but is at liberty to employ him or not, on the terms recommended in the following table, and also that his functions cease at the Whitehouse Roads, or as soon as a Belfast pilot is put on board.

TABLE, No 2.—RATES of PILOTAGE to be paid the OUT-PILOTS.

Outside the Black-Head, or outside the buoy of the Brigs, to the Whitehouse Roads, of 200 tons or upwards	£.	s.	d.
Above 100 and under 200 tons	1	11	6
Not exceeding 100 tons	1	-	-
Outside the Grey Point, or outside Kilroot Point, of 200 tons or upwards	£.	s.	d.
Above 100 and under 200 tons	-	15	-
Not exceeding 100 tons	-	10	-

Masters of vessels will take notice, that the boats of the out or sea pilots have a white star on the bows.

RATES of PILOTAGE now charged by Resolution of the Corporation, dated 16 July 1844.

MOORING BUOYS.—A Charge on the Vessel.

	£.	s.	d.
Year 1844 - - - - -	52	19	2 ½
Year 1845 - - - - -	26	5	- ½

For the accommodation of vessels, moorings have been laid down in different parts of the harbour, for which the following charges are made:

Rates of the Mooring Buoys at Garmoyle.

For every vessel under 200 tons - - - - -	10 s. per week.
200 and not exceeding 300 tons - - - - -	15 s. per week.
300 tons and upwards - - - - -	20 s. per week.

Any vessel being at the mooring buoy, and refusing to let any other vessel make use of it at the same time, to pay treble; or any vessel anchoring so near the mooring buoy as to prevent another vessel using it, to pay as if using the buoy.

Rates of Mooring Buoys at the Quays.

Vessels making fast to the stern moorings for the purpose of discharging the whole or any part of their cargoes, are thereby subject to a charge of 2d. per ton.

All vessels discharging at the east side of the channel, at any pawl, anchor, or other mooring whatever, 1d. per ton.

In old channel, discharging, 1d. per ton.

Vessels laid up, and Wintering Vessels, as follows:

CUSHENDUN.

Sir,

Cushendall, 8 May 1846.

IN compliance with the directions contained in your letter of the 30th ultimo, I beg to state, that in order to encourage vessels frequenting this harbour I have not availed myself of the power of charging harbour dues; but from the returns in my possession since the 6th of January 1844, there were 92 vessels, containing 3,151 tons, entered this harbour, entitled to have paid me for harbour dues alone the sum of 48 *l.* 11*s.* 6*d.*; this being divided, would give the amount of harbour dues in each of the two last years.

No attention having been paid to the different kinds of goods imported, it is impossible for me to make an accurate return.

I have, &c.

N. D. Crommelin,

Proprietor of Cushendun Harbour.

DONAGHADEE.

Donaghadee.

Sir,

Donaghadee, 19 May 1846.

IN answer to your circular of the 30th ultimo, relative to the harbour dues of this port, I beg leave to state, that the return made by me to your former circular contains the most accurate account that I could give on the subject. The proprietor of the estate is not now at home, and is not expected to return for some months, and the original documents, from whence my former return was made out, are not in my possession at present.

I have, &c.

Arthur N. Wrixon.

The Hon. H. Manners Sutton.

GLENARM.

Glenarm.

Sir,

42, Brook-street, 14 May 1846.

YOUR circular of the 30th April, addressed to the proprietor of the harbour of Glenarm, has been forwarded to me, and I have this day obtained the information required by it. The only "toll or charge" in the harbour or river of Glenarm is a voluntary one on vessels frequenting that port, of 3-8ths of a penny per register ton, for keeping up the stays to which ships are fastened on the quay, and for keeping the mouth of the river clear of sand or rubble; and which in 1844 amounted to 8*l.* 17*s.* 3*d.* on 142 vessels; and in 1845 to 7*l.* 5*s.* 9*d.* on 105 vessels. Many of the captains of such vessels do not pay this very small impost, and they are not enforced.

There are from 7,000 to 8,000 tons of goods imported, and from 10,000 to 15,000 tons of limestone exported, with some corn and other produce, on which there is no charge. Such facilities and improvements as have been given or made at the port of Glenarm have been done at my sole expense.

I have, &c.

Edm. M'Donnell.

There being no anchorage or other harbour charges at this creek but what are above-mentioned, and as the principal importers of coals, which forms the greater portion of the trade of this place, are themselves owners of the quays, but a small proportion of quayage is levied, or herein represented; and the above is as near an estimate as I can make, embracing what is contained in the letter of inquiry.

GRAND CANAL DOCKS.

Grand Canal
Docks.

THE Grand Canal Docks form the Eastern terminus of the Grand Canal, and are situate at Ringsend, on the east side of Dublin, and communicating with the River Liffey, and the Port and Harbour of Dublin, by spacious sea locks, the principal of which is 130 feet long and 35 feet wide, and they are resorted to by vessels of various descriptions, as high as 700 tons burthen, and drawing 17 and 18 feet water.

1. The dock dues on vessels entering the docks, for the purpose of discharging their cargoes, and re-loading, are 3 d. per ton on the register tonnage; but if such vessels bring loading, which is discharged into canal boats, for conveyance by the canal into the interior of the country, or if they receive loading from canal boats, which has been brought from the interior, and has in either case paid canal toll, they are subject to no charge whatever.

The following is a return of vessels which entered the Company's docks, for the purpose of loading and discharging cargo, in 1844 and 1845:—

2. The charge for safe lying is 2 d. per ton on the register tonnage, not exceeding 4 d. per ton for three months.

Yachts and pleasure boats under 15 tons register are charged 5 s. for the first month, and 1 s. 8 d. per month afterwards.

Sir,
I BEG to submit that the charges levied for Royal Canal dockage are at the rate of 2 *d.* per ton on timber, bricks, ballast, &c., and 5 *s.* each for mud floats discharging.

	£. s. d.
Received in 1844 - - - - -	53 18 6

In the year 1844 a considerable quantity of bricks and timber was discharged in the docks, for the works of the Drogheda Railway, which was the cause of the receipts of that year so much exceeding the receipts of 1845.

Rush.

RUSH.

Sir,

21 May 1846.

I FORWARD to you annexed, a statement of the dues received for the combined harbours of Rush and Rogerstown for the years 1844 and 1845. The rate of 1 d. per ton, register tonnage, is the charge levied on all vessels taking goods thereto, the proprietor, Sir Roger Palmer, having remitted the dues hitherto charged on all fishing-class vessels (about 40), owing to the imperfect state of these harbours, and lays out a considerable sum each year in repairs, the amount received not being sufficient to pay the harbour-masters. The trade of this town would be increased tenfold if we had a pier calculated to receive vessels of larger tonnage.

To Mr. Robert Rossington,
Balbriggan.

I am, &c.

John Flinn,
Harbour Master.

CUSTOM-HOUSE DOCKS.

Gentlemen,

Dublin, 22 May 1846.

**Custom-house
Docks.**

SHIPPING entering these docks are not subject to any dock dues whatever, unless their stay exceed six weeks, when they are subject to rent payable to the ballast corporation, at the rate of one halfpenny per ton per week.

And with respect to the dues and charges on goods, they are exempt from wharfage, but subject to the landing and other charges for labour and rent, as set forth in the schedule attached to the lease at the late re-letting, to which we beg to refer you.

We are, &c.

A. H. Stewart,
Receiver and Ballast Master.

WHEREAS, by an Act passed in the 2d and 3d year of Will. 4, relative to the Ballast Office of the Port of Londonderry, it is amongst other things enacted, that the Ballast-Office Committee shall ascertain the several rates, prices, fares, and sums of money to be paid to any person or persons for the supplying, lifting, receiving, taking in, and throwing out of ballast, and for the pilotage of ships and vessels; and also, the sums of money to be paid to the said committee, by virtue of this Act, or in respect of the tonnage of ships and vessels arriving in said harbour, or for the licensing of said ships, boats, and vessels used or employed, or plying for hire therein, as aforesaid: and it is also directed that Tables shall be hung up, with the name of the clerk of the committee affixed thereto, in the Custom House, Mayor's Office, and Ballast Office.

LONDONDERRY.

It is therefore ordered by the said committee, that from and after the 1st day of December 1845, the rates shall be as follow, which said rates shall be paid to the collector, or person by them appointed, for the use of the said committee:—

TONNAGE:

For every foreign ship, 6 *d.* per ton. For every ship belonging to Great Britain or Ireland, or the plantations, trading from foreign or the British plantations, 3 *d.* per ton; if from Great Britain or Ireland, 2 *d.* per ton, and those of 20 tons and under, free.

Vessels towed by steamers one-fifth off, if demanded by the master, or owner, or by any person for them, on producing a proper order.

All vessels laden with bark, under 120 tons, to pay 6 *d.* per foot extra; 120 tons and not exceeding 150 tons, 9 *d.*; exceeding 150 tons, 1 *s.* per foot extra. All British ships from foreign ports, or if bound to foreign ports, having on board half their registered tonnage of cargo, or with passengers, to pay 4 *d.* per foot extra, in addition to the above charges.

Vessels which have cleared the lough, and by stress of weather obliged to return, it is hereby directed, that as these vessels have paid the full amount of pilotage, they shall pay but one-third in, and one-third out, of the amount of their outward pilotage, to be ascertained by the master's account from the collector of pilotage, provided they do not anchor above Quigley's Point. If above that, or at the Ship quay, half pilotage.

Pilots detained on board vessels, the sum of 2 *s.* 6 *d.* per day; when detaining them unnecessarily in Derry, the like amount.

Lighters or steamboats employed in the lough or river, discharging or loading, if found within one mile of the public quays, shall pay 1 *l.* per annum; license duty, and open row boats or cots, 5 *s.* per annum. This licence duty will be enforced if the buoys continue to be clandestinely destroyed. Pilot licences 1 *l.* sterling.

Masters of vessels may procure their ballast in the best and cheapest manner, but those who may wish to be supplied by the ballast-office, two-thirds of the amount to be paid on ordering, and the remainder immediately on delivery, to the superintendent, or person appointed by the committee to receive the same.

LONDONDERRY.

Gravel ballast supplied by the office at 1 s. 3 d. per ton; sand, or sufficient ballast, at 1 s. per ton. Twenty-four hours' notice to be given before ballast is required; after which period 30 tons must be delivered every 24 hours, if demanded. Hours of demand from 10 A.M. to 3 P.M. (Sunday, Christmas Day, Good Friday, excepted), to be supplied by cars at the public quays, or by lighters.

Shells not to be considered as ballast, nor stones fit for building or paving.

Twenty shillings fine for giving a false draft of water; 10 l. fine, or six months' imprisonment, for obstructing any pilot or any other person belonging to the ballast-office in the performance or execution of their duty; 20 l. fine for maliciously damaging the property of the ballast-office, and to make good the injury; by 1st Victoria, a misdemeanor. Ten pounds fine for any person who shall elude or avoid payment of duties.

Vessels of any size bound for this port, refusing to take a pilot; fine 5 l. for every 50 tons burthen and treble pilotage.

Receivers may enter ships, seize, and distrain and sell, in five days after, if the duties be not satisfied.

The pilot boats are black, their number white on the boat and black on the sail; the flag for the boats red and white, and lantern at night; pilot signal on shore, white; their dress at all times, blue; their number, with the words "Pilot, Foyle," on a silver badge, on their hats; name and number posted in the Custom-house, mayor's-office, and ballast-office.

The east light bears from the Great Buoy of the Tuns, which is in six fathoms water, W.N.W., about 1 $\frac{1}{2}$ mile. By keeping the two lights in one (the east having nine reflectors, the west or inner but three) you avoid the Tun Bank, and will be in mid-channel. The course, by compass, for Magilligan Point (after nearing the East Light) is, according to tide, from W.S.W. to S.W. by W., and from that to Moville, W. $\frac{1}{2}$ S. The West light is hid when you pass Whitebay, by Greencastle, and the East Light can barely be opened to the southward as far as Moville, and with a small vessel to Clare River, which is near Redcastle: but caution is necessary, standing to the southward, as the lights are not intended for guiding lights after passing inwards. At Moville, which is about 2 $\frac{1}{2}$ miles from Greencastle, you can anchor in from five to seven fathoms water, half a mile above the town, and from one-fourth to one-third of a mile off the shore. Small vessels are recommended to anchor at Quigley's Point in winter.

There are two pilot stations, one close to the lighthouses, and one at Turmone, about eight miles west of Ennishowen Head; and the pilots are fined if they do not board one mile outside the Great Buoy of the Tuns, or one from Innishowen Head, weather permitting.

Inward bound, the red buoys are to be left on the starboard hand, black on the larboard. Master, mate, or clerk, to attend at the ballast-office on arrival, to certify as to the conduct of the pilot, draft of water, &c.

A steam vessel passing another between Ture Buoy and Londonderry, must always leave the vessel she is passing on the larboard hand.

That when steam or sailing vessels on different courses, unavoidably or necessarily approach or cross so near, that, by continuing their respective courses there would be a risk of coming in collision, each vessel shall put her helm to port, so as always to pass on the larboard side of each other.

That vessels having a fair wind shall give way to those on a wind. That when both vessels are going on the wind, the vessel on the starboard tack shall keep her wind, and the one on the larboard tack shall bear up, thereby passing each other on the larboard hand. That when both vessels have the wind large or abeam, and meet, they shall pass each other in the same way, on the larboard hand, to effect which the helm must be put to port. Steam-vessels always to be considered same as sailing vessels going large.

For further particulars refer to bye-laws and Act of Parliament.

Merchants will receive these regulations as usual, by applying at the office.

N. B.—Pilots on boarding, are bound to produce these regulations, as also pilot and harbour laws, and their pilot branch, and take the cross bearings. Twenty shillings fine on the master making a false report of boarding.

Vessels in ballast, or taking refuge owing to stress of weather, are not subject to tonnage duty.

ARDGLASS.

Ardglass.

Sir,

Ardglass, 7 May 1846.

I BEG to acquaint you that the disastrous storm of January 1839 having injured the pier of Ardglass, besides sweeping away the lighthouse, which rendered it unsafe for vessels to enter of large draught of water, I reported the circumstance to the Board of Works, the harbour being in their charge, when it was agreed that the dues should be discontinued till the harbour and lighthouse were repaired. I very much regret to say that this most important harbour, which was accessible to large vessels at all times of tide, has as yet remained in a state of ruin, to the great inconvenience of vessels and the fishing fleet, being the only deep-water harbour between Dublin and the Lough of Belfast.

HARBOUR DUES, QUAYAGE, &c., payable by Masters and Owners of Vessels, and their Cargoes, at the Quay of *Portaferry*, and North-east Side of the River of *Strangford*, to *Andrew Nugent, Esq.*

QUAYAGE.

ALL vessels loading or discharging cargoes at the quay of *Portaferry*, or any part of the beach, to pay 2 *d*. per register ton ; and in case only part of a cargo is loaded or discharged, to pay at same rate for the number of tons that may be so taken on board or discharged, provided said quantity exceeds 15 tons.

All coasting vessels taking in or discharging ballast, unless they have either discharged a cargo, or are to take in one, to pay 2 *d*. per ton for such ballast.

All vessels going foreign, taking in ballast, to pay 2 *d*. per ton for same, whether lying at, or moored off, the quay.

Cows, 2 *d*. per head ; horses, 3 *d*. per head ; sheep, lambs, and pigs, one halfpenny each.

HARBOUR DUES.

ALL vessels constantly trading to *Portaferry*, neither loading nor discharging cargoes, for each time of making fast to mooring buoy—

	s.	d.
Under 50 tons register, to pay	-	1 -
50 and not 70	-	1 6
70 and not 100	-	2 -
100 and upwards	-	2 6

Vessels loading or discharging cargoes to be free of the above rates.

All vessels anchoring or coming to in any part of the north-east side of the River of *Strangford*, from the bar to *Ballywhite Bay*, for each trip,—

	s.	d.
If under 20 tons register, to pay	-	1 -
20 and not 30	-	1 6
30 and not 50	-	2 -
50 and not 70	-	2 6
70 and not 100	-	3 -
100 and upwards	-	3 6
All ships or three-masted vessels	-	5 -

All foreign vessels to pay double the above rates, both for quayage and harbour dues.

Vessels coming to anchor, first at *Strangford* or *Audley's Roads*, may afterwards, on same voyage, anchor in *Ballyhenry*, free of charge.

Vessels belonging to *Portaferry*, and trading constantly to the river, to pay 2 *s*. 6 *d*. for anchorage once a year, on every 1st day of November ; but those trading generally to other ports to pay same as strangers.

REGULATIONS.

Vessels are on no account whatever to put a chain or rope round the end of the quay, under a penalty of 20 s. for each offence, besides paying for any damage the quay may have received in consequence.

Each vessel, in the tier next the quay end, to have out a stern-chain made fast to the buoy; otherwise to be accountable for any damage done to any other vessel or vessels in consequence of the neglect of this precaution.

Vessels having the quay berth, to keep proper fenders between them and the quay; otherwise to be accountable for any damage done to the quay. The second, or any outer tier, to keep proper fenders between them and the vessels inside them; or if not, to be responsible for any damage done to them.

Vessels lying at the quay to have their lower yards peaked, and jib-booms in, and to have one person at least on board when any vessel is arriving at or leaving the harbour, under a penalty of 20 s., besides paying all damage that may be suffered by any vessel.

All vessels are to take up such situation or berth at the quay as the harbour-master or his assistant may direct, and their berths and stations to be changed and altered as he may judge most expedient for the general safety and convenience, under a penalty of 10 s. for each refusal; and should the harbour-master think fit, in consequence of such refusal, to hire men to remove the vessel, the master or owners thereof to be accountable for the expense incurred.

Vessels discharging any part of their ballast on the beach, in the dock, or outside the quay, unless authorized by the harbour-master, to pay for each offence 20 s., and also to remove the same if required.

No ballast, merchandize, or lumber to remain on the quay longer than two days, under a penalty of 5 s. per day, unless liberty be granted by the harbour-master, in writing.

Vessels dropping or laying out anchors in any part of the harbour must fasten a buoy to every such anchor in such a manner that said buoy shall float conspicuously; any vessel neglecting to do so shall incur a penalty of 10 s., besides paying all damage that may be suffered by any vessel or boat in consequence.

Vessels requiring a plank for either discharging or loading a cargo, if under 25 tons register, to pay 1 s.; 25 to 50 tons register, 1 s. 6 d.; 50 tons register, and upwards, 2 s. for the use of said plank. For wheel-barrows and potatoe-barrows, 1 s. each per day.

Ballast supplied by the harbour-master, on giving due notice, at 10 d. per ton.

The masters and owners of vessels and cargoes, all and every of them, to be accountable to the harbour-master for quayage, harbour dues, fines, &c.; same to be payable on demand.

Henry R. Miller,

Quay and Harbour-Master.

June 1843.

QUOILE.

Sir,

14 May 1846.

Quoile.

I beg leave to state that the charges at Quoile are 4 d. per ton quayage on all coals discharged, and likewise 2 s. 6 d. harbour dues on each vessel.

The above are all the charges levied at Quoile, but as there has been no account kept of the actual amount levied for the time specified in the order, I am therefore unable to furnish the same.

I am, &c.

The barrel bulk of all articles not otherwise rated, to be five cubical feet, excepting when the said measure shall exceed two and a half hundred weight, in which case two and a half hundred weight is to be rated a barrel bulk.

Small packages, not measuring one and one-fourth cubical foot, or not weighing 28 pounds, to be reckoned one-fourth of a barrel bulk; and in all cases where a fourth is chargeable, to pay 1d.

Goods *bond fide* in transitu under address of any person north or south of Aberdeen, having paid shore dues on importation, and being re-shipped in the original packages without changing hands, to be exempted, during the pleasure of the commissioners, from the payment of shore dues on exportation.

ABERDEEN.

When herring barrels are exported empty, and return to the harbour packed with herrings, the owners (if the exporters of the barrels) shall be entitled to an allowance or drawback of the amount paid on exportation for such barrels, out of the importation dues of said herrings.

Shore dues at the above rates to be paid on all goods loaded or unloaded, or otherwise arriving or leaving the port or district, as herein described, viz. the harbour, the rivers Dee and Don, upon both sides thereof, the coast between these rivers, and the coast southward from the mouth of the river Dee to the extremity of the town of Aberdeen's precincts or boundary on the Torry or south side of the river Dee, which district is the port and harbour of Aberdeen.

SCHEDULE (D).

EXEMPTIONS FOR GOODS.

Fresh fish, imported in bulk.

Salmon, herrings, and other fish, paying shore dues inwards, to be exempted from the payment of dues outwards, if in the same packages, and belonging to the same owners, as when imported.

In case any goods having paid shore dues when loaded, shall, from any accident or otherwise, be unloaded, the same shall not be chargeable with a second payment on being reloaded.

All returned empty boxes, casks, bags, and pack-sheets, and all goods returned to the original shipper, and in the original state, to be exempted from the payment of dues.

Passengers' luggage, not exceeding two barrel-bulk; all above to pay the ordinary dues.

SCHEDULE (A).

RATES FOR SHIPPING.

Class First.—For all vessels to or from any port or place between Flamborough Head, on the south, and Cape Wrath, on the north, excepting vessels passing through the Caledonian and Forth and Clyde Canals, but including the Orkney and Shetland Isles, per register ton, 2 *d*.

Class Second.—To or from all other ports or places in Great Britain and Ireland, per register ton, 4 *d*.

Class Third.—All parts of Europe to the northward of Gibraltar, including the Canaries, Western Islands, Madeira, Azores, Guernsey, Jersey, Alderney, Sark, the Faro Isles, and Iceland; also, the whole of the Baltic and White Seas, per register ton, 9 *d*.

Class Fourth.—All parts on the eastern coast of North America, including Greenland and Davis' Straits Fisheries, all parts within the Straits of Gibraltar and West Coast of Africa, as far south as the Tropic of Cancer, per register ton, 1 *s*.

Class Fifth.—The West Indies, and all parts within the Tropics of Capricorn and Cancer, per register ton, 1 *s*. 6 *d*.

Class Sixth.—For all vessels navigating to the southward of the Tropic of Capricorn, and all other parts of the world, per register ton, 2 *s*.

Vessels launched at the port of Aberdeen, to pay half dues on first voyage, if sailing in ballast; but if loading goods, to pay full dues.

Vessels entering the harbour for safety, or wind-bound, and not breaking bulk, to pay half dues; but if they break bulk, or take in goods (stores for their own use excepted), to pay full dues.

Foreign vessels to pay one-half more dues than British vessels.

One arrival and one sailing to constitute a voyage.

Vessels remaining in the harbour after three calendar months (and 14 days allowed for loading and discharging), to pay 1 *d*. per register ton per calendar month, and for each part of a month, in advance.

It shall be in the option of the trustees to charge either the dues on the voyage inwards, or on the voyage outwards, at the rates specified in the above Schedule, according to the distance; and if the charge be made on the voyage outward, there shall be deducted from it the amount of dues that may have been previously paid on the voyage inwards; but if such vessels sail in ballast, they shall be charged with dues on the inward voyage only.

SCHEDULE (C).

EXEMPTIONS FOR SHIPPING.

All open boats, under the burden of 10 tons, to be exempted from dues.

All ships, steamers, or vessels having made 50 voyages in any one year, from January to December inclusive, shall pay no harbour dues for any additional voyages made by them within the said year.

Vessels sailing from the harbour, and put back by stress of weather, or other cause, without having accomplished the voyage, shall not be liable in additional dues for such return.

All

All ships or vessels belonging to, or exclusively employed in, the service of Her Majesty, the Customs, Excise, or Post-office, or of the Commissioners of the Northern Lighthouses, or of the Corporation of Trinity House of Deptford Strond, to be exempted from dues.

ABERDEEN.

British vessels *bond fide* employed in the White Fishery to be exempted from the payment of harbour dues, provided they have no cargo on board but the fish caught, and their stores and fishery implements.

CATTERLINE.

THE Harbour of Catterline belongs in property to the Right hon. Lord Viscount of Arbutnot, the proprietor of the estate of Catterline, who some years ago laid out a considerable sum of money in building a small pier; but his Lordship has never levied any dues or charges of any kind as port harbour dues on shipping or on goods, although his Lordship considers he is fully entitled to do so when he sees fit.

Manager of the Harbour, Catterline.

PETERHEAD.

RETURN of the several DUES and CHARGES of every kind levied as the Port Harbour Dues on Shipping, and on Goods imported and landed at the Harbours of *Peterhead*. Under the Act 7 & 8 Geo. 4, c. 34, the Trustees are empowered to levy Rates and Duties on all Goods imported into and exported out of the Harbours, not exceeding the rates specified in Schedule (A.), annexed to the Act. Non-burgesses, that is, persons not resident, and not possessed of heritable property under a certain prescribed tenure, within the town, are liable in such rates to the extent of a half more than residents or owners of heritage. By the Act the Trustees are empowered to lessen the rates and duties thereby authorized to be levied, provided they do so on all articles in the same proportion; and under this authority the Trustees have hitherto, since the passing of the Act, levied to the extent only of three-fourths of the rates and duties contained in the Schedules.

THE Rates and Duties so levied on the Articles of Import and Export at *Peterhead* in each of the Years 1844 and 1845 amounted as under; viz.

	1844.			1845.		
	£.	s.	d.	£.	s.	d.

Potatoes, at 1 s. per ton	12	11	3	2	19	3
General merchandize inwards; the rates are according to the description of the articles, as enumerated in Schedule (A.) The general rate is 3 $\frac{3}{4}$ d. per barrel bulk	250	—	4 $\frac{1}{2}$	235	5	6
Ditto - - - outwards - - - ditto - - - ditto - - - ditto - - - ditto	72	5	11 $\frac{1}{2}$	57	2	11
The rates above stated, per ton, &c., are those payable by burgesses and residents; others pay a half more, as above stated.						
The only other charges on goods are warehouse dues on such as require to be warehoused. The whole amount of these was in 1844, 2 l. 17 s. 9 d., and in 1845, 3 l. 15 s. 10 d.						
Aggregate Dues levied on Goods - - - £.	2,357	19	4 $\frac{1}{2}$	2,572	1	2
The Rates and Duties levied on Shipping during the same period amounted as under; viz.						
On vessels belonging to the United Kingdom, entering the harbours for safety or convenience when on a coasting voyage, at 2 $\frac{1}{2}$ d. per ton; to load or unload on a coasting voyage, at 2 $\frac{1}{2}$ d. per ton; when entering for safety or convenience when on a foreign voyage, at 3 d. per ton; to load for or unload cargoes from a foreign port, at 4 $\frac{1}{2}$ d. per ton. (By the Act foreign vessels entering for safety or convenience were chargeable at 9 d. per ton, and when loading or unloading at 1 s. 1 $\frac{1}{2}$ d. per ton; but the same rate of dues only has been levied on them as on British vessels.) On herring boats, during the period of the fishing season, 5 s. 7 $\frac{1}{2}$ d. each in full; and on such and other boats, entering on account of stress of weather, or from any other cause, if under 20 tons, 9 d. each; if above 20 and under 30 tons, 1 s. 1 $\frac{1}{2}$ d. each; and all above 30 tons, the same as coasting vessels. The tonnage duties are only once exigible upon a vessel entering the harbours, although such vessel may unload one cargo and load another; these several rates being three-fourths of the rates specified in Schedule (B.) annexed to the Act - - - £.	633	—	5 $\frac{1}{2}$	682	13	11 $\frac{1}{2}$
And on vessels laid up in the harbours during the winter months; if they belong to the port of <i>Peterhead</i> , at the rate of 3 $\frac{3}{4}$ d. per ton; and if not belonging to <i>Peterhead</i> , 5 $\frac{1}{6}$ d. per ton; being three-fourths of the rates specified in section 27th of the Act - - -	41	10	5 $\frac{1}{2}$	37	2	11 $\frac{1}{2}$
The trustees also levy certain rates on vessels using the graving or dry dock, according to the sizes of the vessels and the periods they may use the same to repair or grave, conform to Schedule (C.) annexed to the said Act, to which reference is here made; these duties amounted in 1844 to 151 l. 2 s., and in 1845 to 150 l. 9 s.; and they farther levy duties for ballast, at the rate of 1 s. per ton when furnished, and 3 d. per ton for ballast landed.						
There are no other rates or duties levied on shipping, excepting the pilotage by the pilots. A copy of the table of these rates, and of the rules under which they are levied, are herewith also transmitted.

Peterhead.

REGULATIONS and RATES OF FARE for the Captain-Pilot and Pilots at and within the Port and Harbours of the Town of *Peterhead*; established by the Trustees, under an Act of Parliament passed in the 7th & 8th Years of the Reign of His Majesty King George the Fourth, intituled, "An Act for more effectually Enlarging and Improving the Harbours of *Peterhead*, in the County of *Aberdeen*."

CAPTAIN-PILOT.

1. HE shall have the superintendence of all the other pilots, according to the following Regulations, which he shall have full power to enforce, and which the other pilots shall be bound to obey; and in every case where his orders are not obeyed, he shall immediately inform the trustees, or the bailies of Peterhead, of any breach of duty of which any pilot may be guilty; and if he fail to do so, he shall, *toties quoties*, be liable in a fine of 40 s. sterling.

2. He shall not engage in any other employment, but devote his whole time and attention to the duties of his office.

3. He shall cause the shipping be supplied with pilots, according to their order, without partiality or favour; and he shall make out the notes, and cause the rates of pilotage, &c. be collected according to the following Tables.

4. He is empowered, where there may be any great difficulty or danger in the pilots getting out to the assistance of vessels in the bay, to offer them such premiums for their attendance in these instances as he shall judge necessary; such premiums, however, to be subject to such modification as the trustees or bailies may judge right.

5. In case he shall be called upon to furnish boats or men to the assistance of any vessel in want thereof, or in distress, and shall either refuse, remain absent, or neglect to comply with such request, he shall, on proof of such neglect, for the first offence, pay a fine of 5 l.; for the second of 10 l.; and for the third offence he shall be discharged from his office.

PILOTS.

1. No person shall act as a pilot without being licensed by the trustees; and the licence must be renewed during the first week of January every year.

2. The pilots must give ready obedience to all the orders of the captain-pilot, and comply with his directions in every particular.

3. The boats to be used by the pilots shall be of a proper size, and otherwise to the satisfaction of the captain-pilot; and the crew of each boat must consist of no less than four or six men, as may be ordered by the captain-pilot, two of whom must be licensed pilots. The master or chief pilot of each boat must cause his own name, and the number of his boat, be painted thereon, in large and distinct characters.

4. A master-pilot taking charge of a vessel without his boat being manned to the satisfaction of the captain-pilot, shall forfeit 10 s. sterling for each man deficient.

5. A master-pilot taking a vessel in tow with a yawl, or with a boat not sanctioned by the captain-pilot, shall forfeit 5 l. sterling for each offence.

6. The master or chief pilot of each boat must, unless with the consent of the captain-pilot, have his crew in constant readiness during the tide hours, to be employed in piloting, and for their good behaviour he shall be answerable.

7. The pilots shall attend within the harbours, when desired, with their boats, two hours before high water, to take charge of vessels going to sea, or having occasion to move from one part of the harbour to another.

8. The pilots, whether at sea or not, shall be obliged to pay proper attention to all vessels in want of their assistance; and after taking charge of them, shall not leave them until brought into proper moorings, to the satisfaction of their commanders, or until they are directed by the captain-pilot.

9. Pilots shall afford assistance to His Majesty's ships before all others; and shall employ themselves in piloting vessels into and out of the harbours of Peterhead in preference to any other service.

10. In case any vessel, after making signal, be neglected by the pilots, the commander of every pilot-boat within the harbours, who cannot satisfy the trustees or bailies that they were actually engaged as pilots at the time, shall forfeit 20 s., unless it were impossible to proceed to sea through stress of weather; and it shall be no excuse for a pilot that he was engaged in fishing, unless he had intimation given him by the captain-pilot, previous to his leaving the harbour, that his services would not be necessary.

ABERDEEN.

Peterhead.

11. The pilots are all furnished with licences and a copy of these regulations, which they shall carry about with them on all occasions when they are employed as pilots; and they shall be obliged to produce them, when called upon to do so, otherwise the masters of vessels shall not be obliged to receive them, or pay the dues of pilotage.

12. Every person acting as master, or having the charge of any ship or vessel either going out of or coming into the said harbours, or either of them, shall be bound and obliged, before leaving or entering the said harbours, to take on board a pilot belonging to the said harbours licensed as aforesaid; and in the event of such master or other person refusing or neglecting so to do, he shall be liable in a penalty of 10*l.* sterling, to be recovered by the said trustees, and to be applied for the purposes of the said Act, and that over and above the dues hereby made exigible from such master or other person had he taken a pilot on board, and which dues shall be payable to the pilot who shall offer his services, notwithstanding such services shall be refused, provided the pilot's boat is manned to the satisfaction of the captain-pilot, and that the pilot has complied with the 11th Regulation.

13. Any anchors found in the bay by the pilots must be delivered to the captain-pilot, who will reward them for their trouble.

14. Any pilot who shall refuse to take charge of a vessel on a proper signal being made, or on the application of the captain-pilot, or any person concerned, or any of the trustees or bailies, or shall refuse on such signal or application to lead the way of any ship or vessel which cannot be boarded without imminent danger, or refuse to assist any vessel in distress, or shall misbehave himself in the conduct of any vessel, or the execution of any part of his duty as a pilot, or shall refuse or neglect to obey any summons, either written or verbal, of the bailies, requiring his appearance before them, or any of them, or shall refuse or neglect to obey the order of the trustees or bailies, or the captain-pilot, shall be suspended or broken, or shall forfeit such penalty as the bailies shall think fit, or be otherwise punished in terms of the Act of Parliament or of these regulations.

15. Any person acting as a pilot without being licensed, or after his licence has expired or been recalled, shall be liable in a penalty of 5*l.* sterling, and may be imprisoned, within the bridewell for the city and county of Aberdeen, for any space not exceeding 60 days, in case the said penalty shall not be sooner paid.

The above is for pilotage in and out, in ordinary cases.

For each tide's work within the harbour, for every description of vessels, each man, 1*s.*

17. Foreign vessels making signals for pilots at a greater distance than usual, shall pay such pilots, for going out to them beyond the ordinary track, an additional allowance, at the discretion of the captain-pilot, or the trustees or bailies.

18. The above rates are, however, only payable to the pilots when the boats are fully manned to the satisfaction of the captain-pilot.

19. If a pilot, after taking charge of a vessel in the bay, shall, by stress of weather, be detained on board, and prevented from going into port, he shall be entitled to his provisions while on board, and be allowed 2*s.* 6*d.* for every day he is so detained.

20. All charges for extra trouble to be settled by the trustees or bailies, or, in their option, by the captain-pilot.

21. Pilots demanding or receiving, under any pretence, higher rates than those above-mentioned, shall be liable in a penalty of 10*s.*, besides returning the overcharge.

22. Masters or owners of vessels refusing to pay according to the foregoing rates of fare, shall forfeit a penalty of 10*s.*

23. All penalties enacted by the foregoing regulations shall be recovered and applied in manner directed by the said Act of Parliament.

24. All persons concerned shall, besides, be bound to observe, and shall be conducted by and liable in the whole clauses, enactments, forfeitures, and penalties that are contained in and may be sustained and incurred under the said Act of Parliament.

All goods shifted from one vessel to another to pay half dues.

Exemptions.—Passengers' travelling luggage, sailors' outfit, or servants' chests, where the same belonging to each passenger shall not exceed 2 barrel bulk; all above that to pay. All returned goods, having formerly paid dues. All materials for the use of the harbour.

RATES PAYABLE FOR SHED DUES.

The shed berth, when not occupied, to be open to all vessels coming to the harbour, under the direction of the shore-master; but vessels loading or discharging, or both, without leaving the berth, to pay for the use of the open sheds each time the berth is so occupied, the sum of 2 s.

And as there is a lock-fast department in the sheds, the tacksman of the harbour dues may put and keep therein, till called for, any goods which the owners thereof may wish to be locked up, but such goods to be kept at the risk of their owners; and dues may be charged for the use of said shed, not exceeding the following rates for the first 24 hours, and half dues for every 24 hours thereafter. The tacksman not to show any partiality in granting the use of said shed.

Tonnage Dues on Goods.—The tonnage dues on goods are charged at the rate of 4 *d.* per ton of 20 cwt. on goods by weight, and 4 *d.* per ton of 40 cubic feet on light or measurement goods. Pig iron and tiles for draining have latterly been charged a reduced duty of 2 *d.* per ton. Coals and freestone are, in terms of the Harbour Act, exempt from dues.

Crane Dues.—Twopence per ton of crane dues are charged on all goods loaded or discharged by the harbour cranes.

DUNURE.

Treasury Chambers,
Dublin Castle, 25 April 1846.

Dunure.

Sir,

I AM proprietor of the harbour of Dunure, and am authorized by an Act (local and personal), the 51 Geo. 3, c. 33, to levy tonnage duties and rates upon commodities at the harbour of Dunure; but in point of fact no duties or rates are so levied. The grounds on which I have abstained from exercising the powers conferred by the Act are, that it has been impossible to prevent the harbour from falling very much into decay, owing to the quality of the rock of which it was chiefly constructed. From this cause the accommodation to vessels is very inferior to what was contemplated when the harbour was constructed, and for that reason I have deemed it right to abstain from the levying the rates and duties which are authorized by the Act.

I am &c.

The Hon. H. Manners Sutton, &c.

T. F. Kennedy.

GIRVAN.

Girvan, 23 April 1846.

Girvan.

Sir,

THE only charges levied at the port of Girvan are anchorage dues, at the rate of 1 *d.* per ton on vessels belonging to the harbour, and 2 *d.* per ton on all others; and the amount of dues received for the years 1844 and 1845 are as follows:

	£.	s.	d.
For the year ending 1 January 1845 - - -	45	6	-
For the year ending 1 January 1846 - - -	75	8	1

I am, &c.

(signed) Wm. A. Wyllie.

BANFF.

Sir,

Town-house, Banff, 12 May 1846.

I am directed by the trustees of this harbour to say that during the years 1844 and 1845 the dues were let by them on lease, in terms of the Act of Parliament for regulating the harbour, and consequently they are not possessed of information to enable them to give a Return of the amount collected in each department; the only persons able to afford such information being the respective lessees.

I enclose printed copies of an abstract of the harbour accounts for the years ended 15th October 1844 and 15th October 1845 respectively, showing the gross amount of dues paid to the trust.

I have, &c.

James Smith, Clerk to Harbour Trust.

The trustees for the harbour of Banff, in order to give publicity to the tables of shore and harbour dues which they are authorized to levy, have resolved to publish such of the Schedules of the Act of Parliament 3 & 4 Victoria as contain said tables, and which are as follow: viz.

SCHEDULE (D.).

All goods, wares, merchandize, or other commodities not specially rated in the foregoing Schedules (E.) and (F.) are to be charged by the barrel bulk of 5 cubical feet, excepting when the said measure of 5 cubical feet shall exceed two and a half hundred weight, in which case two and one half hundred weight to be rated a barrel bulk. Small packages not measuring one and one fourth cubical foot, or not weighing 28 pounds, to be reckoned one fourth of a barrel bulk.

Shore dues at the foregoing rates and by the foregoing rules, and at the rates and by the rules stated in Schedule (E.) to be paid by burgesses of guild, burgesses of the incorporated trades, and privileged traders on all goods, loaded or unloaded, within the harbour, the boat bythe, the River Deveron below the bridge, or on any other part of the coast, from the Burn of Boyndie to the Palmer Cove; but unfree traders, except where specially exempted, to pay as rated in Schedule (E.) for all goods charged by bulkage, and one half more than the rates stated in Schedule (F.) for all the other goods therein contained.

EXEMPTIONS UNDER SCHEDULES (E.) and (F.).

1. Stores, timber, or other materials for the use of the piers, or any of the town's public works carried on by the harbour trustees, or town council themselves, without contract, but contractors for these works not to be exempted.

2. Materials for the salmon fishings held of the burgh.

3. Fresh fish imported in bulk.

4. All goods landed from one vessel, and re-shipped in the original packages by another vessel, shall; upon re-shipment, if by the original importer or owner, pay only one half of the dues paid on landing; but if the goods have changed hands, or if the state of the goods or packages are altered, full dues.

5. All returned empty boxes, casks, bags, and other packages, to be exempted from the payment of dues.

6. In case any goods having paid shore dues, when loaded, shall from any accident or otherwise be unloaded, the same shall not be chargeable with a second payment when unloaded, nor on being re-shipped, if by the same owner and in the same ship and original packages.

7. The furniture and luggage of fishermen coming to or returning from the herring fishing at Banff at the commencement or end of the season.

GARMOUTH.

Sir,

Aberdeen, 9 April 1846.

I BEG to state that no shore dues are chargeable on vessels entering the port of Garmouth : 1 d. per ton is charged for moorings on the shore if used by the vessels entering the port, but this is optional ; 1 s. per foot draught of water is charged for pilotage if a pilot be employed, which is likewise optional.

Garmouth.

During the year 1844, 106 vessels entered the port ; in 1845, 110 vessels, averaging about 60 tons per vessel. Their cargoes outwards chiefly consisted of wood.

I remain, &c.
Wm. Hogarth.

BLACKPOTS.

THE harbour of Blackpots is almost exclusively occupied for the use of the tilework let in connexion with it, and the only goods landed were coals for the tilework. No charge was made for them, or for vessels ; but if it had, it would have been nearly as under :—

REGULATIONS to be observed, and TABLE of SHORE and HARBOUR DUES, &c. payable at *Portsoy, Cullen*, and the other Harbours on the Earl of Seafield's Estates in *Banffshire*, from and after the 26th day of May 1829.

1. ANY vessel coming into any of the above-mentioned harbours, and being within 30 fathoms of the quays or piers, for the purpose of unloading, and having a rope from her first ashore, is to have a preferable title to a berth before any other vessel that may come in the same tide.

2. Any vessel having on board a cargo which cannot be unloaded over another vessel, but must, for that purpose, lie close to the quay, is to be first preferred to a berth; and in case of more than one vessel with such a cargo, the vessel whose rope is first ashore shall have the preference, saving the privilege of vessels in distress.

3. In the event of any vessel or vessels coming into harbour with a cargo, requiring an inside berth for unloading, and that no such berth is vacant, then the berthmaster is to accommodate such vessel, by removing from the quay any other ship, one or more, which have such cargoes on board as may be unloaded over another vessel; and vessels lying upon an outside berth shall be obliged to heel off, so as to prevent damage to those lying within them, otherwise the masters and owners are to be liable and obliged to repair such damage as the inside vessel shall happen to sustain by their neglect of so doing.

4. Any master of a vessel who shall, after being desired by the berthmaster, refuse to remove from his berth for accommodating another vessel which has a preferable title, as above mentioned, shall forfeit and pay a penalty of 40 s. sterling for each transgression.

5. No pitch, tar, or turpentine shall, at any time, be boiled on board of any vessel within harbour, under the penalty of 2 l. sterling, to be paid for each transgression; nor shall any open lights or fires be carried to or kept on board any ship or vessel, nor hot irons for melting pitch, tar, &c. And fires on board shall be put out by nine o'clock at night, under a like penalty.

6. All wrecks of ships or vessels that may happen to be sunk, likewise timber, and all other obstructions that may occur within the flood-mark or harbour, by accident, shall be immediately removed and detained by direction of the berthmaster, upon the expense of the owners.

7. No ballast shall be taken from any part of the harbours, or neighbourhood thereof, without directions from the berthmaster, under the penalty of 20 s., to be paid by the offender. And every person throwing ballast, stones, or rubbish of any sort into these harbours, or doing any other thing to the prejudice or annoyance thereof, shall forfeit and pay a penalty of 40 s. sterling. And all vessels when taking in or putting out ballast, coals, manure, &c., shall use canvas or tarpaulins of not less than six feet wide, to prevent any part from falling into the harbours, under a penalty of 20 s. sterling.

8. Every person wilfully cutting, breaking, or destroying any rope, or other thing by which a ship or vessel is moored or fastened within any of the harbours, shall, for every offence, forfeit and pay a penalty of 3 l. sterling, besides damages; but without prejudice always of the berthmaster, his exercising the powers hereby committed to him, to their fullest extent, in a reasonable manner.

9. As all shipmasters and others are to take their directions, with respect to mooring and unmooring of vessels, from the berthmaster alone, so he is hereby fully empowered and authorized to cut the ropes of any ship or vessel where his orders and directions shall not be immediately complied with and obeyed, and the transgressor or transgressors shall, besides, be liable in a penalty of 40 s. sterling.

10. The masters or crews of all vessels having slipping bowsprits, shall be obliged to rig them in; also all square-rigged ships or vessels, to top their lower yards up and down, spritsail yards, fore and aft, and to have their jib-booms and anchors taken in when desired by the berthmaster, under a penalty of 40 s. sterling, to be paid by the offender. And the owner and master of every ship or vessel shall be answerable for the full amount of damage which shall be done by him, or such ship or vessel, or by any of the servants, sailors, &c. on board the same, to any cranes or other articles to be erected or used for the conveniency or improvement of the harbours, with full costs of suit.

11. For the more convenient transporting of ships from one place to another within harbour, all ships, vessels, lighters, and boats shall be obliged to bear ahead or astern at any time before high water, in such manner as the berthmaster shall direct, under a penalty of 40 s. sterling, to be forfeited and paid by the master, owner, or offender.

12. Any person or persons refusing to obey the berthmaster, or who shall insult or interrupt him in the exercise of any part of his office, shall, for every such offence, forfeit and pay a penalty of 1 l. sterling.

13. All ships bringing cargoes of lime into any of these harbours shall be berthed and unloaded only at such parts of the quays as the berthmaster shall direct, and at no other place. And all vessels having gunpowder on board must inform the harbour-master

BANFF.

of the quantity, and unload it immediately upon arrival in harbour at such place as he may appoint; and all ships and vessels coming from sea with guns on board shall, before they enter the harbour, take special care to unload and clear the same. And all pitch, tar, rosin, hemp, flax, spirituous liquors, turpentine, oil, hay, straw, tallow, grease, or any such combustible things, must be removed from the deck of any vessel in any of the harbours, and from the quays thereof, within 12 hours after the customs and excise officers shall have done with them, without special leave in writing from the harbour-master, under a penalty in each case of 5 *l.* sterling.

14. In case any difference shall arise during the night with respect to the berthing of ships, or any other matter falling under the berthmaster's cognizance, he shall immediately when called upon give his attendance, and discharge his duty upon all such occasions.

15. It is provided that the master or mate of every vessel within the harbour shall attend on board during tide time, in order to receive the berthmaster's directions; certifying all such who neglect to do so, that he shall in such event have full power to discharge his duty, in terms of the foregoing regulations, in the same manner as if the master or mate were on board, without being liable to any challenge upon that account; excepting always such ships or vessels as are or may be laid up for any considerable time, in which case the berthmaster shall be obliged to give notice to the master or mate of such vessel before he remove the same.

16. No ship when empty is to lie at an inside berth upon the pretence of taking in a cargo, unless some part of her cargo is upon the quay ready to be taken on board. Nor is an empty ship to be allowed to lie at an inside berth upon pretence of taking in ballast, provided the berth, in either case, be wanted by a vessel having occasion for it.

17. No stones of any kind are to be dressed upon the quays for any purpose whatever, excepting for repairing or building the quays, under a penalty of 20 *s.* sterling for each transgression.

18. All penalties enacted by the foregoing regulations shall be exigible by the berthmaster, from the master or owners of the several vessels where the transgressions have been committed, as well as from the actual offenders themselves; and such penalties, when so enacted and levied, shall be paid to the person appointed by the magistrate or magistrates of the place for collecting the shore and harbour dues, and accounted for by him yearly, or oftener if required, in order to their forming a part of the funds appropriated for the repair, maintenance, and improvement of the harbour; and in case of neglect by the harbour-master to exact such penalties, he shall be liable for the same himself.

19. The berthmaster is always to have with him a copy of these regulations, to be produced, if necessary, for the better information of all concerned.

20. No sheds, or erections of any kind are to be made on the quays, or on any of the roads or passages around the harbour, for curing of herrings, or any other purpose, without special permission in writing from the magistrate or magistrates of the place; and no ballast, fish offals, or other nuisances are to be left on the quays or roads over night, on any pretence whatever, under a penalty of 40 *s.* sterling for each offence.

21. All articles laid on the piers or roads round the harbours, and lying there one full week, to pay the ordinary rate of shore dues, and to pay the same weekly for each week they may remain there, over and above the rate payable when the same is loaded or unloaded, unless in such cases as the owner shall not know of their being there, in which case the shoremaster shall first give due notice in writing.

22. The following are to be the established harbour and shore dues leviable at the said harbours, until the same be regularly altered, viz.:

HARBOUR DUES Payable by Vessels belonging to Portsoy, Cullen, Whitehills, and Blackpots, &c.

1. Every such ship or vessel arriving or put into any of these harbours, and which shall load or unload any goods or other cargo, to pay per ton of register, one halfpenny.

2. Every such ship or vessel which shall lie up or winter in any of these harbours for six weeks, and not exceeding three months, to pay per ton of register, 3 *d.*, and for every additional month, 1 *d.* additional per ton register. Every ship put in by stress of weather, or wind-bound, and shall not load or unload goods or other cargo, to be exempted. Every boat employed in the herring fishery to pay annually the cran of herrings first taken by each, in name of harbour dues for the whole season of the herring fishery, and to be delivered in a green state. But each boat employed in what is termed the Early Herring Fishing, in May and June, to pay 10 *s.* of harbour dues at the commencement of the fishing; but on continuing or returning to fish during the usual fishing season, in July and August, the 10 *s.* to be returned, and the customary harbour dues of the cran of green herrings first taken by each at the commencement of said usual season to be charged in place thereof, for the said two fishing seasons.

HARBOUR

HARBOUR DUES payable by Vessels, Barks, and Boats not belonging to the above-mentioned Ports.

BANFF.

3. Every such ship, &c. arriving or put in by stress of weather, and which shall not load or unload any goods or other cargo, to pay per ton of register 1 $\frac{1}{4}$ d.

* * The above dues are to be charged only once on the same voyage.

4. Every such ship, &c. which shall load or unload any goods or other cargo coming into or going out of harbour, to pay per ton of register 2 d.

5. Every such ship, &c. which shall lie up or winter in any of these harbours for six weeks and not exceeding three months, to pay per ton of register 6 d., and for every additional month, 1 d. additional per ton register.

6. Boats rented at Cullen House are not liable in any of the above dues, except for the article of the herring fishery; and stranger boats bringing fish in bulk, to be sold by retail, are also exempted both from harbour and shore dues.

7. The tonnage of vessels shall be ascertained by their register, and failing the production thereof by the master, in case of dispute, by actual measurement.

3. Ships and boats and their cargoes of stones, timber, or other materials brought into harbour for the use of the piers, are exempted from the payment of any shore or harbour dues.

4. The tacksman of the shore dues obliged to advance the ordinary freight of goods lodged in the warehouse, for which he is to be allowed by the owner of the goods $\frac{1}{2}$ d. per barrel bulk, for commission and trouble; and, for his security, to be at liberty to retain the goods until paid the said freight and commission, and also the carriage from the harbour and the warehouse rent.

5. No person allowed to bulk any goods for shore dues, but some person or persons who shall first be sworn for the faithful discharge of the office, and approved by the magistrate or magistrates of the place, under a penalty of 5 l. sterling.

6. The tacksman obliged, under a penalty of 20 s., to carry about with him a copy of these rates and regulations, to be produced to any person from whom he collects, if requested.

BANFF.**Macduff.****MACDUFF.**

Banff, 13 May 1846.

DURING the years 1844 and 1845 the shore dues have been let by public roup, and in consequence I am not in a situation to afford the information required. I may state, however, that the let for the year, from 29th May 1844 to 29th May 1845, amounted to 268*l.*; and from the last-mentioned date to 29th May 1846, to 250 *l.*

I have, &c.

BRUCEHAVEN.

Sir,

Charlestown, near Dunfermline, 30 April 1846.

THE charge on vessels frequenting this creek is 1 *d.* per register ton. The creek was chiefly used for shipping coals, and the harbour dues charged on them were 2 *d.* per ton, but there are no coals shipped there at present. The place is now nearly deserted, and is only occasionally used by a few light coasting vessels requiring repairs.

The whole harbour dues and charges on vessels in 1844 amounted only to 30 9 1
And in 1845, to - - - - - 9 11 10½

I have, &c.

Robert Menzies.

St. David's.

ST. DAVID'S.

Sir,

St. David's, Inverkeithing, 27 April 1846.

THERE are no harbour dues levied on shipping here, neither are there any goods imported or landed, the trade being exclusively confined to the export of coals.

I have, &c.

Alexander Lyle,
Manager for George Mercer Henderson, Esq., of Fordel,
Proprietor of St. David's Harbour.

CAMPBELTOWN.

Sir,

Campbeltown, 27 April 1846.

THE aggregate of the dues at this port for the year 1844 was 141*l.* 17*s.*, and for 1845, 180*l.*, as received by the burgh on a sale of the same; but these sums included the weigh-house and ballast dues, which might probably amount to one-sixth of the whole sum.

I have, &c.

John Colville, Jun.

EXTRACT Minute of the Town Council of the Royal Burgh of Campbeltown.

Campbeltown, 14 September 1799.

THE magistrates and council considering that the carrying on the piers of this harbour, town house, and other public works, have been attended with a very great expense, and require a considerable annual repair; that the town revenues, hitherto collected for defraying these and other public expenses, are much below what is paid in name of town dues to our neighbouring burghs, who have not so good a harbour, nor such conveniency for shipping, landing, and selling goods; and that some of the branches of the town revenue have been evaded or not punctually collected, on account of several articles not being clearly expressed and brought into one general table, and the former tables having been duly examined and corrected in pursuance of the powers vested in them by the charter of erection of this burgh;—The magistrates and council do hereby statute, enact, and ordain, that from and after this date, the sums specified in the following tables or proportion of goods in kind, to be annually paid or exacted for ladle dues, causey customs, tronnage and petty customs, anchorage, quayage, and shore dues; and appoint the same to be paid to the town's tacksmen and collectors accordingly, as under. And the said tables to be recorded in the minutes, as approved of by the council, viz.:

CAMPBELLTOWN.

Anchorage.

Each yawl anchoring in the harbour belonging to a stranger or unfreeman, not employed in the fishing	s.	d.
Every fishing boat	-	6
Every vessel, from 10 to 15 tons burthen	1	-
Every vessel, from 15 to 20 tons	1	6
Every vessel, from 20 to 30 tons	1	8
Every vessel, from 30 to 40 tons	2	-
Every vessel, from 40 to 50 tons	2	6
Every vessel, from 50 to 60 tons	3	-
Every vessel, from 60 to 70 tons	3	6
Every vessel, from 70 to 80 tons	4	-
Every vessel, from 80 to 90 tons	4	6
Every vessel, from 90 to 100 tons	5	-
Every vessel, from 100 to 120 tons	6	-

And 1 s. for each 10 tons exceeding that tonnage.

Each fishing boat to pay for anchorage during the fishing season, if belonging to a stranger, 1 s.; or, in the option of the skipper, to pay 6 d. for each time the boat comes into the loch as above mentioned.

Every boat, ship, or vessel belonging to a freeman, but freighted by an unfreeman, anchoring in the harbour during the continuance of such freight, to pay two-thirds of the above anchorage.

And every boat, ship, or vessel belonging to an unfreeman, and freighted by a freeman, to pay one-third of the anchorage such vessel is liable for by the above table.

Quayage.

Every boat, ship, or vessel belonging to an unfreeman, that shall load or unload goods at the quays of the burgh, or anywhere within the harbour, to pay, over and above the said anchorage, another sum equal to the anchorage, for and in name of quayage; and in case such boat, ship, or other vessel shall be freighted by a freeman, to pay only one-third of the said quayage; but in case the vessel loading or unloading shall belong to a freeman, and be freighted by an unfreeman, then two-thirds of the said quayage to be paid; declaring, that where several persons, freemen and unfreemen, are jointly concerned in any boat, vessel, or goods of any kind, the freemen are hereby required to confess or declare to the town's tacksmen or collectors, what part of such goods or vessels belong to the unfreemen so concerned, that they may pay taxes accordingly; declaring, that if any freeman so concerned shall conceal the part of such boat, vessel, or goods belonging to the unfreeman, he shall, upon conviction, not only forfeit his burgh ticket, but shall also pay taxes and town's dues as unfreemen; recourse being had to his or their oaths on these matters, if necessary.

Shore Dues upon Unfreemen.

For every horse, mare, or gelding, of three years old and upwards, at export or import, to be paid	s.	d.
For every colt or foal	-	1
" cow, bull, or bullock, of three years old and above	-	1
" cow, &c. under three years old	-	1
" sheep or goat	-	1
" lamb or kid	-	1

" barrel of coals, at import or export	-	1
" trough stone for a grave	-	4
" head-stone for a grave	-	2
" grinding-stone	-	2
" 100 rybets for building, and so on in proportion for any greater or less number	-	6
For every boll of barley, oats, meal, wheat, rye, malt, pease, beans, and potatoes, Kintyre measure, brought into the harbour, and landed on either shore, within MacNinian's Point, although not brought to the quays of the burgh, a shore-due of	-	3
For every boll of such grain and potatoes shipped off from any other part of the harbour, except the quays of the burgh, a shore-due of	-	3
Such of the above victual as shall be landed on the quays, will only be liable in payment of causey customs conform to the table thereof.		

For

For every boll of the above grain and potatoes, brought from stores or cellars within the liberties of the burgh, and shipped off from the quays, if the same leaves the harbour as the property of an unfreeman, a shore-due to be paid by the shipper thereof*, of	s.	d.
For every boll of barks	-	1 ½
" pack of wool	-	1 ½
" stone-weight of wool	-	6
" copper chaldron of 16 gallons contents, or upwards	-	- ½
" brass pan or pot, under 5 s. value	-	1 -
" 100 of deals, staves, rungs, or others of that kind, two deals, staves, rungs, &c. to be paid out of each 100.	-	- ½
Every puncheon of whisky or aqua vitæ, to pay	1	-
Every hogshead - ditto	-	6
Every barrel - ditto	-	3
Every anker - ditto	-	1
For every hundred-weight of bacon or other hams, dried salmon or others of that kind, not barrelled, and so in proportion	-	1
For every ton of kelp, iron, hides, tallow, &c. in lieu of shore-dues and quayage	-	8
For every bale of soft goods, barrel bulk, imported by unfreemen, and so in proportion	1	-
For every barrel of herrings imported or exported	-	1
Full crates of crockery-ware, or other goods imported or exported, and smaller crates in proportion	-	8
Sugar hogsheads, containing dry ware or other goods, of six barrels bulk	-	6
For each maize or cran of fresh herrings brought into the harbour for sale, by strangers, two herrings out of each 100, and so in proportion for any larger quantity.		
For other fish of all kinds, two out of each 100.		
For every dozen of calf skins, sheep and goat skins, dried and exported	-	2

Factors and agents to be liable for all or either of the above dues, if the owner of the goods is not present.

And, as some freemen have, at times, been in the practice of lending their names and benefit of freedom to cover the goods and transactions of unfreemen, for the purpose of defrauding the tackmen of the town dues of their legal claims, it is hereby statute and ordained, that any freeman guilty of such practices in time coming (the same being ascertained by his oath or other legal probation), he shall not only forfeit his freedom, but he shall also be liable to such a fine as the magistrates shall think proper to impose, according to the circumstances of the case.

And the tackmen of these different branches of revenue are prohibited and discharged from taking or exacting any larger or less dues than these particularly above enacted, under the penalty of paying such fine as the magistrates shall think fit. And as the tackmen of the burgh revenue are often wantonly, and without any just cause, obstructed in collecting the same, they are hereby appointed and authorized to, point summarily as much of the goods and effects of the person or persons so obstructing or refusing to pay, as will be sufficient for paying the town dues and expenses of recovering the same; the magistrates reserving to themselves power and liberty to modify, in particular cases, where lenity to strangers may appear necessary, any article of revenue they may consider in such circumstance case to be any way overcharged.

EXTRACT Minute of Town Council, of date 20th November 1817.

Campbeltown, 20 November 1817.

THE magistrates and council having considered the complaints of the tackmen of the anchorage and shore dues of the burgh, that although they have been in use to exact one penny-halfpenny for each boll of potatoes shipped off from the quays of the burgh, since the present table of town dues was regulated, in the month of September 1799; yet this year they have been refused payment of the said one penny-halfpenny by some of the traders of the burgh, under the pretence that the said due did not apply to potatoes brought from the country, and shipped off from the quays without being cellared, or offered for sale: the magistrates and council, in order to remove all doubts upon this head, do hereby enact, statute and ordain, that in all time coming, and as has been done in time past, every unfreeman shall pay one penny-halfpenny per boll for each boll of potatoes shipped off from the quays of the harbour of Campbeltown, whether the same have been cellared or not, or brought from town or country.

It is also enacted, statute and ordained, that all foreign ships, or ships not having a British register, shall in all time coming, be liable in anchorage dues of double the anchorage charged in the former table, which tonnage shall be ascertained by their respective registers. And appoint the clerk to give out extracts of this act of council to all parties interested therein requiring the same, at their own expense.

CAMPBELTOWN.

Appendix.

Edinburgh, 21 February 1845.

HAVING heard counsel upon the pursuer's motion to apply the verdict and pronounce judgment against the defender, David Stewart Galbreath,—In respect of the verdict on the third issue, find, decern, and declare against the said defender, in terms of the conclusions of the libel, as to the whole dues contained in the table dated 14th September 1799, in so far as regards the levy of the same at the quays of Campbeltown: farther, in respect of the minute No. 24 of process, and the verdict on the first and second issues, find, 1st, that the pursuers are entitled to exact, levy, and uplift the anchorage dues, specified in the table of dues dated 14th September 1799, from the persons therein mentioned, upon all vessels dropping anchor within the loch of Campbeltown, whether their destination is for the pier of Dalintober or the burgh of Campbeltown: and farther, find that the pursuers are entitled to exact, levy, and uplift the shore dues specified in said table, from the persons therein mentioned, upon all the goods and other articles enumerated therein, which shall be shipped or unshipped either at the pier of Dalintober, or at any other point upon the shores of the said loch of Campbeltown,—but that only at the rate or rates prescribed by said table for goods and other articles brought to, or shipped off from, the quays of the burgh of Campbeltown, as set forth in said table,—but without the exemption granted as to some of the same, when shipped or landed at the quays of the burgh, in respect of the causeway mail then and there payable: find, that the pursuers are not entitled to exact or levy any quayage dues at the quay of Dalintober, and to that effect assoilzie the defender from the conclusions of the summons. 2d. Find, that the pursuers, by themselves and their tacksmen, are entitled to enforce payment of the said anchorage dues and shore dues, by detaining the vessels or goods and other articles in respect of which the same are exigible, until the dues shall have been paid,—and otherways to enforce payment, according to use and wont. 3d. Find, that neither the said defender, nor those deriving rights from or through him, have right to load or unload goods belonging to them, or for their own use, of any description, from or upon any of the shores of the said seaport or harbour, as before described, or any part thereof, without payment of the anchorage, shore, harbour, and other dues exigible by the pursuers, as above specified; and that they have no right whatever to land or receive the goods of others thereon, except under the grant of free port belonging to the pursuers, and subject to the conditions of their right of harbour, and to the payment of the various dues referred to in the preceding findings; and, to the effect above specified, find, decern, and declare against the defender. Find the pursuers entitled to the expenses of process generally, with exception of those of the jury trial.

The rent received from the tenant for the year commencing 1st November			
1845, is - - - - -	107	-	-

The magistrates and council, in setting the harbour, have made no separation in the rent on account of the amount levied on shipping from the amount levied on goods; and on application to the tenant, he has no books or papers showing the separation of these items; and the magistrates and council, in consequence of this, are unable to furnish a return separated and classified, as required by your letter, the above being all the information they are enabled to communicate.

To the Hon. H. Manners Sutton,
&c. &c. &c.

I have, &c.
(signed) Wm. Carron,
Town Clerk.

REGULATIONS to be observed in the Harbour of Wigtown, as ordered by the Magistrates and Council.

1. All vessels coming into the harbour to discharge or load are to have the most convenient berth at the time, and when loaded to remove to such other part of the harbour, or draw out into the river, as the piermaster may see necessary. A discharging vessel to have the preference in berth to a loading vessel, in every case. Any vessel arriving with a perishable or damaged cargo shall have a berth alongside of the quay to discharge, and when discharged must immediately remove as the piermaster shall direct.

2. All moorings to be close to the bottom of the palls, and regularly slacked down as the vessel takes the ground. All anchors put out into the river to have buoys upon them, and no anchor to be put in the harbour.

3. No

3. No more than two vessels to moor to one pail, and no vessel to make fast to anything upon the quay but the palls or rings; and no person shall unloose or remove any vessel in the harbour, whether light or loaded, to make room for any other vessel, unless authorized by the piermaster.

4. If the master, mate, or other person belonging to or in charge of any vessel, refuse to obey the orders of the piermaster, by not removing such vessel when required, he is hereby warranted and authorized to cut the cables or ropes, or remove the fastenings with which such vessel is made fast to the quay.

5. All ballast must be carried direct from the vessel to whatever place of the harbour-ground the piermaster shall point out. No goods or ballast to lie upon the quay for more than 24 hours; and should any vessel damage the harbour, the ownery shall be liable therefor, and the master fined in 5*s.* sterling, and expenses.

6. All masters of vessels must pay the town dues upon cargoes outwards, and of lime and coal inwards: and shall furnish the piermaster with a list of such outward cargoes, as well as of the quantity of lime and coal imported: the master shall also furnish the piermaster with a just and true list of all other goods or articles imported, but shall himself collect the town dues of such goods and articles.

7. Every master or mate of any vessel acting fraudulently or in any manner contrary to these regulations, or refusing to obey the piermaster's orders, shall pay a penalty of 5*s.* sterling for every offence, and any damages or expenses which may be incurred, for which he and the ownery of the vessel shall be jointly and severally liable.

8. All vessels coming into the harbour shall pay 1*d.* per register ton; and all vessels coming within the buoys to pay $\frac{1}{2}$ *d.* per ton, for perches, except the ferry-boat, fishing and pleasure-boats, or vessels trading within the district of the custom-house, for which the owners shall pay as the magistrates and council may fix.

9. The piermaster shall attend and berth all vessels; and all disputes arising betwixt him and the owners, master, mate, or crew of any vessel, and importers and shippers, under these regulations, shall be settled by the magistrates. In all cases of contravention, the fines above specified will be punctually levied, with costs, besides any damages which may be incurred.

Town Dues.

22. All vessels loaded with coals, lime, or manure only, and discharging their cargoes within the precincts of the harbour to the eastward of the Roodyards, or to the westward of the Magdalen Yard, to pay one-half of the dues in the above schedule.

23. Vessels with fish of any kind for curing, per ton register or admeasurement, 2 d.

EXEMPTIONS.

24. All vessels leaving the harbour for the purpose of taking on board ballast in any part of the River Tay, and returning to the said harbour or precincts thereof with ballast, shall not be liable in shore dues for such return.

25. Any vessel sailing from the port of Dundee, and put back by stress of weather, or any other cause, without having accomplished her voyage, shall not be liable in additional dues for such return.

26. Vessels partly loaded with coals, lime, or manure, or in ballast, but having dunnage deals or stow wood on board, which have been used as such, and are intended to be unloaded; or having goods on board, which are neither to be landed nor re-shipped into any other vessel within the harbour or precincts, shall be charged the same dues as vessels wholly loaded with coals, lime, or manure.

27. All vessels arriving in ballast, for the purpose of being repaired in the graving dock, or on the patent slip, and departing in ballast, shall be exempted from tonnage dues, provided such vessels enter for the dock or slip immediately on arrival, and sail within one month after leaving such graving dock or patent slip; otherwise to be chargeable with the same dues as in article 19.

28. Vessels with cargoes, arriving for the express purpose of being repaired in the graving dock, or on the patent slip, shall not be liable in shore dues, provided they neither take goods on board (stores for their own use excepted), nor break bulk except to lighten for getting into the dock or upon the slip, and that they shall again re-load all the goods so landed.

29. All vessels loading or unloading goods within the precincts of the harbour of Dundee, to the eastward of the Roodyards and the westward of the Magdalen Yard, shall be exempted from payment of plank money.

30. All vessels not carrying passengers arriving in the harbour in ballast, and departing again in ballast, shall be subject only in half dues; but if such vessels, after arriving in ballast, shall take in cargoes or part of cargoes before their departure, they shall be liable in full dues.

1. All

DUNDEE:

1. All goods imported at the harbour of Dundee, in any vessel from any place not being within the River Tay, and re-shipped overside, or conveyed direct to another vessel in the docks and harbour, which vessel is to clear out for a port in the river, beyond the precincts of the harbour, to be charged one-half of the dues inwards specified in the foregoing schedule, no charge for dues outwards being made. But if the vessel into which such goods may be re-shipped, clear out for any port or place not within the River Tay, full dues inwards shall be charged on the goods, no charge outwards being made.

2. All goods imported from any port or place in the River Tay, not being within the precincts of the harbour, and re-shipped overside, or conveyed direct to another vessel in the harbour or docks, shall be liable in half dues inwards, no charge outwards being made.

3. When goods brought into the harbour by any vessel to be re-shipped into another vessel cannot be conveyed directly to such vessel, the owner, agent, or consignee of the goods shall, at the time of entering them for payment of the inward dues, declare, by a writing to be delivered to the collector of shore dues, that such goods are to be re-shipped; and, on receiving such declaration, the collector shall issue his permit for the landing and re-shipping of such goods outwards, free of outward dues, provided the re-shipment be made within four free days after the goods shall have been so landed.

4. All goods having paid shore dues outwards, shall, if returned to the original shipper and in the original state, be exempted from dues inwards.

5. All returned empty boxes, barrels, bags, sacks, and pack sheets, are exempted from dues.

6. All goods, merchandize, wares, or commodities whatsoever, and all beasts conveyed in licensed passage-boats from any of the ferry harbours of Ferry Port-on-Craig, Newport, Woodhaven, Balmerino, or any landing place to be erected for the Ferry at Craighead, in the county of Fife, to the ferry harbour of Dundee—or from the ferry harbour of Dundee to any of those ferry harbours or landing place—are exempted from payment of shore dues.

7. Lime, manure, and coal landed within the precincts of the harbour, to the eastward of the Roodyards, or to the westward of the Magdalen Yard, to pay half dues only.

8. Five cubic feet, not exceeding $2\frac{1}{2}$ cwt., to be rated a barrel bulk; but when the weight of 5 cubic feet is greater than $2\frac{1}{2}$ cwt., then $2\frac{1}{2}$ cwt. to be rated a barrel bulk.

9. In weighing and measuring goods for ascertaining the shore dues payable, the weight or measurement of the packing materials is to be included.

10. All stones, wood, coals, and other articles whatsoever, brought into the harbour or precincts thereof, for the use of the harbour works, ferry harbour works, or the steam boats, floating bridges, or other vessels navigating or using the said ferry, or for the use of the police works, or any of the public works of the town of Dundee, shall be exempted from shore dues; and ferry boats and floating bridges from tonnage, anchorage, and beacon dues; but the vessels bringing all such materials shall be liable to tonnage dues.

11. Ship's outfit and stores of all kinds, including provisions, when taken direct on board of any vessel for her own use, or landed for the purpose of being again re-shipped for the use of the same vessel out of which they were so landed, shall be exempted from payment of shore dues; but all such stores must first be entered at the Export Shore Dues Office, and a permit obtained for such shipping and landing respectively.

KINGOODIE.

Kingoodie.

Sir,

Mylnefield, by Dundee, 18 June 1846.

I BEG to inform you, that for the years 1844 and 1845, the dues leviable at the harbour of Kingoodie were let to the trustees on the Carse of Gowrie turnpike roads, at a rent of 30 *l.* sterling per annum. These trustees re-let the dues leviable at the harbour of Kingoodie along with the Invergowrie Toll Gate, and the tacksman of that toll gate collected the harbour dues. I have applied for, but have not been able to obtain any particular account of the dues collected at Kingoodie Harbour.

I have, &c.

*J. Wighton, Factor, for
William Henderson, Esq. of Mylnefield.*

NEWPORT.

DUNDEE.

Newport.

Sir

Tayfield, by Newport, Fife, 27 April 1846.

I HAVE to state that the payments made to me during each of the years 1844 and 1845, by the collector I employ for receiving the harbour dues at Newport, have been made *in cumulo* without distinguishing betwixt the amount levied on shipping and on goods, and amounted in 1844 to 7*l.* 2*s.* 4*d.*, and in 1845 to 5*l.* 12*s.* 4*d.*: but these dues are collected according to the following rates; viz.

Harbour Dues:

For every vessel	-	-	-	-	-	-	-	-	-	2 placks Scots, or $\frac{1}{3}$ of a penny.
Fishing boat, for anchorage	-	-	-	-	-	-	-	-	-	6 <i>d.</i>

Class 7.—To or from any port or places in Europe, or Island in the European Seas	4	4
Class 8.—To or from any port or place in the British Province of Canada, New Brunswick, Nova Scotia, Newfoundland, Iceland, the Greenland and Davis' Strait Fisheries, and all ports or places on the south coast of the Mediterranean Sea	6	6
Class 9.—To or from all ports or places in the United States of America, West Indies, and east coast of America, north of the river Amazon; also the west coast of Africa, from the Straits of Gibraltar to the Equator, including the Islands of these coasts	5	6
Class 10.—To or from any port, place, or island lying betwixt the river Amazon and Cape Horn in South America, and between the Equator and Cape of Good Hope on the west coast of Africa	6	6
Class 11.—To or from all ports, places, or islands, south and east of the Cape of Good Hope, and west of Cape Horn	6	6

Class 12.—All vessels navigating under foreign flags to pay double the foregoing rates, corresponding to their respective voyages.

Class 13.—All vessels, British or Foreign, arriving at or departing from the Port of Greenock in ballast, and all steam-packets employed solely in carrying passengers, to be charged only a moiety of the rates, corresponding to their voyage.

Class 14.—Whenever any vessel propelled by steam, whether employed in carrying goods, partly goods and passengers, or passengers solely, shall have entered inwards and cleared outwards so frequently as to have paid 13 s. 4 d. per ton of port charges, namely, of harbour rates, police dues, anchorage, and water money, inclusive, as chargeable to shipping, or when any sailing vessel shall have entered inwards and cleared outwards so often as to have paid 6 s. 8 d. per ton, including the above enumerated dues, such vessels shall be exempt from further payment of port charges, during whatever part of twelve current months may be unexpired from the date of making payment of first portion of said 13 s. 4 d. or 6 s. 8 d. as the case may be. Owners or masters of either description of shipping, wishing to save trouble, may have a clearance of twelve months, by paying at the Harbour Dues Office 1½ s. 4 d. per ton for steamers, and 6 s. 8 d. per ton for sailing vessels. The sums arising from vessels compounding as before mentioned, will fall to be allocated among the different trusts interested.

Class 15.—All vessels not bound to or from the port of Greenock, but taking shelter in either of the harbours thereof, to pay, in addition to the anchorage dues, one penny per ton.

Class 16.—All vessels at clearing outwards shall pay the rate applicable to the most distant port of their intended voyage.

Class 17.—All vessels outward bound for foreign ports from any other port in the river or channel, coming to anchor in the roadstead of this harbour for stores only, shall be exempt from harbour dues.

Class 18.—All vessels outward bound for foreign ports from any other port in the river or channel, touching at the quays of this harbour for stores merely, and not taking in any cargo here, shall be admitted on payment of 1½ d. per ton of harbour dues.

Class 19.—All vessels outward bound for foreign ports, partly laden at any other port or ports in the river or channel, and taking on board goods from this port, not exceeding one-third of a full cargo, shall pay 3 d. per ton of harbour dues.

Class 20.—All vessels coming into the port of Greenock to lay up for any space exceeding eight days, shall on arrival pay 4 d. per ton, and on departure pay the like sum of 4 d. per ton.

Class 21.—All vessels discharging a cargo or part cargo of lime, or limestone, or flintstone, to be charged inwards as if arriving in ballast.

Class 22.—All lighters from and for Glasgow and intermediate places, are chargeable with harbour dues, when with cargo, at ½ d. per ton per voyage, inwards and outwards making a voyage.

Class 23.—All lighters with coals for the use of the inhabitants of the town, but not for the manufactories, are not chargeable with harbour dues inwards, but when loading a cargo are chargeable outwards at ½ d. per ton, and if departing light without cargo, at ¼ d. per ton.

Class 24.—

GREENOCK.

Class 24.—Vessels under 15 tons, excepting when entering at or clearing from the custom-house with cargo, are exempted from the payment of harbour dues, and pay only anchorage dues, as per Anchorage Table.

Class 25.—All vessels arriving at this port in distress, or for repair (excepting such vessels as have sailed from the port and paid the outward dues), shall upon arrival pay the one-half harbour dues applicable to the most distant port or place for which such vessel was bound, and on sailing shall pay the full dues applicable to the port or place to which such vessel is destined.

Class 26.—All vessels clearing for foreign ports in ballast, with stores only, and having to proceed to Troon, Ardrossan, or any other place in the United Kingdom, to load, are to be charged the ballast rates applicable to coasting vessels.

Class 27.—All steamers plying to and from ports or places, as per class 1st of harbour rates, when with passengers only, are chargeable at the rate of $\frac{1}{2}$ d. per ton per trip, or $\frac{1}{2}$ d. per ton per voyage; and when entering or clearing at the custom-house, or with cargoes, at the rate of $\frac{1}{2}$ d. per ton per trip, or 1 d. per ton per voyage.

Class 28.—All steamers plying to or from ports or places, as per class 2d of harbour rates, when with passengers only, are chargeable at the rate of $\frac{1}{2}$ d. per ton per trip, or 1 d. per ton per voyage; and when entering or clearing at the custom-house, or with cargo, at the rate of 1 d. per ton per trip, or 2 d. per ton per voyage.

Class 29.—All steamers plying to or from ports or places, as per class 3d of harbour rates table, and passing to or repassing from Glasgow with passengers only, are chargeable at the rate of 1 d. per ton per trip, or 2 d. per ton per voyage; and when entering or clearing at the custom-house, or with cargo, at the rate of 2 d. per ton per trip, or 4 d. per ton per voyage.

Class 30.—All steamers plying to or from ports or places, as per class 4th of harbour rates table, when with passengers only, are chargeable at the rate of 1 d. per ton per trip, or 2 d. per ton per voyage; and when entering at or clearing out from the custom-house, or with cargo, at the rate of 2 d. per ton per trip, or 4 d. per ton per voyage; and so on for steamers plying to or from ports or places, as per classes 5th and 6th of harbour rates, according to the table.

The rates in the foregoing table are exclusive of the harbour police rates on shipping, and of the town dues for anchorage.

TABLE of DUES on Goods, &c. leviable at the Port of Greenock.

THE rates specified in the following Table are leviable on all goods, wares, or merchandize imported or exported to or from the port of Greenock and foreign parts; one-half of said rates on all goods, &c. carried coastwise; and one-fourth thereof on all goods, &c. to or from any place on the river Clyde, within the Cumbray Heads and the Kyles of Bute on the west and Glasgow on the east, and likewise to or from any place on the Clyde and Forth Canal, west of Grangemouth.

All goods, &c. which at import are immediately shipped for Glasgow or any of the intermediate ports, and which have previously paid the full import dues, are not chargeable with the dues applicable to goods carried by the canal or river.

All goods, &c. brought from Glasgow or any of the intermediate ports, which are merely landed previous to shipment, and which shall pay the full dues outwards, either to foreign

GREENOCK.

foreign parts or coastwise, are not chargeable with the dues applicable to goods carried by the canal or river.

All goods, &c. brought either in steamers or other vessels, and shipped into canal or river traders, without being landed, also all goods, &c. shipped from canal or river traders, into steamers or other vessels, without being landed, are only chargeable with one-half of the rates on such goods, and, besides, are not chargeable with the dues applicable to goods carried by the canal or river.

The dues on goods, &c. to or from foreign parts, are payable by the person who enters the same at the custom-house; those on goods coastwise, requiring to be entered at the custom-house, are payable by the person passing the sufferance or clearing the vessel; and those on goods carried coastwise, or by the canal or river, which do not require to be entered at the custom-house, are payable by the master or other person having charge of the vessel; he, however, having a claim against the owner or owners of such goods, for the amount of dues paid by him.

By order of the Trustees,

John Kerr Gray,

Council Chambers, Greenock,
16 May 1843.

Town Clerk and Clerk to the Harbour Trust.

The rates on all other goods or articles not specified above, are appointed by the Act of Parliament to be charged either by weight or measurement, according to the nature of said goods or articles; but in no case the rates to exceed 3*d.* per barrel bulk, on measureable goods; or 2*s.* per ton of 20 cwt. on goods chargeable by weight.

All goods shipped overside, to pay half dues only.

All goods having paid shore dues inwards, are exempted from dues when shipped outwards, if they be in the original state.

All goods having paid shore dues outwards are exempted from dues when brought inwards, if they be returned to the original shipper in the original state.

All goods not enumerated in the above schedule, to be charged by the Company in proportion to the goods of similar bulk and value specified in the above schedule.

Passengers' luggage carried by the owner or master of any vessel or boat, without hire or freight, if not exceeding two barrels bulk, or 2 cwt. is exempted.—*Vide* Act.

Steam vessels are entitled to land the luggage of passengers without payment of any further dues than the tonnage dues exigible from them, being one farthing per ton.—*Vide* Schedule (A.) of Act.

Five cubic feet not exceeding 2½ cwt. to be rated a barrel bulk; but when the weight of two cubic feet is greater than 2½ cwt., then 2½ cwt. to be rated a barrel bulk.

In weighing and measuring goods for ascertaining the shore dues payable, the weight and measurement of the packages are to be included.

The following Alterations and Modifications of the Tonnage Dues have been made by the Directors.

1. The tonnage dues on all British vessels, excepting steam vessels of and above 20 tons, have been reduced from 4*d.* to 2*d.* per ton.

2. Boats under five tons belonging to feuars, or to persons resident in Gourock, may, on payment of 2*s.* 6*d.*, have the use of the harbour for a year, dating from the 1st of May in each year; but to be still liable in dues conform to the Act of Parliament, when employed conveying passengers to and from steam-boats.

3. The dues on row boats and sailing boats under or about two tons, when not employed carrying passengers to and from steam vessels, have been reduced, the former to 2*d.* and the latter to 3*d.* per trip.

4. The dues on boats above five and under ten tons, have been reduced to 9*d.* per trip.

5. Boats belonging to vessels lying at anchor off the pier, may compound for the use of the quay, on payment of 6*d.* per day.

6. Vessels which have taken on board the principal part of their cargo in another port, and call for the purpose of taking on board, or, when bound inwards, of landing a small quantity of goods, shall be charged tonnage dues according to their class, only to the extent of the number of tons shipped, besides the rates on the goods; but this not to apply to vessels loading or landing gunpowder.

7. Vessels coming into the harbour for the purpose of being ballasted, are, besides the dues on the ballast, only to be charged tonnage dues according to the number of tons of ballast taken by them.

For further particulars as to the tonnage dues of sailing and steam vessels, and the cases of exemption, reference is here made to the Act of Parliament, and as to the terms of composition for steam vessels, to the printed hand-bill.

By order of the Directors,
Robt. Salmon, Secretary.

REGULATIONS to be observed by all Persons in Charge of Vessels entering into or touching at *Millport Harbour*, or Anchoring near the New Pier.

1. VESSELS entering in or going out of the harbour may remain alongside the new pier not longer than the first high water, unless going to take in or put out an immediate cargo, and in that case they shall lay up as near the old harbour as possible; they shall berth, shift and trim their vessels, and slacken or fasten ends and ropes as directed by the harbour-master, and attend when called on for that purpose.

2. They

2. They shall not allow their vessels to rub on the pier, but shall keep in use such fenders as the harbour-master may require. Vessels on the inside berths shall allow free access to those on the outside, and vessels on the outside shall fend off from those on the inside berths.

3. No vessel to obstruct the passage into the harbour, nor shall they be allowed to run ropes across or near it, but follow instructions from the harbour-master.

4. Vessels must be made fast to rings or palls direct from them, and will not, on any account, round the corners with their fastenings on any part of the pier.

5. Goods, ballast, or other articles intended to be shipped, to be laid down on the place pointed out by the harbour-master, and to be removed therefrom at his desire, and means used to his satisfaction to prevent the same falling into the harbour.

6. Free access shall be given on steam-vessels in the inside to those on the outside berths for all necessary purposes, and hatches and coal-scuttles to be kept shut when not in use.

7. Engines of steam-vessels to be stopped 100 yards from the pier, and the vessels are to move on slowly to their berths, so as not to injure the pier; and those arriving at night shall have at least not less than three hand-lanterns.

8. A penalty of 20 s. sterling shall be charged on every vessel not complying with these regulations, and the harbour-master is empowered to enforce them, and to use his every effort to promote good order in and about the harbour. Persons insulting or obstructing him in the discharge of his duty to be liable to a penalty of 2 l. 10 s. sterling.

9. Persons not conforming to these regulations render themselves subject also to expense of prosecution, and any other damages that may be incurred at any time.

10. Vessels to pay for any damage they may do to the quay, and may be fined by competent judges mutually chosen.

11. No persons whatever to congregate on the pier, but to leave it, on being requested to do so by the harbour-master, under a penalty of 1 l. sterling.

12. All masters or captains of vessels taking the opportunity of coming into the harbour, or touching at the pier, shall be understood to have conformed to the foregoing regulations.

By order of the Managers.

OBAN.

Oban.

THE quay at Oban was originally built by the former proprietor, and as the traffic of the port increased, several additions were afterwards made to it; the last addition, in the year 1834, to admit steamers and vessels of a larger size, was made by the late proprietor, assisted by the inhabitants of the town, when, to encourage traffic, a very low scale of charge upon the registered tonnage of shipping alone was agreed to; viz. 1 d. per ton for coasting vessels, and 2 d. per ton for foreign vessels discharging a full cargo at the quay, and at these rates for any portion of the cargo discharged upon the quay, no charge whatever being made upon the goods landed or shipped.

Since the property was acquired by the Marquis of Breadalbane, the same moderate rate of charges has been adhered to (to assist in keeping the pier in repair), and the following dues have been levied from the shipping coming to the quay:—

In the Year 1844 :	£.	s.	d.
On coasting vessels, 3,748 tonnage, at 1 d.	-	-	4
On foreign vessels, tonnage at 2 d.	-	-	-
Three steamers, per private agreement with harbour-master, at 3 l. each per annum	9	-	-
	£.	24	12 4

GREENOCK.

In the Year 1845 :

Oban.

	£.	s.	d.
On coasting vessels, 8,482 tonnage, at 1d.	-	-	-
On foreign vessels, 242 tonnage, at 2d.	-	-	-
On three steamers, per private agreement with harbour-master, at 3l. each per annum	-	-	-
	£.	25	10 6

No harbour dues are exacted unless the vessel come to the quay and discharge her cargo, or some portion thereof.

The quay was not constructed under or in virtue of powers contained in any Act of Parliament.

INVERNESS.

INVERNESS.

Sir,

Inverness, 28 July 1846.

THE right to collect shore dues and anchorage dues levied at the port and harbour of Inverness, has uniformly been let to tacksmen, who paid the town slump sums in name of rent. These tacksmen being vested in the full right of the town to collect such dues, the town has no interest in the collection, and as there are no distinct accounts kept by the tacksmen, it is impossible for the council to state the amount levied on shipping from the amount levied on goods.

The rent for each of the last three years was as follows, viz. :

	£.	s.	d.
From Michaelmas 1843 to Michaelmas 1844	870	-	-
From Michaelmas 1844 to Michaelmas 1845	845	-	-
From Michaelmas 1845 to Michaelmas 1846	1,180	-	-

Any further information which the town council of Inverness can furnish is embraced in the return already forwarded.

I have, &c.

To the Hon. H. Manners Sutton,
Whitehall.

Town Clerk.

- Persons who are freemen burgesses of the burgh, pay only one-half of the above rates of shore dues and anchorage on their own goods, except on the article of wool, as above stated.
- Boats belonging to the town, under 5 tons pay no anchorage.
- Articles on which shore dues have been paid on importation, may be exported free, provided they be in the same form and package as when imported, without bulk being broken.
- Shore dues and anchorage to be leviable for all vessels coming within the limits of the anchorage.

5. All

5. All goods and merchandize, loaded or unloaded on either side of the River Ness or elsewhere as far as the jurisdiction of the town extends, are liable in the payment of the same shore dues as if brought up to the town quays, although they should be unloaded out of one vessel to another.

6. Persons shipping or landing goods must give notice to the shoremaster, under the penalty of double rates.

7. Vessels requiring ballast will be supplied by the shoremaster at 1s. per ton.

8. If a shipmaster prefers providing himself with ballast, he pays, if a freeman, 1d. per ton of ballast for shore dues, and if a non-freeman, 2d. per ton.

9. Ballast, when landed, is the property of the shoremaster.

10. Goods exported, when they do not amount in all to half a barrel to an individual, by a single ship or boat, shall be free from shore dues.

11. Hemp and flax, which are sent out to be spun or made in cloth, may be sent out and brought back, either in yarn or cloth, without payment of any shore dues.

N.B.—It is the duty of the guild officer to see that coals and lime are fairly weighed and measured.

Approved and sanctioned by Acts of Council of 2d and 23d September 1839.

FORTWILLIAM.

Fortwilliam.

MR. M'GREGOR begs to state that there are no harbour dues levied at Fortwilliam. A harbour was constructed some years ago, partly at the expense of the Herring Fishery Board in Scotland, and partly by private subscription, for the use of the herring fishers; it is now used by all vessels and steamers coming to the place, without any dues, and no person seems to take any care or charge of it, so that it must by and by get out of repair. If dues could be levied, which, without an Act of Parliament, cannot, not only might the harbour be kept in good order, but it might also be greatly improved. Mr. M'Gregor was one of three gentlemen who got the Fishery Board to advance their share of the expense of the harbour, and procured subscriptions to defray the balance. An attempt was made to levy harbour dues from vessels not engaged in the fishings, but it failed of success.

NAIRN.

Sir,

Nairn, 4th July 1846.

Nairn.

I BEG to enclose a table of the shore dues payable at the pier and shore of Nairn, which comprises the several dues and charges of every kind levied as port-harbour dues on shipping, and on goods imported and landed at this port. I have to add, that as these dues are not collected direct by the magistrates and town council, but are let annually by public auction, I cannot give you the amount levied, either in whole or separately, on shipping and on goods; but I may mention that the rent received by auction for the whole, was, for the year 1844, 103*l.*; and for the year 1845, 97*l.*

I have, &c.

Adam Sandson,
Town Clerk.H. M. Sutton, Esq. Whitehall,
London.

EXEMPTIONS FROM THE ABOVE DUTIES.

1. ALL returned empty boxes, barrels, sacks, and packages, are exempted from duties.
2. All goods landed from any vessel, and re-shipped in the same vessel, in the original packages, and without being transferred from the lander; or if the said goods have been put into other packages from the original packages having been destroyed or damaged, shall only pay duties on landing, and may be re-shipped in the same vessel upon her departure outwards, without paying duties again.
3. All goods landed from one vessel, and re-shipped in the original packages by another vessel, shall, upon re-shipment, pay one-half of the rate of duties paid upon landing.
4. All goods having paid duties and half duties, and belonging still to the same person and under the same voyage, shall not be again liable to duties, though such goods should require again to be landed or to be re-shipped by the original proprietor.
5. All empty casks or other stores shipped for, or upon being returned from the fishery, or from conveying oil to market, shall be exempted from duties; as also ships' provisions, when taken on board for a voyage outwards, or landed from the same ship in consequence of not having been expended during the voyage, provided the said provisions do not exceed what is considered sufficient for the voyage.
6. The barrel bulk is understood in the foregoing schedule to contain five cube feet, except when the said measure shall exceed 2 cwt. 2 qrs. in weight; in which case such packages or articles are to be bulked at the rate of 2 cwt. 2 qrs. for the barrel.

INVERNESS.

Stotfield
and Lossiemouth.

TONNAGE DUTIES.

Class I. For all vessels except Herring Boats.

For all vessels belonging to any port of Great Britain or Ireland, when on a voyage to or from any port in Great Britain or Ireland, entering the harbours of Stotfield and Lossiemouth for safety or convenience, per registered ton	s. d.
- - - - -	- 3
For all vessels belonging to any port of Great Britain or Ireland, entering the said harbours from any port in Great Britain or Ireland, with cargoes or parts of cargoes to unload, or loading cargoes or parts of cargoes for any port in Great Britain or Ireland, per ton	- 3 $\frac{1}{2}$
For all vessels belonging to any port of Great Britain or Ireland, entering the said harbours for safety or convenience, when on a voyage to or from any foreign port, per ton	- 4
For all vessels belonging to any port of Great Britain or Ireland, entering the said harbours and loading cargoes or parts of cargoes for, or unloading cargoes or parts of cargoes from any foreign port, per ton	- 6
For all foreign vessels entering the said harbours for safety or convenience, per ton	1 -
For all foreign vessels entering the said harbours, to load or unload cargoes therein, per ton	1 6

But it shall be in the option of the company to charge the tonnage duties on the voyage inwards or the voyage outwards, at the rates specified in the above schedule, according as the voyage may be coasting or foreign; and if the charge be made on the outward voyage there shall be deducted from it the amount of the duties that may have been previously paid on the voyage inwards; but if such vessel sail in ballast, they shall be charged with duties on the inward voyage only. Declaring hereby, that tonnage duty shall only be once exigible upon a vessel entering the harbours, notwithstanding that such vessel may unload one cargo and load another.

Class II.

For every ship, brig, sloop, bark, lighter, yacht, steam-vessel, steam-boat, or other vessel or boat whatever, entering or arriving at the said harbours for the purpose of landing or taking on board any goods, passenger or passengers, or touching at or taking the advantage or benefit of any of the piers or quays of the said harbours, from any country, island, or place whatever, not before named in this schedule, for each and every ton the same shall measure	s. d.

BUCKHAVEN, METHILL AND WEMYSS.

Sir,

Wemyss Castle, Kirkcaldy, 12 May 1846.

Buckhaven, Methill and Wemyss.

I HAVE the honour to transmit to you the accompanying documents; viz.

Copy of the Wemyss Table of Anchorages and Shore Dues, with the sums levied in 1844 and 1845.

Copy of the Methill Table of Anchorages and Shore Dues, and sums levied in 1844 and 1845.

As respects Buckhaven Harbour, this has been erected within the last ten years, the cost having been met by grants from the Herring Fishery Commissioners (Scotland), and from contributions by Captain Erskine Wemyss and the resident fishermen. The proprietor is under obligation to the foresaid Commissioners not to exact any dues whatever from fishing boats or vessels resorting to this harbour; and, in fact, no dues from any party have been levied by the proprietor up to this date.

I have, &c,

Thomas Bywater,
Factor on Wemyss Estate.H. Manners Sutton, Esq.

The landings and shipments at Wemyss are all but exclusively confined to goods for the use of the proprietor's collieries, and to coal, the product thereof; and as the goods occasionally brought in for other parties are always by vessels intended to be loaded with the Wemyss coals, of late years it has not been the practice to exact anchorage.

All boat passengers to pay for all luggage above one barrel bulk.

All merchants' goods imported into the harbour that pay shore dues, pay none for export.

N.B.—The one half of any of the articles contained in this Table to be paid by burgesses residing and bearing scot and lot in the burgh, except for such as they may import for the private use of their families, for which they shall pay no duty.

It is enacted and ordained, that every purchaser of bulk of herrings loaded in the harbour of Burntisland on board of any vessel of 60 tons burthen per register or under, upon being applied to by the tacksman of the shore dues shall lodge with him the sum of 1 *l.* sterling, and so in proportion for vessels of greater burthen; and when his quantity is completed, the above sum shall be returned upon payment of the shore dues at the rate of 1 *d.* per crane, to be ascertained by the oath of the purchaser, if required; and every person refusing to comply with this order, shall incur a penalty of 5 *l.* sterling, to be recovered in a summary manner. The tacksman of the shore dues will in future take the number of the barrels as they arrive from the fishing stations, or the quantity taken in the harbour, and allow 10 per cent. off for filling up with.

KILRENNY OR CELLAR DYKE.

RETURN of the several DUES and CHARGES of every Kind levied as Port Harbour Dues on Shipping and on Goods Imported and Landed at the Harbour of *Kilrenny* or *Cellar Dyke*, in the County of *Fife*, *North Britain*, for each of the Years 1844 and 1845.

THE harbour of *Kilrenny* or *Cellar Dyke* is only frequented by fishing boats, which are exempted from anchorages and shore dues, consequently no charges are levied on shipping.

No goods were imported and landed at this harbour in the above years on which any dues were levied.

The goods sent out of, or brought into, the burgh, are chiefly conveyed by vessels resorting to the neighbouring port of *Anstruther*, and on such goods custom is exacted conform to printed table now transmitted.

Largo.

LARGO.

Sir,

Largo, 29 April 1846.

THE several dues and charges of every kind levied as port harbour dues on shipping and on goods imported and landed at the harbour of Largo are as contained in the printed list or schedule hereto prefixed. The average amount so levied for the years 1844 and 1845 on shipping and on goods landed at this harbour, is 37 *l.* sterling per annum. The accounts have not been kept so as to distinguish the amount levied on shipping from that levied on goods, and therefore I am not enabled to state the respective amounts levied on each; but the above is the entire amount of port and harbour dues of every kind levied on shipping and goods at the harbour of Largo.

H. Manners Sutton, Esq.
of the Secretary of State's Office for
the Home Department, London.

REGULATIONS to be observed by PILOTS, and by all SHIPMASTERS coming into the Harbour of *Leith*.

AT Edinburgh, the 20th day of August 1788, which day the honourable the magistrates and council of the city of Edinburgh being assembled, it was reported from the committee on the shore dues, that, in terms of the remit to them from the council, they had prepared regulations to be observed by the pilots, and by all shipmasters coming into the Harbour of Leith, which contains tables of pilotage and berthage:—which having been considered by the magistrates and council, the foresaid regulations and tables were approved of, appointed to be observed, and the whole to be printed. And which regulations and tables are of the following tenor.

1. The fees of pilots and pilotage, agreeably to the annexed table, shall be paid by all shipmasters and others, to the collector of the shore-dues, and to no other person, for the use of licensed pilots, according to such rules as the Lord Provost, magistrates, and council of Edinburgh, from time to time may establish.

2. No person shall be entitled to pilot, or take the charge of any ship or vessel as a pilot, or keep a boat for that purpose, until he obtain a licence to act as a pilot from the Lord Provost, magistrates, and council of Edinburgh; and every person acting without such a licence will be prosecuted with rigour; and the owner of every boat so employed will be fined in 5*l.* sterling, agreeable to act of council of date the 13th day of September 1766.

3. Each boat used as a pilot-boat, shall have the name of the licensed pilot to whom it belongs painted thereon, with a number, as directed by the master-pilot; and all pilot-boats belonging to one licensed pilot shall have the same number painted on each.

4. Pilots are always to be in readiness, with a boat well manned, to take charge of a vessel coming into the harbour when a proper signal is made, or of a vessel going out of the harbour, when desired; every pilot to be sober and nowise intoxicated with liquor when

LEITH.

on duty, or called for or ordered out by the master-pilot, whose directions he must obey; and for every offence or neglect he shall be fined 20 s. sterling, besides forfeiting his licence, if the offence shall merit so great a punishment.

5. No joint-stock company to be allowed, but each boat and pilot employed to share by themselves; and it is earnestly recommended that each pilot frequently inspect the bar and entrance to the harbour at low water, especially after spring tides, storms, or land-floods, and report from time to time their observations to the shore-master or his deputy.

6. When fault is found with the master-pilot, or any of the other pilots, complaints against them may be left in writing with the collector, directed to the committee on the shore-dues, who will make inquiry, and, if necessary, report to the magistrates and council.

7. The master of every ship coming into the harbour shall sign and deliver to the pilot who brought him in, a certificate, directed to the collector of shore-dues, of the number of feet of water which his ship (naming her) draws; the number of feet to be in writing, not in figures, in order to fix the charge for pilotage.

8. No vessel under 40 tons of carpenter's measure shall be obliged to pay pilotage, unless she employs a pilot.

9. The masters or commanders of ships or vessels belonging to the port of Leith, shall not be liable in any fees for pilots or pilotage, except when they make a signal for a pilot, or employ one to navigate their ships or vessels.

10. The master-pilot shall always be in readiness to give directions to pilots, and order them to take the charge of any ship when wanted; he shall, from time to time, inspect the sufficiency of the boats and crews, and take particular care that the pilots do their duty, and observe these and such other regulations as may be made relative to them; and he shall also cause printed copies of the foregoing regulations to be distributed and hung up in the custom-house and shore-dues office, together with correct lists of the pilots, and their places of residence.

REGULATIONS

REGULATIONS for Shipmasters in the Harbour of *Leith*.

LEITH.

1. That the master or pilot shall apply to the shoremaster or his deputy for a berth, which must not be shifted but by his direction, must have their anchors properly stowed, and yards topped, and carry their own moorings to the proper rings or mooring-places. Masters of vessels lying next the quay to fend off from it; and, when lying in tiers, to fend off from one another; and must have proper men or boys on board in time of tide, to slacken ropes when necessary, or desired by the shoremaster or his deputy.

2. No open lights or fires shall be carried to, or kept on board any ship or vessel, nor hot irons for melting pitch, tar, &c.; and any person heating pitch, tar, turpentine, or any combustible, on any of the quays or piers, must extinguish the fire immediately after the business is done, and must have a bucket of water standing by them for that purpose.

3. No vessel to lie unemployed at the quay when another wants to load or discharge. Light vessels, and vessels taking in goods, must give way to vessels loading or wanting to discharge; and upon the shoremaster, his deputy or assistants, ordering any vessel to be carried a-head or a-stern, or removed from one berth to another, in order to make room for other vessels, or to keep the passages clear, if not complied with immediately or during the then tide, they may cut the ropes and remove them, at the owner's risk and expense; and no person shall obstruct them in that part of their duty, or use abusive language or insult them when in the exercise of their office.

4. When taking in or putting out ballast, portsails or tarpaulins must be used to prevent any part from falling into the harbour: that no filth or rubbish whatever shall be thrown into the harbour; and any person who shall have occasion to throw any ballast or rubbish out of any vessel on the quay, is to cart it away immediately.

5. All vessels having gunpowder on board must unload it immediately upon their arrival in the harbour. Pitch, tar, rosin, hemp, flax, faggots, furze, brandy, spirituous liquors, turpentine, oil, hay, straw, tallow, grease, shavings of wood, or any such combustible things, must not remain upon the deck of any vessel in the harbour, or upon the quays, above 24 hours, and must be watched and guarded at night, as the shoremaster shall appoint.

6. When loading or unloading, must not lumber the quay, by letting the goods remain above 48 hours, and are not to put them upon the moorings.

7. That the owner or master of every ship or vessel shall be answerable for the full amount or damage which shall be done by him, or such ship or vessel, or by any of the servants, sailors, &c. on board the same, to the draw-bridge and other works made or to be made within the harbour, with full costs of suit.

8. That they shall pay to the collector of the shore-dues, at his office, the fees payable for beaconage and anchorage, for the use of the community, as well as the fees due for berthage and flag, to the shoremaster and keeper of the flag-house, conform to the table.

All and every person neglecting to observe any of the foregoing regulations, shall be liable in a penalty not exceeding 5*l.* sterling for each offence.

REGULATIONS with regard to Beaconage and Anchorage, and Shore-dues, to be observed by all Shipmasters, Merchants and others, importing or exporting Goods.

1. All vessels, whether ships, barks, or boats (except drag-boats, haddock-boats, yauls, ferry-boats, and pinnaces), shall pay every time they come into the harbour, 1½*d.* sterling of harbour dues, for each ton of their burden. To ascertain the tonnage, the masters of ships are to produce to the collector the contract or agreement with the builder of the ship; and this being so ascertained, one-fifth part is to be deducted, and the remainder is to be the rule by which the said harbour-dues are to be charged and paid. But if the shipmasters shall not produce the real contract or agreement with the shipbuilders, such shipmasters shall be obliged to haul the vessels to such parts as shall be agreed upon, where the town's measurers can get the length of the keel, &c. for ascertaining the measure; and such shipmasters are to pay ½*d.* sterling per ton, for the expense of measurement. If any shipmaster shall refuse to haul his vessel to the place agreed upon, then the town's measurers are to measure such vessel where she lies, and ascertain the tonnage in the best manner they can, with which the shipmaster is to be satisfied, and pay the expense of measurement.

2. All shipmasters shall be obliged to take their ballast from the ballast-boats, if the shoremaster can furnish them with the same, for which they are to pay to the collector 9*d.* sterling per ton. But if they cannot be so furnished, upon the shipmaster's informing the collector, and making instant payment to him of the real number of carts he is to take in as ballast, to be inserted in a ticket or warrant to be granted by the collector for shipping the same, he is only to pay 1½*d.* sterling per cart; but if he gives a false account, or does not make instant payment, he is to pay 3*d.* sterling per cart.

LEITH.

3. Every shipmaster, immediately upon his arrival, or before he begins to unload any part of his cargo, must deliver to the collector of the shore-dues, at his office, an account of his cargo, and produce his bills of loading, and copy of his manifest; likewise every shipmaster taking in goods, upon his being load or cleared at the Custom-house, must give an account of his cargo at said office; such shipmasters failing so to do, or are found not giving a just and true account, will be fined in 3 *l.* 6 *s.* 8 *d.* sterling.

4. Shipmasters bringing general cargoes shall unload no part thereof, except in the presence of a bulker appointed by the magistrates and council of Edinburgh; and no porter, carter, or others, shall carry off any goods from such ships until they are entered in the bulkers' books, and liberty given by him for carrying them away, under the penalty of 16 *s.* 8 *d.* sterling, and deprivation of office.

5. The harbour-dues upon vessels coming into the harbour light or in ballast, must be paid immediately, and all others when they begin to unload, or before they sail: Also, vessels having goods on board that have not paid dues at shipping, or proper security given for them, may be detained from sailing by the collector, who has instructions for that purpose, till he is satisfied of the dues upon the ship and cargo.

6. Every shipmaster, importer or exporter of goods, before he begin to load or unload, shall call at the shore-dues office, and pay the dues upon said goods immediately, or grant security, by consignment, for the same, before a ticket or warrant, signed by the collector, can be given; except goods unloaded out of general ships, which are to be paid for to the bulker at delivery. If they shall fail so to do, the collector is authorized and directed to cause carry their goods to Leith weigh-house, to remain there till he is satisfied, which goods will be liable to lyage dues there.

7. That the shore-dues and merk per ton, of all kinds of goods, whether by bulk, weight, or measure, shall be ascertained by showing the city's collector the bills of loading and freight-accompt upon which the shipmaster is paid.

8. It is also expected that no burgess, factor, or others, paying scot and lot with the good town, will cover unfreemen's goods, contrary to their burgess oath; otherwise they will subject themselves to heavy penalties, and be prosecuted for the same.

9. The magistrates and town council, agreeable to the regulations respecting the rowers, porters, carters, metsters, and others, do hereby strictly prohibit and discharge them to assist in loading or unloading any vessel, until the collector allow of it, by a ticket signed by him, under the penalty of 16 *s.* 8 *d.* sterling, besides deprivation.

10. The collector is to keep an office adjacent to some part of the quay, wherein he is to give regular attendance at all times and hours in which the officers of the customs do attend and do duty at the Custom-house.

BYE-LAWS and REGULATIONS enacted by the Commissioners for the Superintendence and Management of the Harbour and Docks of *Leith*.

I.—BYE-LAWS and REGULATIONS for the Harbour of *Leith*.—30 July 1839.

1. The master or pilot shall apply to the superintendent, harbour-master, or his deputy, for a berth, which must not be shifted but by his direction. Vessels must have their anchors properly stowed, and yards topped, and sloops to have their bowsprits launched in, or topped up, and carry their own moorings to the proper rings or mooring-place. Masters of vessels lying next the quay, to fend off from it, and when lying in tiers, to fend off from one another; and must have proper men or boys on board, in time of tide, to slacken ropes when necessary, or desired by the superintendent, harbour-master, or his deputy, under a penalty of 20 *s.*

2. No open lights or fires shall be carried to, or kept on board, any ship or vessel, nor hot irons for melting pitch, tar, &c., under a penalty of 40 *s.*

3. No vessel to lie unemployed at the quay, when another wants to load or discharge; and light vessels, and vessels taking in goods, must give way to vessels unloading or wanting to discharge. Upon the superintendent, harbour-master, or assistant ordering any vessel to haul a-head or a-stern, or be removed from one berth to another, in order to make room for another vessel, or to keep the passages clear, if his orders be not immediately complied with, he may remove the vessel at the owners' risk and expense, besides subjecting the master, or persons in charge, in a penalty of 3 *l.*: And in cases where vessels may be required to shift their berths, and the master or other sufficient persons for the purpose not on board, the like course shall be pursued in regard to the removal of such vessels, and the owner or master shall be subject to the like penalty.

4. When taking in or putting out ballast, coals, manure, &c., canvass or tarpaulins, not less than six feet wide, must be used, to prevent any part from falling into the harbour. No filth or rubbish whatever shall be thrown into the harbour, under a penalty of 30 *s.*; and any person, who shall have occasion to throw any ballast or rubbish out of any vessel on the quay, is to cart it away immediately, under the like penalty; besides the expense, should the superintendent see occasion to remove the same.

5. All

LEITH.
—

5. All vessels having gunpowder on board, must inform the superintendent or harbour-master of the quantity, and unload it immediately upon their arrival in the harbour, at such place as he may point out; and all ships or vessels coming from sea shall, before they enter the harbour, take special care to unload and clear their guns. Pitch, tar, rosin, hemp, flax, faggots, furze, brandy, spirituous liquors, turpentine, oil, hay, straw, tallow, grease, shavings of wood, or any such combustible things, must not remain upon the deck of any vessel in the harbour, or upon the quays, above 12 hours after the custom and excise officers shall have done with them, without special leave from the superintendent, under such regulations as he may appoint; under a penalty, in each case, of 5 *l*.

6. Vessels, when loading or unloading, must not lumber the quay by letting the goods remain above 24 hours after being marked by the Custom-house officers, and are not to put them upon the moorings, under a penalty of 20 *s*. Space is also to be left for two carts to pass clear of the footpath, under a like penalty.

7. The owner or master of every ship or vessel shall be answerable for the full amount or damage which shall be done by him, or such ship or vessel, or by any of the servants, sailors, &c. on board the same, to the drawbridge and other works made or to be made within the harbour, with full costs of suit.

8. Every shipmaster, immediately upon his arrival, or before he begins to unload any part of his cargo, must deliver to the collector of the shore-dues, at his office, an account of his cargo, and produce his bills of loading, and copy of his manifest; likewise, every shipmaster taking in goods, upon his being load, must give an account of his cargo at said office, and must produce, at the custom-house, an acquittance from the collector of shore-dues, in terms of the Act of Parliament, which authorizes the officers of the customs to refuse to give or make out any cocket or other discharge, or to take any report, outwards or inwards, for any vessel, until the rates or duties shall have been paid. Such shipmasters as shall be found attempting to contravene any part of this regulation, or not giving a just and true account to the shore-dues office, shall forfeit 5 *l*.

9. All vessels, or impediments of whatever description, shall be removed, upon application, previous to the launching or docking of vessels within the harbour. The superintendent or harbour-master to see that this regulation be carried into effect, in case his interference should be necessary; the parties to be subjected to a penalty of 40 *s*. for any unnecessary delay in complying with the same.

10. No person belonging to the establishment shall receive any gratuity, fee, or reward from any person whatever, on account of any duty or matter entrusted to his charge, upon pain of instant dismissal.

11. No person shall obstruct the superintendent, harbour-master, or his assistant, in any part of their duty, or use abusive language or insult them in the exercise of their respective offices, under a penalty proportionable to the nature and extent of the offence, not exceeding 5 *l*.

Lastly. All and every person neglecting to observe any of the foregoing regulations, shall be liable in a penalty, as above pointed out, over and above whatever damage shall be done, with costs of suit.

The Commissioners direct the preceding regulations to be strictly enforced.

By order of the Commissioners,
John Phin, Clerk.

II.—ADDITIONAL BYE-LAWS and REGULATIONS for the Harbour of *Leith*, relative to Steam-vessels.—25 January 1842.

The Commissioners for the harbour and docks of *Leith* hereby enact the following bye-laws and regulations, and direct them to be strictly enforced:—

1. The commander of every steam-vessel either entering or leaving the port, shall have a proper person to look out and guide the vessel; and, if not engaged in towing, shall proceed at a rate not exceeding half speed, until clear of the harbour, under a penalty of 5 *l*.

2. A steamer of light draught of water, shall give way to one of heavy draught, or having a vessel in tow; and when approaching each other, both must slow their speed until the persons in charge shall have indicated the side on which they are to pass, under a penalty of 5 *l*.

3. All steamers when towing vessels into the harbour, are to slow their speed after passing the inner lighthouse, and the persons in charge shall attend to the orders of the harbour-master on this point, under a penalty of 5 *l*.

4. All steam-vessels in passing the dredging-vessel when at work, shall slow their speed one-half, under a penalty of 5 *l*.

By order of the Commissioners,
John Phin, Clerk.

LEITH.

III. REGULATIONS for the Harbour Bridges.—9 March 1827.

1. The lower drawbridge is at no time either to be opened or closed but in the presence of the harbour or dock-master, or one of his deputies, who is to remain at the bridge the whole time it is open, to give the necessary directions to such vessels as may be passing through it. Not more than three vessels shall be allowed to pass the bridge at one time, and they shall be close at hand ready to enter.

2. Passengers coming from the eastward will take the north foot-way, and those from the westward the south, so as always to have the parapet on their right.

3. No drivers with carts or carriages are to pass one another on the bridge, nor on any account to allow either of their wheels to go on the footway on either side, nor to ride on their carts; and those from the westward are at all times to give way to those from the east; under a penalty in each case of 10 s.

4. All persons are strictly prohibited from going on the bridge while it is opening or closing; to prevent which, a chain will be drawn across at each end, and a bell rung, before the bridge is raised, and within which chain no person is to be allowed to go, under a penalty of 5 s.

5. No ropes are to be made fast to the fenders or rings which are placed at the bridge, except for the purpose of hauling up ships that are passing.

6. All vessels entering the harbour, as soon as they come within the point of the present east pier, and if the wind be strong and leading, must have a stern hauser in readiness. In hauling up to pass the bridge they must have a bow and stern-fast out, and in stormy weather must run in to the Sand Port before passing, where room is at all times to be kept by the superintendent for the purpose.

7. When the lower drawbridge is open, the upper bridge is always to be kept down, and *vice versa*.

8. No person belonging to the establishment shall receive any gratuity, fee, or reward from any person whatever, on account of any duty or matter intrusted to his charge, upon pain of instant dismissal.

9. The superintendent, harbour-master, or his deputies, shall report the names of such persons as contravene these regulations, and they shall detain all vessels committing any trespass, or occasioning damage, until caution is found to make the same good.

By order of the Commissioners,

John Phin, Clerk.

IV. BYE-LAWS and REGULATIONS for the Wet Docks of *Leith*.—26 April 1842.

1. No vessel is to be allowed to enter or depart from the docks but in presence of the superintendent, dock-master, or his deputies, who will point out to ships entering, the berth they are to occupy, and from which they are not to be moved without permission, under a penalty of 20 s. Vessels drawing not more than six feet water are to be prepared to get out by means of the lock, so soon as the tide will suit.

2. All vessels, on approaching the entrance lock, must lower their sails; and no vessel of any description is to be allowed to carry sail in the docks; nor are any open boats (unless attending vessels) to be permitted to enter the docks, except such as belong to vessels lying there, and these must be stowed on board; and no boats are to be used idly in the docks by boys or other persons; under a penalty, in each case, of 20 s.

3. Square-rigged vessels, on entering the docks, must have their sprit-sail-yards got in fore and aft, their jib-booms launched in, and their lower yards topped; and sloops must have their bow-sprits launched in or topped up, unless fixed; under a penalty of 20 s.

4. All vessels entering the docks must have their anchors stowed; must carry their own moorings to the rings placed on the quays; and in discharging, care must be taken not to place goods on any of these moorings; and no ropes are to be made fast to the lock or graving dock, gates, or fenders, or to anything but the mooring rings; under a penalty of 20 s.

5. All light vessels, or vessels wholly loaded, and also vessels partially loaded, and waiting for the remainder of their cargoes, must give way at all times to vessels ready to load or unload; and no vessel for sale, or laid up, is to be allowed to lie near the quay, if any other vessel shall want a berth.

6. Vessels lying next the quays must fend off; and, when lying in tiers, they must fend off from each other (the off-side vessel fending off from the inside). For this purpose they must provide themselves in fenders, and must, at all times during the working hours, have proper persons on board to slacken or tighten ropes, when ordered to do so by the superintendent, dock-master, or deputies; under a penalty of 20 s.

7. No scraping the sides of vessels, nor repairs of any description, to be permitted while lying in the docks, without permission in writing from the superintendent, who will take care that proper precaution be used;—caulking decks, or carpenter work within board, and painting, excepted, the materials for which must be prepared before they are brought to the docks, as no fires, nor boiling of oil or paint, will be permitted on the quays of the docks;

docks; nor will pitch or paint be allowed to be melted with hot iron; under a penalty of 30 s. for each offence. When the decks of vessels are swept, the dirt and refuse shall be collected and carried on shore by the owners, and laid down in the wooden cribs placed in various situations in the docks for that purpose; under a penalty of 20 s.

8. No vessel is to be allowed to take in or discharge coals, on any pretence whatever, while lying in the docks, except for exportation, or for the ship's use, which may be permitted on previous application to the superintendent, and under the special superintendence of such person as may be appointed by him, for whose time the vessel will be chargeable; and the same regulation shall be observed in regard to ballast of any description, required to be taken in at any other place than the wharf opposite the ballast yard; under a penalty, in each case, of 20 s.

9. Vessels loading or discharging stones, bricks, tiles, or slates, shall have a sufficient canvass, at least six feet broad, nailed to the ship, and fastened to the quay; and the same rule must be observed between two vessels, if the vessel discharging is not lying next the quay; and no part of such goods, when landed, or laid down to be shipped, shall be laid nearer the edge of the quay than 10 feet, nor be allowed to lie all night; but they must be carried off as soon as landed, or put on board any other vessel as fast as they arrive on the quay; under a penalty of 40 s.

10. Timber is not to be allowed to remain on the quays longer than one night after being marked off by the officers of the customs; and if in logs of greater length than 20 feet, they must be laid parallel to the quay and ship discharging. Rafting permitted in the second dock only; but all rafts to be removed from the docks within 48 hours after such marking by the custom-house officers, at the risk of the owner, weather permitting. No goods whatever are to remain on the quays more than one night after the above marking; and if not removed by the owners after so lying one night, the superintendent shall be at liberty to order them to be carried away and warehoused, at the risk and expense of such owners; under a penalty of 40 s. in each of these cases.

11. Straw or other materials from which goods are unpacked, must be instantly swept up, and removed to such places as shall be pointed out; and no goods are to be unpacked on the quays without the special leave in writing of the superintendent, except for the purpose of proving by the custom-house officers; under a penalty of 30 s.

12. No gunpowder, or other combustible material, shall be laid down on the quays, or loaded or unloaded at any part of the dock; and all ships or vessels coming from sea, having on board any quantity of gunpowder, shall, before they enter the harbour, land the same, and take special care to unload and clear their guns; under the penalty of 5 l. sterling for each offence.

13. No tar is to be landed on the north, east, or south quays of the dock; a berth will be set apart for this purpose; and the barrels must be laid not above four tiers in breadth, and confined to the space between the outer end of the cope stones and the mooring rings, and the whole carried away on the same day they are landed, except with the special permission in writing of the superintendent; in failure of which, a penalty of 5 l. will be incurred and exacted, together with the expenses of any precaution that the superintendent may feel called upon to adopt to prevent accident.

14. Cooking on board is allowed; but lights or fires shall not be allowed before seven o'clock in the morning between 30th September and 30th March, or before six o'clock in the morning between 30th March and 30th September, and they must be extinguished at four o'clock in the afternoon throughout the whole year, at which hour a bell will be rung for the purpose; under a penalty of 3 l.

15. Lights or fires shall not be allowed on board any ship or vessel having tar, pitch, rosin, hemp, flux, faggots, furze, brandy, or other spirituous liquors, turpentine, oil, hay, straw, tallow, grease, shavings of wood, or other combustible matter whatever of any kind on board, during any part of the time which such ship or other vessel shall be actually delivering or taking in her cargo; but lights in lanterns may be kept until eight o'clock in the evening, by obtaining permission in writing of the superintendent; and no lights whatever shall be allowed on board of vessels after that hour; under a penalty of 5 l. for each offence.

16. Vessels or rafts of timber occasioning damage to any of the dock gates, bridges, or anything else connected with the docks, are to be answerable for the same, and are to be detained until sufficient security is found for payment of such damage and costs of suit.

17. If the orders of the superintendent, dock-master, or his deputies, with regard to the removing of vessels, or anything else in which they shall judge it necessary to interfere, are not instantly complied with, such person refusing compliance shall be subject to a penalty of 20 s.; and the superintendent, dock-master, or his deputies, shall remove the vessels, or employ proper persons to carry their orders into execution, at the risk and expense of the owners of vessels refusing to comply.

18. The owner or master of every vessel shall make payment to the collector, at his office, of the dock duties payable for such vessel, and shall produce a receipt for the same to the dock-master or his deputies, before being allowed to leave the docks, which will also be required at the custom-house, in terms of the Act 7 Geo. 4, c. 105, s. 47, which authorizes the officers of the customs to refuse to give or make out any coquet or other

LEITH.

discharge, or to take any report outwards or inwards for any vessel, until the rates or duties shall have been paid.

19. No key shall be in the possession of any person whatever, for the purpose of a private entrance into the docks after the established working hours, except the superintendent, who is required to have, and to confine to his own possession, at all times, a duplicate or master key to the several gates of the docks; and all private entrances to the docks shall be closed after working hours; under a penalty of 2*l*. The attention of the superintendent is particularly directed to this regulation.

20. All persons are strictly prohibited from throwing stones or rubbish, or anything whatever, into the docks, under a penalty of 3*l*.

21. If, on any emergency (of which the superintendent will inform himself), carters or other persons require access to the docks after closing the gates, which will be at six o'clock in the summer, and as long as it may be day-light in the winter season, permission is to be had from the manager, who will order one of the gates at the east end of the docks only to be opened for that purpose; and, in such cases, the watchman at the east wicket will be ordered to close it and take his station at the said gate so long as the permission may extend, and no longer, when he will secure the gate, and resume his station at the wicket.

22. The duty of the night watchmen, who are constables, will be to watch attentively all persons entering and quitting the docks, in order to prevent any thing, however small, the property of the establishment, or of the merchants, from being embezzled; and to give the alarm, by ringing the bell, or otherwise, on the first appearance of fire in any part of the docks or shipping. The attention of the day watchmen, who are also constables, will be directed to the same objects; and to keep out of the docks all improper persons, will be a special part of their duty; also to check and prevent, as much as possible, the disgraceful practice hitherto observable in cases of vessels unloading spirits, sugars, and other merchandize, of porters, children, and others, making the property an object of attack, to the injury, not only of the owners, but the revenue of the crown. Offenders to be immediately apprehended, and dealt with according to law. It will also be a part of the day watchmen's duty to prevent any nuisance from being committed in any part of the docks.

23. The masters of all vessels, before landing any goods that are to remain for a night on the quays, are to give the names of the owners or assignees of such goods to the day watchmen, if applied for, who are to keep a book for entering the same, in order that the superintendent or his deputies may know to whom to apply for their removal, if required; under a penalty of 20*s*.

24. Joiners and carpenters' benches shall not be allowed on the dock wharfs, under a penalty of 20*s*., unless on permission in writing from the superintendent.

25. Carters shall be required to keep in the cartways of the several bridges of the docks and harbour, and shall not be allowed to ride in their carts, under a penalty of 10*s*.

26. Floating stages, or other conveniences, shall not be taken by any person, without the sanction in writing of the superintendent.

27. All persons going out of the dock gates shall be liable to be examined by the day watchmen, or others, as to any articles they may have in their possession, and dealt with accordingly; and persons clandestinely throwing overboard any materials for the greater convenience of the same being carried away, shall be liable in a penalty of 5*l*.

28. The clause in the Act of 38 Geo. 3, c. 19, s. 7, will be strictly enforced, which enacts that no ship or vessel (whale ships excepted) shall be permitted to be or remain in the basin or wet dock to encumber the same above six months.

29. No person belonging to the establishment shall receive any gratuity, fee, or reward from any person whatever, on account of any duty or matter entrusted to his charge, upon pain of instant dismissal.

30. The superintendent, dock-master, his deputies, and the constables or watchmen, specially appointed or to be appointed, are strictly ordered and enjoined to see these regulations carried into effect, and prohibited from dispensing with the observance of any one of them.

31. No person shall obstruct the superintendent, dock-master, or his deputies, the watchmen, or any person belonging to the docks, in any part of their duty, or use abusive language or insult them in the exercise of their respective offices, under a penalty proportioned to the nature and extent of the offence, not exceeding 5*l*.

32. A bell shall be rung every night a quarter before 10 o'clock, and again at 10 o'clock, at which latter hour the gates are to be shut, and shall not be again opened that night, without an order from the superintendent or his deputies.

Lastly. The penalty for neglecting or refusing to comply with the foregoing regulations, or any of them, shall be as above pointed out for each offence; and that over and above whatever damage shall be occasioned to the works, with costs of suit.

And the Commissioners declare and appoint the above regulations to take effect and be in force from and after the 1st day of April 1827.

By order of the Commissioners,
John Phin, Clerk.

REGULATIONS for PUBLIC DRY DOCK.—9 March 1827.

1. No ship but what is arrived in the roads, harbour, or wet docks, shall be entered in the dock books.

2. Every ship or vessel, intending for the dock, shall be entered with the superintendent in a book kept for that purpose, and pay 21 s. sterling of entrance, and from that time shall have preference according to the time of entry, provided such ship be ready for her turn, otherwise she shall forfeit the said entrance-money, and be only admitted again in course from the second time of entry, paying the like entrance again; but such ship or ships as go duly into the dock according to the course of entry, the 21 s. paid for entrance to be allowed as part payment, provided the dockage account be paid within 10 days after the ship goes out of dock; if not so paid, the 21 s. to be forfeited.

3. If any ship stays above 14 days, she is to allow the gates to be opened for any other vessel to come in, or pay double dockage from the time such vessel is prevented going in, to the time she continues to keep the dock gates shut up.

4. The dock shall provide and keep lower blocks sufficient to make up a height of at least three feet, constantly in repair, except such as are cut away or destroyed by any ship; in which case the same shall be paid for, or others placed in their room, by the owners of such vessel.

5. All shores for propping up the ships to be provided by the dock, but any cut or lost shall be made good by the owners of the vessel that committed such loss or waste. No fires shall be allowed on the sole of the dock.

6. The superintendent is to provide men for opening and shutting the gates, and is to keep the same in good order; but every vessel coming into the dock is to make good all shores, braces, or other securities about the gate, cut, lost, or destroyed by them.

7. In regard the owners of ships are to be at no expense of opening, shutting, or caulking the gates, every vessel which shall enter the dock aforesaid, shall, over and above the rates contained in the preceding table, be obliged to pay, if under 100 tons, 7 s. 6 d., and if above 100 tons, 10 s. 6 d. sterling, for every time they shall go within the said dock.

8. Every ship going in to repair, and to stay a considerable time, shall wait any vessel that is in the dock to grave, or do any small repair, until such ship can conveniently go out, and then go to the head of the dock.

9. If two ships are wanting to repair at the same time, the superintendent shall have power to place which of the said vessels he judges shall require the longest time at the head of the dock.

10. No changing of turns to be allowed, unless it meets the approval of the owners of all the vessels entered for the dock at the time; which approval must be given to the superintendent in writing, signed by all the parties concerned. Outward-bound vessels meeting with damage by accident, are to have immediate relief, by getting a turn of the dock as soon as they can be got ready, in preference to all vessels that may be entered at the time.

11. When two vessels are entered, and come together in turn, of larger dimensions than the dock is calculated to take in both at a time, the superintendent is to order in, along with the first entered large vessel, any short vessel that may be on the book, according to her turn of entry.

12. All British ships and vessels shall pay the rates above-mentioned, according to their tonnage by register, the masters being obliged to show the same for that purpose to the superintendent. All other ships or vessels to pay according to their real tonnage, which is to be ascertained in the same manner as directed by law for registering British vessels.

13. The rubbish or dirt which is occasioned by the docking of any vessel shall be collected to one side of the dock, and removed, at the expense of the owners or master of such vessel, outside of the wet docks; and if it is not done when required by the superintendent, he is empowered to order it to be done himself, and charge the expenses to the ship or vessel, along with the dock dues.

14. If any single ship is in the dock, she is at all times to allow the gates to be opened for any other vessel to come in, provided she is not in such a situation as to fill with water, or otherwise to be prejudiced, of which the superintendent is to be the judge; and if the gates cannot be opened for the reasons aforementioned, the ship in shall pay double dockage, from the time the other vessel is prevented from going in, to the time that the ship in continues to keep the dock gates shut.

15. The master of any ship or vessel coming into the dock shall, if it appears necessary to the superintendent, in order that the vessel may draw less water, be at liberty to hang one or more anchors to the bowsprit; but the superintendent is on no pretence whatever to allow any vessel to come into the dock with any of her anchors hanging over her bows.

16. Any ship or vessel going into dock by herself shall, if she has water, be obliged to go to the head of the dock, or as near it as possible, in order that if, before she is repaired, another ship or vessel should want to get into dock, the second may have room below the first, next to the gates.

17. When any ship or vessel is ready to go out of dock, and is prevented from want of water, or by the vessel that may happen to be at same time in dock next to the gates, the master is to give intimation thereof to the superintendent, who is to be the judge in such cases; and if it appears to him that the master's intimation is founded on facts, the ship or

vesse

vessel so prevented from going out is not to be charged with dock dues after the time it is so made appear she is ready to leave the dock.

18. The superintendent shall have power to regulate and conduct all matters for the well-governing of the said dock; and upon his report the collector of the shore dues shall receive the rates and dues for dockage above-mentioned, and such satisfaction for all damages done to the dock, and materials lost or damaged, as shall be judged reasonable by the superintendent. The opening and shutting the gates of the dock is to be exclusively done by the people of the establishment, under the direction of the superintendent or dock-master in person, together with the sluices, including the iron grating at the head of the dock, and steam engine; the shipbuilders occupying or using the dock, or any other person whatever, being prohibited from doing anything in these respects, under a penalty of 2*l.*

19. No person belonging to the establishment shall receive any gratuity, fee, or reward, from any person whatever, on account of any duty or matter entrusted to his charge, upon pain of instant dismissal.

20. And these orders are to be printed, and a copy to be delivered to each master or owner of any ship at the time of entry for the said dock.

By order of the Commissioners,
John Phin, Clerk.

VI.—ADDITIONAL BYE-LAW and REGULATION for the DOCKS of *Leith*.—
28 December 1841.

The Commissioners for the harbour and docks of *Leith*, taking into consideration the accidents which have occurred, hereby enact the following bye-law and regulation, and direct it to be strictly enforced:

The hatches of all vaults around the docks shall be shut between the hours of 4 p.m. and 8 a.m. during the months of November, December, January, and February, and shall be shut between the hours of 6 p.m. and 6 a.m. during all the other months of the year, under a penalty of 2*l.* for each offence.

By order of the Commissioners,
John Phin, Clerk.

VII.—ADDITIONAL BYE-LAW for the HARBOUR and DOCKS of *Leith*.—
28 January 1840.

The Commissioners having taken into consideration the crowded state of the quays of the docks and harbour, arising chiefly from timber, casks, and other packages being allowed to remain for an improper length of time, hereby appoint the following bye-law and regulation to be strictly enforced, viz.:

No timber, casks, boxes, or other packages, shall be allowed to remain on the quays of the harbour or docks above 24 hours, and on no account to be laid down so as to obstruct the use of the quay or thoroughfare; and the superintendent, harbour-master, or dock-master shall remove, at the owners' risk, all such incumbrances into a yard to be appointed for that purpose, the owners being entitled to get possession of them only on payment of the expense of removal and yard-rent.

By order of the Commissioners,
John Phin, Clerk.

VIII.—ADDITIONAL BYE-LAWS and REGULATIONS regarding the Shipment of GUNPOWDER.—23 February 1841.

1. The owner, manager, or master of every vessel, intending to ship gunpowder, shall send notice in writing (indorsed "Shipment of Gunpowder") to the superintendent's office, at least 24 hours previous to the time of shipment, under a penalty of 5*l.*

2. No gunpowder shall be brought into the town of *Leith*, unless the carts be properly secured with woollen coverings, under a penalty of 5*l.* for each cart.

3. All carts with gunpowder shall enter by Assembly-street, and come west along Tower-street, and cross the railway near the Tower, keeping on the east side of the shed on the new quay; cross the timber basin bridge, and stand in a line close to the north parapet wall of the timber basin; and only one cart at a time shall be allowed to come forward to the quay to unload; under a penalty of 5*l.* for each act of contravention.

4. The owner, manager, or master of every vessel loading gunpowder, shall have the vessel moored at the place appointed, viz. that part of the quay north of the timber basin entrance; and the whole powder shall be on board, the hatches secured and covered with tarpaulins, and the vessel shall proceed to sea, two hours before high water; under a penalty of 5*l.* for each act of contravention. In case of delay, or of the wind being unfavourable for sailing out, the superintendent or his deputies have authority to order the steam tug to tow the loaded vessel out at the owner's expense.

5. Should any unavoidable delay take place in the vessel's sailing, the superintendent or his deputies have authority to place police or watchmen on board, at the expense of the owner,

LEITH.

owner, manager, or master; and the vessel shall be removed and berthed at some safe place, according to the state or direction of the wind, so as to prevent accidents from fire. Every owner, manager, or master, refusing to comply with this regulation, shall be liable in a penalty of 5 *l*.

6. Every vessel loading gunpowder shall have two police or watchmen placed, one on the timber basin bridge, and one at the steps leading up to the old pier, at the owner's expense, to prevent smoking, and to order fires to be put out, &c., under a penalty of 5 *l*.

7. No empty casks or goods of any description shall be allowed to be shipped in the harbour after the gunpowder is on board, under a penalty of 5 *l*.

8. No owner, manager, or master of any vessel shall be allowed to ship gunpowder in open boats, to be again shipped in the harbour; but when boats are required to carry it to the roads, an order in writing must be obtained from the superintendent; and in no circumstances shall gunpowder be shipped during the night, or when it is necessary to use a light; under a penalty of 5 *l*. for each act of contravention.

9. All persons are prohibited from using fire-arms on the quays or piers, or within any part of the harbour or docks, or on the east sands west of Constitution-street, under a penalty of 5 *l*.

The Commissioners direct the preceding regulations to be strictly enforced.

By order of the Commissioners,
John Phin, Clerk.

IX.—ADDITIONAL BYE-LAW and REGULATION for the HARBOUR and DOCKS of *Leith*.—
25 January 1842.

The Commissioners for the harbour and docks of *Leith*, hereby enact the following bye-law and regulation, and direct it to be strictly enforced :

No person shall take stones or gravel from any part of the beach between Seafeld toll-bar on the eastward of *Leith*, and Wardie Brae to the westward of Newhaven; and no sand shall be taken from the east sands of *Leith*, within 80 feet of the railway, or of any of the harbour works; under a penalty in each case of 1 *l*.

By order of the Commissioners,
John Phin, Clerk.

REGULATIONS.

REGULATIONS.

LEITH.

1. The fees of pilots and pilotage, agreeably to the prefixed Table, shall be paid by all shipmasters and others, to the collector of the shore dues, and to no other person, for the use of the licensed pilots.

2. No person shall be entitled to pilot or take the charge of any ship or vessel as a pilot, or keep a boat for that purpose, until he obtain a licence to act as a pilot from the Commissioners for the superintendence and management of the harbour and docks of Leith; and every person acting without such a licence shall be prosecuted with rigour, and the owner of every boat so employed will be fined in 5 *l.* sterling.

3. The pilot employed shall always have a sufficient boat and two men, or one man and two boys, exclusive of himself, to attend the vessel on entering or leaving the harbour; and each boat shall have the name of the licensed pilot to whom it belongs, painted thereon, with a number, as directed by the superintendent; and all pilot boats belonging to one licensed pilot shall have the same number painted on each.

4. Pilots are always to be in readiness, with a boat manned as above, to take charge of a vessel coming into the harbour, when a proper signal is made, or of a vessel going out of the harbour when desired; and it is to be strictly observed, that a pilot boat shall be in attendance with the pilot on that vessel alone which he may be on board and have charge of, and on no account whatever to go to any other while so engaged, unless in cases of great necessity, bad weather, or extreme danger, and then only with the consent of the captain on whom they were attending.

5. No joint stock company to be allowed, but each boat and pilot employed to share by themselves; and it is earnestly recommended that every pilot frequently inspect the entrance to the harbour, and the harbour itself, at low water spring-tides, especially after storms or land-floods, for their own information in guiding vessels; the Commissioners being resolved severely to punish pilots who, through ignorance, negligence, or otherwise, run vessels aground when there is sufficient depth of water in the fair-way.

6. When fault is found with any of the pilots, a complaint against him must be left in writing with the superintendent, to be by him laid before the Commissioners, or a committee thereof, for the purpose of being investigated; and the complaint being proved to the satisfaction of the Commissioners or the committee, they shall inflict such punishment by fine, temporary suspension, or otherwise, as may seem proper; and if the committee think that the pilot should be deprived of his licence, they shall make a report to that effect to the Commissioners.

7. The master of every ship or vessel coming into the harbour, shall sign and deliver to the pilot who brought him in, a certificate, directed to the collector of shore dues, of the number of feet of water which his ship (naming her) draws, in order to fix the charge for pilotage; the number of feet being in words, not in figures.

8. No vessel under 40 tons' register shall be obliged to pay pilotage, unless she employs a pilot; and the masters or commanders of ships or vessels belonging to the port of Leith, shall not be liable in any fees for pilots or pilotage, except when they make a signal for a pilot, or employ one to navigate their ships or vessels.

9. All vessels from foreign ports shall pay 3 *s.* to each able-bodied man, but not to exceed two (two boys being held equivalent to the second man), unless required by the master, and 3 *s.* for the boat's attendance, exclusive of pilotage; and 2 *s.* 6 *d.* shall be charged for boat's and men's attendance, as heretofore, on all coasting vessels, exclusive of the pilotage. Inward vessels waiting for the tide shall be so placed as to be ready to come in immediately on the proper signal being made; and the duty of the pilot and his assistants shall not be considered as completed until the vessel is moored where the dock-master may direct, at the tide or time she enters the dock, if intended to go in; or otherwise, where the harbour-master may point out in the old harbour.

10. The superintendent, harbour-master, or dock-master, has power to give directions to pilots, and order them to take the charge of any ship, when wanted; and also, from time to time, to inspect the sufficiency of boats and crews, and take particular care that the pilots do their duty, and observe the preceding, and such other regulations as may from time to time be made by the Commissioners as relative thereto.

The Commissioners approve of the preceding rates and regulations, direct the same to be published in terms of the statute, and to be strictly enforced.

<i>Nota</i> , All goods, merchandize, and things not particularly mentioned in the above Table, shall pay either by the ton of eight barrel-bulk, or by the ton of 20 cwt. English, as usual. Goods of the produce of Scotland do not pay the merk per ton - - - -	- 3 4	- 13 4	- 6 8	- 13 4
<i>Nota</i> , All goods imported in general ships from London, Hull, or Newcastle, where the city's dues are collected by the bulkier along with the shipmaster's freight, are to pay, as usual, for each ton of eight barrel-bulk, the full merk per ton, and 6 s. 8 d. Scots of shore-dues; which, along with 5 s. Scots per ton of rowage, bulkage, and prime-gilt, amount's to 3 s. Scots per barrel-bulk, or 1 l. 4 s. Scots per ton - - - -	- 5 8	- 13 4	- 5 8	- 13 4

All goods which are not of the growth and produce of Scotland, when brought coastwise from ports of Scotland by unfreemen, or even by burghesses paying scot and lot, shall pay the whole merk per ton, and 6 s. 8 d. Scots per ton of shore-dues - -	- 6 8	- 13 4	- 6 8	- 13 4

All drag-boats, haddock-boats, or yawls, going off to the road, or to fish oysters, shall pay, each time they come in with fish, the fish-boats 3 s. Scots, and yawls 2 s. Scots.

All passage-boats, ferry-boats, and pinnaces, shall pay, of beaconage and anchorage, each time they come into the harbour, 2 s. Scots; but if they bring goods, &c. they shall pay as other vessels, according to the tonnage.

All vessels, whether ships, barks, or boats (other than drag-boats, haddock-boats, yawls, ferry-boats and pinnaces, before specified), shall pay, every time they come into the harbour, 1 s. 6 d. Scots of harbour dues for each ton of their burden. To ascertain the tonnage, the masters of ships are to produce to the collector the contract or agreement with the builder of the ship; and this being so ascertained, one-fifth part is to be deducted, and the remainder is to be the rule by which the said harbour dues are to be charged and paid. But if the shipmasters shall not produce the real contract or agreement with the shipbuilders, such shipmasters shall be obliged to haul their vessels to such part as shall be agreed upon, where the town's measurers can get the length of the keel, &c. for ascertaining the measure; and such shipmasters are to pay 6 d. Scots per ton for the expense of measurement. If any shipmaster shall refuse to haul his vessel to the place agreed upon, then the town's measurers are to measure such vessel where she lies, and ascertain the tonnage in the best manner they can; with which the shipmaster is to be satisfied, and pay the expense of measurement.

All shipmasters shall be obliged to take their ballast from the ballast-boats, if the shoremaster can furnish them with the same, for which they are to pay to the collector 9 s. Scots per ton; but if they cannot be so furnished, upon the shipmaster's informing the collector, and making instant payment to him of the real number of carts he is to take in as ballast, to be inserted in a ticket or warrant to be granted by the collector for shipping the same, he is only to pay 1 s. 6 d. Scots per cart; but if he gives a false account, or does not make instant payment, he is to pay at the rate of 3 s. Scots per cart.

Goods which have paid shore-dues, or shore-dues and merk per ton at their importation, shall, during the council's pleasure, in the event of their being exported in the same state, without being manufactured, be free of shore-dues outward, upon producing the receipt for the dues inward.

All goods delivered out of one vessel into another, shall pay but one half of the shore dues and merk per ton, coals excepted.

Empty casks, returned from Greenland, or the herring fishery, are to be free from payment of shore-dues during the pleasure of the council.

All logs of timber thrown out of ships in the harbour, or from the road, into the sea, whether for the use of carpenters or to be floated about, shall pay all the dues stated in the above table; and all logs floated from the coast of Fife, or any other place, are to pay shore-dues as if brought coastwise.

All materials imported to be used for making of glass, within the bounds of the present glasswork, are exempted from shore-dues.

Although the magistrates and council have also an undoubted right to 3 s. Scots per ton, in name of Gold-penny, for each vessel built within the harbour of Leith, either above or below the bridge, and for all vessels sold by public roup or privately, in whole or in part; yet, for the encouragement of trade, the council dispenses with the exaction thereof during their pleasure.

Every shipmaster, importer or exporter of goods, before he begin to load or unload, shall ascertain the tacksman or collector of his dues, and be obliged to consign a sum of money in his hand, equal to the extent of them, if required; and shall be farther obliged, within 14 days after the ship is delivered, and before she goes out of the harbour, to clear with the tacksman

tacksman or collector, otherwise to forfeit the whole sum consigned; and all rowers, porters, carters, metsters, or others, are hereby discharged to assist in loading or unloading any vessel, until the tacksman or collector allow of it by a ticket signed by him, under the penalty of 10 *l.* Scots.

All metsters or others, who are employed in measuring or keeping accounts of the corn, meal, bark, coals, peats, &c. delivered out of, or put on board any vessel in the harbour of Leith, are hereby discharged from receiving any dues for themselves, until they have acquainted the collector of the shore-dues of the full and true quantities delivered out of, or put on board any vessel they have been employed about: which account they are to give in within six hours after such vessels are delivered, and before they sail; and, in case of their neglect or refusal, or giving a false account, they shall, for the first fault, be suspended from their office, and if convicted of a second fault, they shall be discharged, and otherwise punished as the council shall think fit.

The city's bulker or bulkers at the port of Leith, are hereby ordered to keep a full and distinct account of all the goods delivered out of the vessels which he or they attend, and to give in to the collector of the shore-dues, immediately upon the delivery of each vessel, an exact copy, after the same manner the masters of ships get from him or them to collect their freight by, without fee or reward.

The shoremaster of Leith shall be obliged to keep a book, wherein, within an hour after every ebb, shall be regularly entered a list of all the ships, vessels, &c. that have come into the harbour the tide preceding; in which list he is to give a distinct account of the ships and masters' names, the places from whence they came, and of their bulk and cargo; and any person shall be at liberty, on payment of 3 *d.* sterling to the shoremaster, to advertise therein any ship or vessel outward bound, with the master's name and the port she is bound to: and the said book shall be kept at the light-house, and lie open for the inspection of the collector of the shore-dues, and all other persons, under the penalty of 10 *l.* Scots upon the shoremaster, if prosecuted within the space of eight days.

That the shore-dues and mark per ton of all kind of goods, whether by bulk, weight, or measure, shall be ascertained by showing the city's collector the bill of loading and freight account upon which the shipmaster is paid.

The tacksman or town's collector is hereby ordered to affix this Table upon the Custom-house and Weigh-house of Leith: and that the lieges may not be imposed upon, the tacksman or town's collector shall be obliged, under the penalty of 40 *l.* Scots, to carry about with him a copy of this Table, signed by the treasurer or city chamberlain, to be produced to any person he collects from, if required.

Given at Edinburgh, this

day of

N.B.—Besides the above, there is a duty of pontage, 1 $\frac{1}{2}$ *d.* sterling per ton, on all goods imported (47 Geo. 3, *cap.* 3); also 1 *d.* sterling per ton for prime gilt on all goods imported; this last duty belonging to the Trinity House of Leith.

As the harbour here was constructed exclusively for the purpose of shipping coals from Tranent Colliery, and not for general trade, vessels are only permitted to load or discharge cargoes as a favour, and when applied for, consequently dues are only charged according to agreement, or as per Table of Dues at the adjoining port of Fisherrow; no dues are charges of any kind being levied on vessels loading coals.

RETURN of DUES on Shipping and Goods at this Port, in the Years 1844 and 1845.

	1844.	1845.
	£. s. d.	£. s. d.
With respect to Shipping, the amount of revenue derived therefrom for anchorage, wharfage and berthage, was (Being at the rate of 2d. per ton) - - -	61 10 -	79 - -
Amount derived from Goods imported and landed, was - - - (Averaging about 1d. per ton.)	136 - -	212 - -

Besides the above no revenue has as yet been derived from the Victoria Harbour in connexion with this port, from the works not yet being completed ; but as the harbour contains an area of five acres, and will afford great accommodation for trade and fisheries, the increase will in a short time be very considerable.

N.B.—The foregoing duties on goods imported or exported, leviable by the magistrates and council, conform to an interlocutor of the Lord Ordinary, bearing date 12 May 1815.

The above custom and shore dues to be levied from unfreemen; burgesses to pay half. All commodities paying customs and shore dues at the harbour, to be exempted from every impost in going through the town, while they remain the property of the importer. Goods paying shore dues on importation by sea, and continuing the property of the importer, are entitled to be exported free of any impost whatever.

LERWICK.

LERWICK.

EXCERPT from Mr. *Wm. Sievwright's* Letter to Mr. *Horne*, dated Lerwick, 23d May 1846.

"THERE are no port or harbour dues either on shipping or on goods at Lerwick, nor ever were. Vessels, both British and foreign, both load and unload here without any port or harbour charges. Prior to Hay & Ogilvy's failure, the docks at Farefield were used by them for loading and unloading their own vessels. That was part of the possession that company had there, but they paid Mr. Hay a slump sum for their use of these buildings, and not merely for loading or unloading their vessels. Scarcely an instance occurred of other than the vessels in their employment loading or unloading there, unless any vessel in distress and requiring repairs, when the accommodation required was matter of circumstances and could not be stated, and does not seem to fall under the Order of the House of Commons, which seems to refer only to general rates chargeable on vessels, or on imported or exported goods. Goods are landed at Lerwick, and shipped by boats, and the quays or wharfs at which they are so landed at or shipped are either public quays, built by subscription and open without charge to all, or are private, and the property of, or held in lease by the owners or shippers of vessels or goods. Thus in fact the general rule is, that vessels frequenting this harbour come and go without payment of any charges, unless what they may give to pilots for attending them, and to the boats in which the goods are landed or shipped, and these boats are usually the property of the shipowners where the vessels belong to the port, and where not so, are hired by the owners of ship or cargo, as the bargain may be."

And on goods of all descriptions imported, per register ton - - - - -	- 3 d.

1844 :	£.	s.	d.
The entire amount of port and harbour dues for this year, for shipping, may amount to - - - - -	12	-	-
The entire amount of dues on goods imported - - - - -	39	-	-
	£.	51	- -

1845 :

The same may be stated on both for this year - - - - -	- 51 d.
--	---------

No particular account being kept for either, the above is taken at an average.

N. B.—The harbours here are all private property, and generally let out to tenants at a yearly rent. Besides what I occupy, there are other three piers or shores at *Newburgh*, over which I have no control, and can make no return for them; but the dues exacted at the whole are believed to be similar.

Interim I. P. Clerk.

STRANRAER.

STRANRAER.

RETURN for the Burgh and Harbour of *Stranraer*, for each of the Years 1844 and 1845, of the several DUES and CHARGES of every kind Levied as Port Harbour Dues on SHIPPING, &c., with the Aggregate Levied on SHIPPING and on Goods, &c.

A TABLE of the harbour dues upliftable at the quay of *Stranraer*, as exacted by the magistrates and town council thereof, and a table of anchorage dues payable for all vessels anchoring in the loch of *Lochryan*, is herewith transmitted in reference to this Return.

The magistrates and town council of *Stranraer* have no authority by Act of Parliament to levy said dues; and they have therefore been in the habit of annually exposing them to public roup and set, to the highest bidder, without giving any warrandice as to the right of dues, the extent thereof, or the mode of enforcing payment. In consequence of this arrangement, the dues specified in the table, herewith transmitted, have not, in very many instances, been levied by the tacksmen thereof.

With these explanations, the following is the aggregate amount received for behoof of the corporation of *Stranraer*:

Amount for the year 1843-44	-	-	-	-	-	£. 136	2	8
Amount for the year 1844-45	-	-	-	-	-	175	1	1
						£. 311	3	9

The expenditure for repairs on account of said harbour is:

Amount for year 1843-44	-	-	-	-	-	£. 36	9	9
Amount for year 1844-45	-	-	-	-	-	85	14	8
						£. 122	4	5

Note.—The quay of *Stranraer* is at present in a very dilapidated condition.

By authority of the Magistrates and Town Council of *Stranraer*,

Stranraer, 6 July 1846.

Abram Campbell.
Will. Black, Town Clerk.

STRANRAER.

TABLE of DUES to be uplifted at the Quay of *Stranraer*.

For each vessel coming to the quay with a general cargo inwards, to pay upon each ton of the registered tonnage of the vessel	s. d.
- - - - -	- 3
For each vessel with a general cargo outwards, per ton, on the registered tonnage of the vessel	- 3
For all vessels with cargoes which are not worth more than 25 s. per ton, such as coals, stones, or lime, &c., to pay on the registered tonnage of the vessel, per ton	- 2
For each vessel coming to the quay in ballast, on each ton, per registered tonnage of the vessel	- - ½
If taking out a cargo, to pay as above on her registered tonnage.	- - ½
Leaving the quay in ballast, to pay on her registered tonnage, for each ton	- - ½

N. B.—No anchorage or other dues than the above are to be demanded from vessels making fast to the quay; but anchorage is demandable from all vessels coming to the other parts of the port and harbour of Stranraer, agreeable to the following table of anchorage, which has been uplifted from time immemorial, in virtue of the charter of erection of the burgh of Stranraer.

TABLE OF ANCHORAGE.

PORTPATRICK.

Portpatrick.

Sir,
 Dinvin, 15 August 1846.
 In the absence of the proprietor of the harbour of Portpatrick (Colonel Hunter Blair, C.B. of Dunskey), I beg leave to state that the proprietors of Dunskey, who are also proprietors of the entire town of Portpatrick, have, from immemorial usage and custom, levied at Portpatrick $\frac{1}{4}$ *d.* per ton tonnage on all vessels entering the harbour of Portpatrick, and 2 *d.* per head on all horses, cattle, sheep, and swine, imported and exported at said port or harbour.
 There are no other dues whatever leviable at the port or harbour of Portpatrick; and Her Majesty's mail steam-packets are exempted from the charge of $\frac{1}{4}$ *d.* per ton, although the proprietors of Dunskey have always considered themselves entitled, if they chose, to exact payment.

Sir William Somerville, Bart. &c. &c.
 Home Office, Whitehall.

I have, &c.

THURSO.

RETURN of DUES charged on SHIPPING at *Thurso*, in 1844 and 1845.

Thurso.

THE only dues charged on shipping at the Port or River of *Thurso* is a charge of 1 *d.* per ton, in name of paulage dues, for the use of the posts or pauls erected on the beach and river banks, whereby vessels are warped out and into the river, and moored when in the river. The dues are exacted by custom, or use and wont. The pauls are kept up, removed, and replaced as occasion requires, out of the dues so collected, and any surplus is expended in improving the access to the river. There is no legislative authority for the exaction.

	£. s. d.
The paulage dues so collected on 3,899 tons of shipping, for the year 1844, at 1 <i>d.</i> per ton, was - - -	16 14 11
The paulage dues collected in 1845, on 4,204 tons of ship- ping, at 1 <i>d.</i> per ton, was - - - - -	17 10 4

No dues are exacted on goods.

Thurso, 3 July 1846.

Will. Mansell.
